

Free Book on Arthritis And Rheumatism

HOW TO AVOID CRIPPLING DEFORMITIES

An amazing newly enlarged 44-page book entitled "Rheumatism" will be sent free to anyone who will write for it. It reveals why drugs and medicines give only temporary relief and fail to remove the causes of the trouble; explains a specialized non-surgical, non-medical treatment which has proven successful for the past 35 years. You incur no obligation in sending for this instructive book. It may be the means of saving you years of untold misery. Write today to The Ball Clinic, Dept. 5262, Excelsior Springs, Missouri.

Mrs. Ralph Ellands was devotional leader and was assisted by Miss Pearl Craig and Mrs. Walter MacKenna.

It was decided that a supper be held in the Fall instead of a Pantry Sale in the near future. Mrs. Arthur Smith, Sr., Freeland, invited the members for next meeting at which Mrs. Walter MacKenna will be devotional leader. Lunch was served by the hostess, assisted by Mrs. James Williams and Mrs. George Williams. — P.

FAIR MARKSMAN

HUNTSVILLE, Ont. (CP)—Mrs. William Hughes, a young and pretty housewife, shot a 300-pound bear in her backyard and said Friday she found the experience "thrilling." When she sighted the bear, she was alone at home at Oxtongue lake. She grabbed her husband's .303 rifle off the wall and shot the invader from a distance of 60 feet. The bullet passed through the bear's head.

Tignish And Vicinity

—Mr. and Mrs. Henry Richard and son, Henry Jr., Halifax, N.S., who came to Tignish to attend the funeral of Mr. Richard's father, the late Joseph F. Richard, are spending a few days visiting friends and relatives.

When potato blight is here don't take chances • DEPEND ON DITHANE

When potato blight is here don't take chances DEPEND ON DITHANE

TESTED — APPROVED — ACCEPTED BY P. E. I. GROWERS

Can you afford to risk a year's crop by using an untried fungicide for blight control? Most successful growers say no... that's why they're using DITHANE. Many claims are made about fungicidal effectiveness, but only DITHANE offers proof of safe, sure blight control—protection for top growth and vines.

Year after year successful potato growers turn to DITHANE to fight blight because they have seen for themselves, in actual side-by-side tests, how DITHANE keeps fields blight-free and actually increases yields. In grower demonstrations DITHANE-protected fields consistently out-produced crops treated with other materials by an average of 49 bushels per acre, with more No. 1's in every bushel.

These facts are important to you because the wrong choice of a fungicide can mean the loss of an entire crop. It's happened before!

With DITHANE in your rig you're sure of adequate protection from blight.

Here are just a few reasons why:

• DITHANE stops blight before it starts—keeps clean fields clean and halts blight in infected fields even though it has attacked the crop.

On a yield-per-acre basis, DITHANE is an economical fungicide to use. What's more it's easy to use as a dust or spray.

DITHANE promotes healthy growth—won't burn or stunt vines and foliage. And your equipment is safe because DITHANE will not clog or corrode spray or dusting rigs.

DITHANE — through the years proved best by growers.

Remember, these are facts... not claims, because DITHANE has been "field-proven" as best against blight.

Prove it to yourself. Ask your dealer for DITHANE, as your neighbors have been doing for years. You'll get sure protection for your crop.

Ask your dealer for DITHANE
