Maritime Union.

The House of Assembly of New Brunswick has unanimously affirmed the desirability of a union of the Maritime Provinces. That is to say, the following resolution was, a few days ago, unanimously adopted:—

Resolved, That it is the opinion of this house that a legislative union of the Provinces of New Brunswick, Nova Scotia, and Prince Edward Island is desirable and would be in the public interest.

As a result of the adoption of this resolution the question will now, probably, be again discussed at large.

That we are all too much governed will be readily admitted.

That the money expended in the maintenance of five legislative houses and two Lieutenant Governors might well be saved and applied to the maintenance of roads and bridges, and schools; and that one legislative house and one Lieutenant Governor would be amply sufficient, if municipalities were established all over the country, will also, in view of the experience of Ontario, be admitted.

There seems to be no valid reason why New Brunswick and Nova Scotia should not at once unite as it is proposed that they shall.

As to this Province,—it is small, and politically weak, and geographically isolated. Consequently the people will not consent to yield to a Maritime Legislature in which they would have, practically, no influence, the control over their local affairs. If there were a tunnel or other means of continuous communication by which they could be, commercially and socially, on an equality with the people of neighboring Provinces, they might, perhaps, be induced to agree to a Maritime Union; and if effective guarantees were given that they would always have expended here, as they may desire, their fair share of the public money at the disposal of the Maritime Province's Legislature, they might perhaps be persuaded to enter a Maritime Union. But, otherwise, they are not likely to give up their present rights, unless forced to do so by the pressure of financial necessity.

We are bound to admit that the present tendency is towards a financial crisis, in which the people of this Province may be compelled to yield their Provincial rights. The Government of this Province cannot withdraw \$200,000 from our capital at Ottawa one year and \$100,000 from our capital in the Land Office another year, and bear up under an increasing debt or floating debt resulting from large annual deficits, without sooner or later arriving at the abyss of the financial chasm, where "something must be done," if we would avoid Provincial ruin and disgrace. If the people of this Province do not desire to be forced into Maritime Union and heavy direct taxation, they ought, as reasonable beings, to at once insist upon the adoption of measures to ensure the equilibrium of their Provincial revenue and expenditure.

A Mischievous Press

It is greatly to be regretted that the press of the United States lets slip no opportunity to cultivate a feeling of hostility between the United States and Great Britain. There seems to be no cause for this, other than jealousy of the importance which Great Britain's greatest colony has achieved as a result of the wonderful success of the Canadian Pacific Railway policy and a hope that political capital may be made in the coming Presidential election by exciting the anti-British feeling and winning the anti-British vote. This is evidently the reason why such a continuous bub-bub is kept up over the Behring Sea matter. The Government of the United States has really no better right to prevent Canadians and others from taking seals in Behring Sea, outside the three-mile limit, than the Government of Great Britain has to prevent United States fishermen from catching (outside the three-mile limit) mackerel in the Gulf of St. Lawrence or herrings off the coast of Ireland. But, in response to the representations that the shooting of seals in Behring Sea must be controlled, or Behring Sea seals will soon be lost to the world, Great Britain has consented to abide by an arbitration of the matter. This concession, yielded for the sake of good fellowship and the preservation of mutual interests, seems to have displeased rather than pleased the United States press. Every day the reading public of the States are brought face to face with gross and wicked misrepresentations of the motives and acts of Great Britain and Canada. Of course the other side of the question is, for the most part, kept carefully out of sight; and the result must be the production of a public opinion inconsistent with those friendly feelings which should ever exist between Great Britain and the Great Republic.

—The late blizzard caused \$100,000 damage at Duluth. —At San Luis Potosi, Mex., 65,000 bushels of corn from the United States have been placed on sale at low prices by the government to the poorer classes.

The Right View.

A LETTER from Mr. Cleveland seems to confirm the opinion that he is ready and willing to become a candidate for the Presidency. But he does not press for nomination by his party. His views in respect to candidature for high political position or office are right and well worthy of adoption by politicians in Canada as well as in the States. He says:—

"If you are right in supposing that the subject is related to a duty I owe to the country and to my party, a condition exists which makes private and personal considerations entirely irrelevant. I cannot, however, refrain from declaring to you that my experience in the great office of President of the United States has so impressed me with the solemnity of the trust and its awful responsibility, that I cannot bring myself to regard a candidacy for the place as something to be won by personal strife and active self-assertion. I have also an idea that the Presidency is pre-eminently the people's office, and I have been sincere in my constant advocacy of the effective participation in political affairs on the part of all our citizens. Consequently I believe the people should be heard in the choice of their party candidates, and that they themselves should make nominations, as directly as is consistent with open, fair and full party organization and methods."

We commend these words to would-be candidates for seats in our House of Commons and Provincial Legislature.

Temperance Societies.

