THE Chicago Press, referring to the "killing frost" which fell upon some of the Northern States a few nights ago, says "it is certain that farmers throughout large sections of the country have been badly crippled, and in some sections many are crippled for life."

We observe, with great pleasure, that in the last issue of the Scottish American, Mrs. McLeod's song "Lo-h Katrina," occupies the place of honor. This is the second time that this talented lady's productions, written for THE EXAMINER, have been reproduced by, and taken the first place in, that popular journal.

INTERESTING specially to the ladies is the news that the United Methodist Conference at Belleville has, in adopting a marriage ritual, left the word "obey" out of the question asked of the woman about to be wedded. The question will henceforth read:—"Wilt thou love, honor, and keep him (the husband) in sickness and in health?"

AMERICAN CANNED FISH FOR AUSTRALIA.—A leading firm of wholesale fish dealers and packers in Boston have within a few days shipped an order of canned fish to Australia. This is the third order which that firm has received for shipment to Australia as the direct result of their fine exhibit at the London fisheries exposition.

SOME ultra Grits are finding fault with the speech of Sir Leonard Tilley at the Carnarvon banquet. But they have nothing to say to the fact mentioned by Sir Leonard, that, while \$10,000,000 of the subsidy have been paid the Canada Pacific Railway Company, the net interest of the public debt is less by a quarter of a million than it was when that great financial genius and speechmaker—Sir Richard Cartwright—managed the finances of this country!

THE drains at the foot of Queen Street have been clogged with debris; consequently the water could not pass through this morning, and the street was flooded and some of the cellars were half full. To-day, after the damage is done, men are at work clearing the drains. Citizens who have been put to trouble and expense by reason of Civic negligence, are in duty bound to sue the Corporation and the officials, and make them pay the cost. A few actions for damages would teach them to be more careful.

ENSILAGE.—Mr. C. R. H. Starr, of Port Williams, will commence cutting ensilage and packing it in his silo on Monday, 24th inst., and will continue the operation during the three following days. He will cut about one hundred and fifty tons of fodder and will employ from ten to thirteen men and three or four teams well engaged in storing it. Mr. Starr is well satisfied with the experience in the use of ensilage, and will be pleased to have all who take an interest in the subject visit his farm and witness the operation of filling his silo.—Kentville Chronicle.

THE market to-day was not so large as usual. Prices as follows:—Beef (small) 5 to 12 cents; do. MILTON CAMP NOTES.—Lieut. J. A. Longworth of No. 2 Batt. Garrison Artillery, joined the camp yesterday afternoon. Colonel Taylor, D. A. G., will inspect the camp to-morrow morning at 6.30 o'clock. The reveille is sounded at 5.30 a.m., instead of 6.30 as erroneously stated in our last report. Large numbers of visitors daily arrive at the camp and watch the proceedings with great interest. Brigade Major Freeland, Major Irving, Lieut.-Col. Beer, Major F. Dougherty and others of the officers are indefatigable in their efforts to make Milton Camp a success. All the men speak very highly of them.

THE many friends in this city of Mr. Sydney Weatherbe, son of Judge Weatherbe of Halifax, N. S., will regret to learn that he was instantly killed by the accidental discharge of a gun whilst out shooting on Saturday last. At the time of his death Mr. Weatherbe was 19 years old. He had almost completed his course in King College, Windsor, after which he intended studying Law. In this city he was well known, having attended the St. Peter's School for a number of years, and making many friends. He was a nephew of Mrs. G. R. Beer, who has heard doubtless of his untimely death with much sorrow.

CRICKET.—Referring to the cricket match between the Wanderers and New Truro Clubs played at Halifax on Saturday last, the Halifax Herald says that it resulted in a victory for the city eleven by four runs, though it is doubtful if such a game can be dubbed a victory, or will in any way shed a lustre upon the Wanderers' record. Taken on an average the visitors both outbatted and outfielded them. The Wanderers went to the bat first, but with the exception of Henry, none of them succeeded in reaching a double figure, and six were retired for 0. Kaizer, who is generally looked to for a big score, was run out early in the inning, and Henry was given a half dozen "lives," two or three chances to get him out having been lost before he reached the double. The bowling of McCully and Blair was excellent, and proved too puzzling for a majority of the batters. About 2.45 the Truro men went to the bat, and played steadily and carefully throughout. Faulkner was the only one who got together two figures (19), the rest going out for singles and three of them for well on, but the support in the field was away below the average of the Wanderers. A noticeable feature of the game and one from which an easy conclusion can be drawn, is the fact that three of Truro's strongest men were given out by L. B. W.

THE Toronto industrial exhibition closed on Saturday evening. The total receipts are \$32,930, and increase over those of last year of \$4,636. This sum denotes the number of paying visitors, adults and children, to have been 149,750. It is expected that the net receipts will aggregate \$10,000.

THE latest addition to the Inman fleet, the "City of Chicago," made her trial trip on the 12th inst. down the Firth of Clyde, attaining a speed of fifteen knots. Her length is 430 feet and tonnage 5,690, and she will accommodate 1,200 stowage, 240 first, and 86 second-class passengers.

