THE DAILY EXAMINER.

AUGUST 24, 1896.

MANITOBA SCHOOLS.

Mr. Laurier has declined to furnish a statement concerning the alleged settlement of the Manitoba School Question. But some details of the "deal" have leaked out in Winnipeg. It is reported there that Mr. Sifton is to be Minister of the Interior and that it has been agreed "to pass legislation compelling school boards to employ one Roman Catholic teacher for every fifty Roman Catholic children, and one Protestant teacher for every fifty Protestant children." Arrangements will, it is stated, be made to carry into operation the agreement of which this is the essence. It will at once be seen that under this agreement the rights of the Roman Catholics have been admitted, and that they will get all that they want—that is to say, Separate Schools in practice. As the Norwester remarks, "This is definitely and distinctly a system of Separate Schools, established upon such a basis that Roman Catholics will receive their full proportion of State aid and public grants,—precisely what Mr. Greenway and his followers definitely and emphatically stated over and over again they would never concede." But the Liberals, having succeeded in dividing and conquering the Conservatives, are not particular now about their pledges to the majority in Manitoba. The agreement will, we presume, be formally announced after the bye-elections have been contested. We sincerely hope and trust that the agreement will prove to be satisfactory to the Roman Catholic minority in Manitoba. It is remarked by the Norwester that "so far as the brief synopsis of the settlement which has reached us enables us to judge, we are not prepared to say we have any contention with its propositions. The settlement is on the lines which we contended were just and equitable to the Catholic minority, and are such as were indicated by the judgment of the Imperial Privy Council." The prospects of an acceptable and final settlement of the question may, in view of this expression of opinion, be considered to be good, even though the majority in Manitoba and many of the strongest Protestants throughout the country have been deceived and misled.

LEADERSHIP OF THE SENATE.

The Patriot, of Saturday, reports a movement at Ottawa towards the election of the Honorable Donald Ferguson as Leader of the Liberal-Conservatives in the Senate. This is the best evidence in the world that Senator Ferguson's ability for the position has been recognized by those by whom his name is mentioned. The Patriot and those whom it repesents in this province will no doubt rejoice with their fellow Islanders in the news that Senator Ferguson is considered to be worthy to occupy a position at once so highly honorable and responsible. The friends of Senator Ferguson who have been inclined to fear that he is rather too much of a fighter to be entrusted with a duty which calls for calm, considerate and judicial conduct, will be glad to hear that his political opponents at Ottawa have given proof of their belief that he is competent. We, however, entertain the opinion that so long as Sir McKenzie Bowell remains in the Senate he will be leader of the Liberal-Conservatives there. The Patriot's correspondent seems to think that a preference of Senator Ferguson implies "factious opposition in the Senate." This is certainly a mistake. The Liberal-Conservative Senators are able, experienced, patriotic and independent men. They are not the men to be led into "factious opposition" by Sir McKenzie Bowell, Senator Ferguson, or anyone else.

NO BOOM YET!

We have not yet—even though a splendid harvest is in sight—begun to feel the "boom" which is to result from the accession of the Liberal Government. It is stated that "nearly all branches of business are quiet and featureless," and that "the outlook is not particularly bright." Bankers are very conservative in giving credits, and the disposition is to reduce discounts. There is some demand for money for the purchase of grain, and this demand will, of course, increase for some weeks to come. But the volume of trade so far this month is said to be smaller than during the same period of last year. Nevertheless, there is a good time coming.

—The newspapers of Paris are discussing quite freely the influence of the bicycle upon women. It is stated, for instance, that the majority of women affecting the bicycle have increased their waist measure by two or three inches. A fashion paper has taken the matter up, and says the statement, if true at all, is only so within narrow limits. Some bicyclists are affecting Grecian waists, as some of them are wearing baby socks with their legs bare to the knees, but the large majority of women are as closely laced when on the wheel as on the promenade or in the drawing-room, or if they make any difference they have two pair of corsets, one for the wheel, a little more flexible and perhaps a trifle looser, and the other pair for house and street wear. Besides, adds the paper, even supposing the majority of bicyclists are permitting wheel riding to enlarge their waists, they form a very small proportion of fashionable Paris, who are as noted for their small waists and elegant upright carriage as ever. The fashionable corsetieres say that there is no tendency among their patrons to an increase in the size of their waists. If anything, the contrary is the fact. In conclusion the paper says:—"Wheeling for women is only a passing fad, and will leave no permanent effect on fashion. Already the wheel is migrating from St. Germain to the Quarter Latin; from the society lady to the grisette and cocotte."

Disease attacks the weak and debilitated. Keep yourself healthy and strong by taking Hood's Sarsaparilla.

NOTES AND COMMENTS.

—A telegram from Montreal states that the Honorable Mr. Tarte "spent $15,000 in Beauharnois in a vain attempt to defeat Mr. Bergeron." We hope, for the credit of Canada, that it can be proved that this statement is not correct.

—Referring to LordRussell's address at Saratoga, the Pall Mall Gazette says: "We know that behind the sentiments of Lord Russell are the sentiments of the whole of one nation and behind the enthusiastic cheers of his audience the whole of another. His magnificent speech will go far to cement national good will more firmly.

