Canada Had Capital Outflow Of \$26 Million During March

OTTAWA (CP)—Canada had a net capital outflow of \$26 million in purchases and sales of securities in March, and more than 90 per cent of it went to the United States, the bureau of statistics has reported. But there was a net import of \$85,000,000 of foreign capital into Canada during the first three months of 1965. This was a sharp cut from inflows of \$376,000,000 in the fourth quarter of 1964. In the first quarter of 1964 Canada had a net purchase of foreign and foreign-held securities amounting to \$13,000,000. The bureau said the pattern of Canada's international trade in securities in March repeated February's performance with net purchase of both Canadian and foreign securities from non-residents. Trading in Canadian securities in March led to a net capital outflow of \$17,000,000, all but \$500,000 of which went for the repurchase of Canadian equities held by non-residents. The other \$9,000,000 went to purchase foreign securities and was the highest figure in this category in nine months. In the three month period, the bureau said, Canadian securities attracted \$100,000,000 of foreign funds, but Canadian purchase of \$34,000,000 of foreign securities reduced the over-all inflow. Sale of new Canadian issues

Canada-Russia Co-operation Moves Forward Another Step

By BOB MacKENZIE
OTTAWA (CP)—Canadian-Russian co-operation has moved into industry and applied science from the academic field with an agreement providing exchange of mining and metallurgy information and visits by engineers. "The program will provide a free flow of information across the North Pole," said Dr. J. M. Harrison, acting deputy mines minister. He exchanged letters of agreement with Dr. A. M. Samarin, deputy chairman of Russia's state committee for co-ordination of scientific research. Mining and metallurgy industries in both countries had similar problems, he said, and the exchange should be a great help to both nations.

Both Will Benefit

Russian officials agreed there would be mutual benefits, especially in segments of industry when one nation had a big lead. Dr. Samarin, who was completing a three-week tour of industrial sites in Ontario, Quebec and Nova Scotia with six other Russian scientists and engineers, said advantages would be evident both in research and in actual mining and refining operations. Boris Dudin, counsellor at the Russian embassy here, said both nations had "outstanding specialists" in these fields and the program would help eliminate duplication of efforts.

Cancer Research Director Named

LONDON, Ont. (CP)—Dr. John Alexander McCarter, 47, has been appointed director of the Cancer Research Laboratory at the University of Western Ontario. He succeeds Dr. Cameron Wallace who will become the head of the Department of Pathology July 1. Dr. McCarter, a professor of biochemistry and head of the department at Dalhousie University in Halifax, will assume these same positions at the UWO medical school. Dr. McCarter, with Dalhousie since 1948, will develop a program of research on biological and chemical events which take place in the cell exposed to cancer-causing substances.

Queen Still Strong

The common currency of Arabia and East Africa is the "fat lady," the 200-year-old Maria Theresa silver dollar.

Opening lead—nine of diamonds. This hand occurred in the match between Great Britain and the United States played in New York in 1955. At the first table, with an American pair North-South, South arrived at six clubs on the bidding shown. West led the nine of diamonds, not the king, in the hope that his partner would win it and return a heart. However, declarer won the trick in dummy with the ace, led a club and finessed the nine, then drew trumps and cashed the ace of hearts. When West showed out, declarer took spade finesse, losing to the

Commodity Imports In April Down Slightly From Year Ago

OTTAWA (CP)—Commodity imports from the United States fell one per cent to \$492,900,000 but were up 9.2 per cent in the four-month period to \$1,857,200,000. Exports to the U.S. rose 7.9 per cent in April to \$403,600,000 from a year earlier, and were 11 per cent higher in the four-month period to \$1,486,200,000, leaving Canada with a commodity trade deficit for the month of \$34,600,000. However, imports for the first four months of the year rose 7.9 per cent to \$2,545,700,000 and exports rose 2.5 per cent to \$2,515,700,000. Last year's commodity trade surplus of \$95,500,000 in four months was switched to a deficit of \$29,900,000 this year. The bureau reported that imports from the United Kingdom fell 4.1 per cent in April to \$56,100,000 but were 2.3 per cent higher at \$190,000,000 for the four-month period in 1965, as compared with 1964. Exports were down 11.8 per cent in the month to \$85,300,000, and off 3.6 per cent at \$351,400,000 for the four months. In trade with other Commonwealth countries and those with which Canada has preferential tariff agreements, imports into Canada increased 21.4 per cent in April to \$28,700,000, but were 7.3 per cent lower for the four-month period at \$86,900,000. Exports to these countries were 11.8 per cent higher in April at \$47,700,000, and 13.2 per cent higher for the four months at \$161,500,000. Imports from all other countries rose one per cent in April to \$122,100,000 and were 8.7 per cent higher for the four-month period at \$411,600,000. Exports dropped 17.7 in the month to \$129,600,000 and were off 15.9 per cent in the four months to \$516,700,000.
