

Lenten Meditation

From The Columns of The Times, London
THE SECOND COMING

"We believe that thou shalt come to be our Judge." The words of the Te Deum, as they ring down the centuries, can convey to later generations only some faint echo of the early Christian hope of the Lord's return. When that return did not take place within the lifetime of the first generation, a doubt arose as to whether it would take place at all, so that one of the latest writers in the New Testament had to find an answer to the mocking question: "Where is the promise of his coming?"

The Fourth Evangelist at this point rendered a service of the utmost value by the fresh interpretation he gave of the original expectation. It had been fulfilled, he urged, inasmuch as Christ had come again by his Spirit, and was to abide henceforth within the Church for its encouragement and guidance. As men came to understand that this had taken place already they ceased to scan the heavens for his return on the clouds.

But perhaps the meaning of this symbolism is not exhausted so for the early Christians, it must also be said, felt that while the victory of Christ was real, it was as yet far from complete. To make it possible to separate what was of permanent value in their hope from the particular form it assumed.

The hope of the Lord's return means, in the first place, that the future is claimed for him. The Christian ventures into its unknown territories as liable as any man to be dismayed thereby, but at the same time confident that Christ is adequate to whatever he may meet there. The severest trial will offer him a fresh opportunity to do again what he did at the Cross and transmute loss into gain.

A second meaning, and akin to this, is that what God gave to his world in sending Jesus Christ has not yet been fully apprehended. There are aspects of his truth that still wait to be grasped; a fuller disclosure still to be made one day. The hope of the Lord's return is the confidence that God has not finished his work for man in Christ, that he has still overtures of grace to make through him.

But what of Christ as Judge? There is a final standard by which men and nations are judged, a criterion that makes plain whether or not it was worth while for them to have been, and this is in Christ. No more searching judgment can be passed on human virtues than to ask how they bear the light of his holiness; nowhere is human self-assertion so put to shame as when it is contrasted with his self-giving.

He who would know the verdict God passes on his life cannot do better than lay it alongside his, and a civilization is only fit to endure as it incorporates something of his concern for the weak, the unfortunate, and the erring.

Dairy Superintendent Stresses Trend In Cheese Requirements

"It is becoming quite evident that the manufacture of cheddar cheese from unpasteurized milk is fast drawing to a close in this Province," stated Mr. H. J. MacDonald, Dairy Superintendent, in his report to the annual meeting of the Prince Edward Island Dairy-men's Association yesterday. Mr. MacDonald noted that the production in Canada in 1952, compared with the previous year, is twenty million pounds lower. The price factor entered into the picture also; "but," he added, "if we are to look for more stability in the marketing or making of this product we shall likely find it in the cheddar cheese made from pasteurized milk."

The total amount of milk pasteurized for market purposes in 1952 was 10,352,311 pounds compared with 9,620,093 pounds in 1951. This was an increase of 7,521,218 pounds or 7.6 per cent. For the past ten years there has been a yearly increase in consumption of pasteurized milk, which is proof of a growing necessity or demand for it.

The speaker noted that the total amount of ice cream made in 1952 was 845,640 quarts, an increase of 40,976 quarts, or 6.2 per cent, over 1951 production.

Mr. H. J. MacDonald

of 132,445 pounds or 3.04%. Gross value of butter made was \$3,006,687.32. Average price received for butter was 81.97c. Average net price paid for fat was 86.95c.

"Every year at the end of the grading season a tabulated report is received from the Dairy Products Division, Department of Agriculture, Ottawa, showing the total pounds of butter and cheese graded for each province in Canada, and the percentage placed in the different grades. This year's statement shows that there were 4,690,734 pounds of butter graded between December 3, 1951 and November 29, 1952, which was 96.56% of the total made. Of this amount 93.01% was First Grade and 6.99% Second. This is an increase of 2.31% First Grade over last year.

DR. W. J. P. MacMILLAN will tell you why you should give generously to the Red Cross Campaign on C. F. C. Y. on Saturday, March 14th, at 1.00 P. M.

RETREAT. — Rev. J. L. Maddigan, C.S.S.R., conducted a very interesting retreat for about 36 Sodalis and students at Tracadie convent, March 6th—8th.

