SHOOTING MATCH—At Brookfield, on August 23rd, a very interesting and closely contested team match took place. The teams were composed of six men from No 5 Co., 82nd Battalion, and six men not belonging to the company, terming themselves the Rough Riders. Captain Beaton had charge of the No. 5 team, while the Rough Riders were ably led by Richard McDuff. Although the weather was unfavorable the scoring was fairly good. A valuable cup presented by Mrs Geo McDuff, of Providence, R. I., to the man making the highest individual score, was won by Captain Beaton with a total of 41 points. The ranges fired at were 200 and 500 yards, five rounds at each range. At the first range the Co's team led by sixteen points. A deeper interest was manifested at the 500 yards when it was found that the opposing team was gradually gaining. At the close the score stood 180 points for each team thus giving the Rough Riders the victory, having made the high score at the long range. The teams were as follows,

NO FIVE TEAM,
 Captain A. Beaton.
 Lieut Wm G Darke.
 Sergt Fred Dollar.
 Pte. Leslie McDuff.
 Pte. William McDuff.
 Pte. Fred G McLeod.

ROUGH RIDERS.

The Beverly Evening Times, of the 21st inst., gives up a lot of its space to a report of a brilliant yachting event carried out by the Jubilee Yacht Club. A splendid day was thoroughly enjoyed and the local club seems to have carried out its programme most successfully and to the great pleasure of all who attended. The Times contains a picture of our old friend, Mr. Charles Prescott, who is Commodore of the Yacht Club. Mr. Prescott has many friends in Charlottetown, although it is nearly twenty years since he severed his connection with the Anglo-American Telegraph Co. of this city, and struck out for the great republic.

The Saleability of Patents.

Many inventors who have not met with success in selling their patents are inclined to believe that there is no longer a demand for them, and in this view the general public appears to concur.

It is therefore worth mentioning that within a month there have been many patents sold, some of which brought their fortunate owners wealth.

At the head of the list is a patent which sold for the princely sum of \$98,000, and another brought \$75,000. A patent leverage brought its inventor the sum of \$25,000, while patents for pneumatic tools sold for \$20,000, and a churn for \$5,000. John J. Stone sold his patent for door bell and burglar alarms for \$75,000, and will henceforth probably use his own invention to protect his money.

Of course, the saleability of a patent depends largely upon the care with which the papers were prepared and the skill employed in obtaining good valuable claims.

Messrs Marion & Marion, patent solicitors of Montreal, have a number of clients who have realized large sums of money from patents procured by them, but who do not desire their names to be published.

Mr. Saxon gave a fine rendering of the prologue to 'I Pagliacci,' and introduced for the first time to the public a new song by Dr. E. M. Lott, 'The son of God goes forth to war' (Rossini & Co.), to the effective setting of which Mr. Saxon gave due impressiveness. These celebrated artists sing in this town on September 6th and 7th at the opera house. Tickets can be procured at the usual places. This will be the musical event of the season, and no doubt the hall will be filled.
