The first Christmas card arrived at the office this morning. "A little early" the message read, but nonetheless most welcome. "I wonder when Jamie will get around to putting up a picture of the children this morning. He stood a moment in the yard, surveying the lawn. 'I remember' he nodded 'they were pretty last year.' And the Old Year walks the paths they take those days. Intriguingly, there's a ghost of the past. We fancy he too stops now and then to look off over the country. I.e. a hand that's a little bit of eyes, once so keen and merry, but now faded and sober, which is a reminder to us that our memories are not so clear as we think. Remembering. But what does the Old Year recall? No, the excessive rainfall and the clouds low and grey. But those days, Sunday, we spent with smiling skies, whereon bated lay white cloud-drift. "First and foremost," he continued, "a gourmet soup is not sweet, or even on the sweetish side. Go to France, Switzerland, Italy, Greece, Hong Kong or any country where soups are frequent fare and you will not find regular soups that are sweet. They are well seasoned with herbs or spices or a bouquet garni and feature their major ingredient. RICH TASTE. "The tomato potatoe of France par exemple, is rich in taste but it is not sweet like a dessert. Neither is a true split pea soup."

BY ISLANDER Well, this is the home stretch and there are a lot of funny things taking place - and some not so funny. A lot of people are getting a laugh out of one candidate in Charlottetown who is going to start plugging up new industry. He's piled one up on another that's a good distance from Charlottetown in Nova Scotia. Well, it's kind of like a person said to me the other day, that person's hard to figure, he jumps from party to party and province to province.

Water Shaw came charging into the Provincial Building the other day all fired up and the first thing he said is, "we've got to get down on the stairs leading up to the Confederation Chamber and we tried to tell this person the facts. He said, 'I don't care, but he was surprised when he found that sometimes the progress of the province is stopped by a handful of nifty people. He said, "congratulations, but he admitted that some industries have a slight tinge of politics about them. Well, after a while he did a little more thinking and said, "It isn't much of a person that will keep dozens of people from getting their jobs just so he can get one for himself." That sounded pretty sensible to me, but it was a bit of a puzzle. I think that a government like Water Shaw's start to bring in some industry and there is always someone who will say, "I'm a friend of your home, except when an industry comes you get more of than you want. You don't want to see them or head them off, you try to make it pleasant for them. Last year these same people howled, "what are you doing helping a friend of your home? You're helping a friend of your home. This is an outside plant, it comes from Western Canada." That kind of thinking will lead someone in Charlottetown to keep an eye on an industry that's coming in. But some companies are going to come here and they're going to like it, and we're going to like having them, and if they don't do things the way we like, we'll get more of than we want. You don't want to see them or head them off, you try to make it pleasant for them. Last year these same people howled, "what are you doing helping a friend of your home? There was a lot of sense in an editorial in yesterday's Guardian where it said something about it being good to encourage local products. Everybody believes in this and what's more you're going to get a lot of it in the next few months. But what the newspaper was saying is that the two biggest problems that are facing us here are that we don't know how to sell. The biggest of these two, they tell me, is sales. Then again I hear that the government is giving thought to a sales or market office of a different sort than we've ever had and this may help a lot of fellows. But that Guardian article isn't right unless a new company has a place to sell the products it has there's not much use in getting into it. But I say I think you've got the whole thing change for the better after December 1962, when Water Shaw and his boys get the signal from you to go ahead and really develop the province. (adv.)

MR. AND MRS. KENNETH W. KING

Former Island Girl Weds At Lovely Ceremony In Montreal

St. Malachy's Church in Montreal was the scene of a lovely fall wedding recently when Hazel Eleanor Martin became the bride of Kenneth William King. The bride is the youngest daughter of Mr. and Mrs. Maurice E. Martin, Charlottetown and Mr. King is the son of the late Mr. and Mrs. Frederick King of King's Island.

The ceremony was performed by Rev. Peter McGlynn, T. H. the organist was Mrs. Cadrin, who accompanied Mr. Albert Biondi, the soloist.

The bride, given in marriage by her father, wore a floor-length gown of peach crepe de chine featuring a beaute necklace. The fitted bodice was embroidered with cut-out applique which was repeated at the neckline. The sheath skirt was partially overlaid with a green velvet drifed into the folds of a chapel train. A bouffant elbow length veil of tulle illusion was gathered to a white pillbox of a pseudo-de. She carried a bouquet of white stephanotis and gardenias.