L.O.D.E. MEETING.—The March business meeting of the Earl of Hillsborough Chapter, I. O. D. E. was held March 9th at the home of Mrs. J. W. Hunter. The Regent, Mrs. Gordon Rayner presided. The financial statement, presented by the treasurer, Miss Margaret MacMillan, showed that a satisfactory sum was made at the Valentine Bridge held at the Clover Club. An amount of \$50.00 was voted towards Flood Relief, and an account for books for the adopted school was passed for payment. Discussion took place regarding the adoption of another school and the educational secretary, Miss Mabel Adams, agreed to make investigations and report at the next meeting. At the request of the Red Cross Society for two volunteer collectors for their annual drive, Mrs. Hunter and Miss Dorothea Stewart offered their services.

Grade Of Cheese

"When the production of a dairy product, especially that of cheese and butter decreases, the maintenance of quality becomes more difficult. This holds true in the case of cheese this past season. A certain lack of interest on the part of the producer in the care of milk, due to the low price received for cheese, reflects in the quality of the product when graded. There was also a tendency on the part of some makers to carry too much acid in the manufacture during the warm weather and as a result the percentage of First Grade dropped slightly below that of last year.

"In 1952 there were 5,658 boxes graded showing 76.21% First, 23.45% Second, and 34% Third. In 1951 there were 7,090 boxes graded with 78.20% First, 21.28% Second, and 62% Third. In 1952 there were 1,432 fewer boxes graded than in 1951, with 1.99% less in First Grade."

Grading Of Cream

The report notes that grading of cream was begun on June 13. Every can of cream that did not meet the standards of Special Grade was placed in First, and a specially prepared notice indicating the grade was sent to the patron on his can. Cream that did not meet the requirements of First Grade was rejected.

The following statement was given of production and value figures:

IN MEMORIAM

In loving memory of Sarah E. Webster, who passed away March 12th, 1951.

Loving and kind in all her ways,
Upright and just to the end of her days,
Sincere and kind in heart and mind,
What a beautiful memory she left behind.

Lovingly Remembered by Sally and Ruth.

IN MEMORIAM

In memory of our daughter, Mrs. Edna May Gauthier, who died March 12th, 1948.

Long days, long nights she bore the pain,
Knowing she'd never be well again,
Till God himself knew what was best
And took her home and gave her rest.

I did not then Thy purpose see,
But knew it was well since done by Thee.

Lovingly Remembered by Her Parents, Mr. and Mrs. J. A. Duncan, and Her Sons, Jackie, Arthur and Freddie and Daughter Florence.

Card Of Thanks

I wish to express my thanks to my Doctors, Nurses and Hospital Staff for their kind attention given me. Also to my many friends and relatives who so kindly visited me and sent me flowers, cards and treats during my illness.

Mary MacDonald,
Kensington.

WHEN PAIN STRIKES

At the first twinge of rheumatic pain—take Templeton's T-R-C's. Over a million T-R-C's used every month, for speedy relief from pain caused by rheumatism, arthritis, neuralgia, lumbago and sciatica. Why suffer needlessly? Keep T-R-C's on hand, and use them promptly. Only 65c. \$1.35 at drug counters. T-442

ELLEN'S DIARY

Continued from page 2

To shop for us and to visit a while with the twain of folks there, loving the outfit which provided her business and pleasure. And would she not have experienced some loneliness to discover that the pair who occupy so wide a place in the esteem and affections of those whom the store serves are now on holiday? Interested welcoming smiles miles away, though another kindly pair serve now in their stead. Yes, we fancy, Judy lonely would be, though wishing them pleasant holidaying and a safe return.

Visitors in the flesh sat about our fire tonight—indeed they have just gone, homing into the moonlight. One, a farmer, quiet-voiced, a smallish man, genial, and not so young as once, proffered his empty tea-cup after lunch to request with a Scottish accent, "Would you read this for me, Ellen?"

"Did you make your wish?" we queried.

"Ay, Ellen," he replied softly, "I made my wish!"

Until tomorrow—Diary—Good-night

BABY'S COLDS

Help Nature To Fight Them Off

Medical Science denies there is any such thing as a cure for colds—only Nature herself can do it. So when baby's sniffles, or stuffy breathing, warn you of a cold, presence—cooperate at once with Nature. See that baby is kept warm, gets plenty of sleep and take extra care that the bowels are thoroughly cleared of harmful wastes. To do this without upsetting baby's whole system and further weakening it, try Baby's Own Tablets. Mild, yet act rials that make baby restless and feverish. One Nova Scotia Mother says: "My baby of 26 months caught a nasty cold so I tried Baby's Own Tablets and she threw this cold off quicker than ever before. I certainly am for Baby's Own Tablets from now on." Equally good for restlessness and peevishness resulting from irregularity at feeding time, for constipation, digestive upset and other minor infant troubles. Get a package today at drugstores.