THE Live Stock and other exhibits for the St. John Dominion Exhibition will be put on board steamer "Princess of Wales," at the Steam Navigation Co.'s Wharf, on Thursday evening, Sept. 27th, for Point du Chene. The Prince County exhibits will be shipped from Summerside on Friday morning.

THE GRAND PICNIC at St. Peter's Bay will be held to-morrow. The train leaves Charlottetown at 8.15 a. m., and returning will leave St. Peter's at 5 p.m. Fare from this City including entrance to the grounds is only 75 cents. Everything will be done to make this the most attractive thing of the kind this summer, and we feel confident that large numbers from here and elsewhere will patronize it, and contribute to its success.

THE attention of the Presbytery having been called to the circumstance that the Clerk is about to take a holiday of a few weeks duration, the members expressed their cordial good feeling towards their brother, and their sincere desire that he might enjoy his season of relaxation, and at the same time lay up stores of strength and vigor, for renewed usefulness on his return to his field of labor.—Com.

WE regret to learn that Jeremiah Simpson, Esq., of Hope River Mills, met with a very serious and painful accident this morning. So far as we can learn, Mr. Simpson was on his way to this city when his horse taking fright and becoming unmanageable, threw him violently from his vehicle, thus fracturing both his legs and his left arm. Drs. Jenkins and McLeod were immediately sent for, and left this morning for Hope River to relieve, if possible, the injured man's sufferings.

Terrific Explosion.

WOOLICH ARSENAL BLOWN UP.

At an early hour this morning a report came over the wires to the effect that a terrific explosion had occurred in Woolich Arsenal, destroying a large amount of property and killing many persons. Fragments of it is said were blown miles into the country. The cause was not stated—probably dynamite. Owing to the suspension to-day of telegraphic communication with the Mainland we are obliged to go to press without full particulars.

Juno—The Soldiers Pet.

Soldiers are, as a general rule, are very fond of dumb animals, horses, dogs and cats being the favorites. In many of the British regiments there is pet horse or dog, and the French Zouaves hardly ever move on the march, without a cat being safely placed on a knapsack. Report comes to us of the death of a pet Irish setter, which led the Gordon Highlanders over the ramparts of Tel-el-Kebir. Juno, the heroine of Tel-el-Kebir, has been carried off by the cholera. By a curious coincidence the brave old retriever's master, Corporal Bull, died only two days before of the same disease. Juno was an Irish setter dog, belonging to the First Battalion Gordon Highlanders. Her first master was Lieut.-Col. Vandeleur, and on his leaving the regiment, Juno was then serving in Malta, became the charge of a certain gallant sergeant, who it is said, frequently shared his dinner with her. When the order came for Egypt it was universally decided that Juno must accompany the regiment, and accordingly she went through all the vicissitudes of the campaign, even to the trenches of Arabi's famous stronghold. There, on that eventful day, a writer of Land and Water tells us, "she bravely rushed" on the intrenchments at the head of the Highlanders, and inside displayed a coolness and a courage which elicited universal applause, no more minding the rain of bullets than if she were out snipe shooting. Whether she tackled the enemy we do not know, the rest we can vouch for. Even if her teeth did not meet in any Egyptian leg, her appearance must have spread consternation in the rebel ranks. Here they thought, no doubt, was one of the 2,000 blood-hounds which Sir Garnet Wolseley was credited with keeping in reserve, and the dauntless pluck exhibited by Juno must have duly impressed upon their timid minds the awful consequences which would befall them if they waited for the arrival of her 1,999 canine comrades. They did not wait, but bolted for their lives, with Private Juno snapping at their heels, and as the wave of war rolled forward this glorious dog swept over on its crest until its force was spent and the Egyptian army was likewise spent. Such, then, was the gallant achievement which has endeared Private Juno to the Gordon Highlanders for ever. After leading the whole British force into Arabi's entrenchments, Juno became the recipient of many honors, the last being a silver collar subscribed for at home by some of her English and Irish admirers. This handsome gift reached her shortly before her death. It will now be kept, according to their expressed wish, at the officers' mess, as a souvenir of the battle in which the First Battalion of Gordon Highlanders so greatly distinguished themselves.

Capt. Miller, of the fruiting steamer D. J. Foley, which arrived at Philadelphia, on the 22nd inst., from Kingston, via Port Antonio, J.A., reports that the ports of Jacmel and Jeremie are completely in the hands of insurgents. A large cargo of provisions sent from Philadelphia on the Foley was purchased in Kingston by agents of the rebels and shipped to Jacmel in sailing vessels. An iron steamer of English build, called the Eider, was purchased from an English line running among the islands, and guards Jacmel against all vessels attempting to land or assist the Government forces. President Salomon is reported to be anxious to lease Hayti, but is prevented by his followers, who claim that he has over \$500,000 in gold on deposit in London and Paris which belong to the Government. His family are in Europe and the money is deposited in their name. It is also reported that the steamer Eider will intercept the new steamer Dessalines, when put under Haytian colors. The Eider is reported to be a small vessel but fast, and adapted for shoal water service.