One of the very best temperance entertainments ever given in this city took place last evening in the room of Orient Division, No. 161. At 8.15, the chairman, Bro. Theo. L. Chappelle, W. P., called the meeting to order and requested the brethren to sing the hymn of welcome, after which the chairman offered a few remarks. Bro. John A. Lawson followed with a practical reading, followed by a speech from Bro. J. J. Chappelle. A song by Bro. John Ross came next, who received an encore. Rev. W. Hamlyn spoke briefly, and concluded with a recitation. Bro. David Small read an appropriate lesson on temperance. The song, "Which way is your market a pointin' to-day," by Bro. J. R. Davison, was capitally rendered and enthusiastically received and a hearty encore tendered. Bro. John T. Mellish followed with a review of the situation, showing that the trend of the times pointed towards prohibition, and made complimentary mention of the work of the W.C.T.U. Bro. Alex. McKinnon's humorous reading, "Asking the Governor," was nicely rendered. After the rendition of "The Slave Ship" by Bro. F. H. Beer, in his own inimitable style, refreshments were passed around and met with great acceptance. After the feast of good things provided, Bro. J. R. Davison and F. H. Beer responded to encores and were followed by Prof. Earle in an instrumental solo, at the conclusion of which the National Anthem brought the proceedings to a close. The committee of management, Bro. G. H. Foster, John Ross and Roderick Matheson, are to be congratulated on the success of the social.

DOMINION PARLIAMENT.

Financial and Other Matters Discussed.

OTTAWA, March 19. In the House of Commons yesterday Sir Richard Cartwright said that it had been reported that owing to the failure of Baring Brothers, a considerable number of Canadian three per cents had been thrown back upon the hands of the Government.

Hon. Mr. Foster replied that not a dollar of the three per cent loan has come back. Sir Richard Cartwright asked if the Government proposed to continue the arrangement with Baring Brothers. Hon. Mr. Foster explained that the Government had given a year's notice, so that they could be in a position to make a new arrangement prior to January, 1893.

In respect to the Interior Department estimates, Hon. Mr. Dawdney announced that it was proposed to reinstate Mr. Burgess in the position of Deputy Minister.

Hon. Mr. Tupper's bill respecting the Department of Marine and Fisheries, and for the development of the sea fisheries, was read a third time.

In supply there was a lively discussion regarding Sir Charles Tupper's salary and travelling expenses to Canada last year. Mr. Laurier said that Sir Charles Tupper's charges for expenses were outrageous.

Mr. Davies said that Sir Charles came to America for the purpose of abusing his opponents.

Sir John Thompson denied Davies' statement, and said that Sir Charles came from England at the request of the Government to take part in commercial negotiations with the United States, which were imminent at that time. The item passed.

Canada & Newfoundland

A Phase of the Difficulty Presented.

OTTAWA, March 19.

Hon. Mr. Tupper, Minister of Marine, yesterday tabled a correspondence between the Dominion and Newfoundland Governments in respect to the issue of modus vivendi license. By order-in-council, dated 11th May, 1888, Canada suggested that the license fees collected by the two countries should be equally divided. The proposal was accepted by the government of Newfoundland the day following by telegram from Governor Blake. At the end of the season the Canadian Government duly forwarded to Newfoundland the authorities' statement of licenses issued during the season by Canada. But no such statement was received from the government of Newfoundland. The correspondence shows a gap from September, 1888, until April 2nd, 1891, when Sir Charles Tupper cabled the Minister of Marine and Fisheries, suggesting that he should ask Sir James Winter, at St. John's, to ascertain what number of licenses had been issued by Newfoundland during the seasons of 1888, 1889, 1890 and 1891. Sir James, in reply, cabled: "Unable to procure information you ask; Government forbid officials furnish."

Owing to dread of their dynamite outrages the guards at various public offices and at military stations in and around Paris, have been largely strengthened. The authorities are suspicious that the anarchists have many sympathizers in the police force and many government officers.

BAZAAR STORE

"What is the use in giving your goods away at half what they cost?" is a question asked us every day.

Just look at those 25, 30 and 50 cent NOVELS. You surely don't sell those for 8 cents?"

We do, and I will give you the reason. We bought a job lot from the publishers—bran new, just from the press—at quarter price, and we are going to give you the benefit. See the wonderful display in the window, then come right in. Our 10 cent counter is better still. Every book is new.

It looks as if we want money. Well we do, but we are going to give \$1.25 worth for every dollar you invest.

Another line that we are giving away is our last year's ROOM PAPER, while the new we have marked so low that we must beg of you not to ask for discount. When it is all open look out for our challenge. We are going to defy competition.

About BLINDS and CURTAIN POLES. You know where to get them.

Could you get 12 sheets of good Paper, 1 Green Envelope, 1 Penholder, 1 Pencil, Blotter and Pocket Knife for 10 cents two years ago? Hardly. What has made the change? Guess. If you cannot, come in and we'll tell you.

Further developments show that the BAZAAR CO. are selling a better 5 cent package of STATIONERY than any other firm in the city.

In these days, when newspaper advertising is getting so common, we have decided to make our customers our advertisers. All may enlist.