—A considerable portion of the large amount of Canadian gold invested in the United States, is being withdrawn on account of the monetary disturbance consequent upon the Presidential contest. It is time that the currency of the Great Republic were fixed upon the right basis and put beyond the reach of the politicians. Currency tinkering is as bad for the country as tariff tinkering, and less excusable.

—All banks doing business in Newfoundland refuse to accept American silver coin under any circumstances and demand five per cent. discount on American notes. The policy holders of American life insurance companies too are starting an agitation demanding that the policies be endorsed as payable in gold. The uncertainty of the financial and political situation in the United States is responsible for this.

—A cross petition has been filed at Toronto on behalf of W. H. Bennet, the sitting member for East Simcoe, whose election has been protested. The petition alleges that Hermon Henry Cook, by his own acts or those of his agents, has become incapacitated from sitting in the House of Commons, voting at an election for the same, or holding any office in the nomination of the Crown, for the statutary period of seven years. If we mistake not, Hermon Henry Cook is an old offender against our election laws.

—The Brandon correspondent of the Winnipeg Free Press writes: "The citizens are anxiously waiting the decision which it is expected Dalton McCarthy will arrive at in regard to the representation of Brandon constituency in the dominion house, and speculation is quite rife. It seems, however, to be the prevailing opinion that should McCarthy resign this seat, it will be on the distinct agreement and understanding that the school law as at present existing in the province will remain intact."

—General Gascoigne, replying to an officer asking whether militia rank should be used on all occasions, says: "I have no hesitation in replying to your letter. I consider that not only are militia officers justified in using their military rank on all occasions, but I go further and hold that not to do so would be to imply that the value of the distinction was not held by them in great esteem. In Canada there is but one military body to-day—the militia—and I hold, therefore, that in every way officers are bound to be designated by their military rank."

—The new management of the Grand Trunk has made no change that has attracted more attention than the enforcement of the company's rules in regard to the liquor habit. No man who is intoxicated or whose breath has the least taint or smell of strong drink is allowed to take his position on the train. The rule has almost been a dead letter and unless an employee was palpably incapacitated for work nothing was done. A few days ago a conductor was taken from his train in Stratford and shipped back to Toronto, where he found his dismissal awaiting him for the infringement of this rule.

—Speaking of Glasgow, after his visit to Kingston, Principal Grant said "the city government is admirably managed, and controls many things, which on this continent are in the hands of companies, and manages them well, and in the public interest. For instance, the omnibus service is the cheapest and most thorough I saw anywhere, and brings in a large revenue to the city. You can ride for a mile for a half-penny or one cent, and yet the surplus revenue for the past year amounted to nearly four hundred thousand dollars."

THE OFFICE-HOLDERS IN NORTH GREY.

(Toronto World)

And so there is virtuous indignation in some liberal breasts over the "offensive partisanship" of the office-holders, is there? Let these critics cast their eyes upon North Grey at present and see what the provincial office-holders are doing. The convention which nominated Mr. Patterson a few days ago is a good example. According to the Globe report, the chair was occupied by J. H. Little. He is issuer of marriage licenses under the provincial government. The secretary of the convention was A. G. McKay, county crown attorney. James Sharp, division court bailiff, moved the first resolution congratulating Mr. Laurier on his victory, while John Macdonald, division court clerk at Chatsworth, delivered an oration, and Benjamin Allen, division court clerk at Owen Sound, was one of the leaders in the meeting, and escorted the candidate to the platform. That was pretty good for a start off, and since then other officials have joined in the fun and will keep it going till the 25th. When the liberal moralists on the question of partisan officials begin to air their grievances, let them remember this little sentiment: He that is without sin among you, let him cast the first stone.

AN UNIQUE CASE.

The case of Frank A. Preble against the Orange Lodge of Waltham, Mass., is unique. Frank swears that as he was being initiated he was compelled to discard all raiment except his underwear. He was then given a pair of overalls, blindfolded and led into the larger lodge room. There he was obliged to get down on his knees and repeat the Lord's Prayer. Then he had to clamber over a lot of rough blocks, was struck with whips, and finally posed upon a ladder. When at the top the ladder was suddenly pulled from under him and he was pitched into a canvas blanket, in which he was bounced around for a while. Then he was made to march around the room carrying a large bag of rocks. Finally he was told to raise his hand and try to find "the serpent." He states that a branding iron was applied to his breast, which finished the initiatory proceedings. He declared that his breast was badly burned and the wounds were raw for ten days, and his legs were discolored from the violence of the blows he received. This evidence being confirmed by one who was present, and not contradicted, six officers of the lodge were fined $35 each. An appeal has been entered.

NEWS NOTES.

Nansen is likely to come home in the Fram. That vessel has turned up at a Norwegian port near the North Cape, and reports all well. The good ship, and the good men in it, will be heartily welcomed back to the realm of civilization.

At the request of the governments of Great Britain and the republic of Colombia, the Bundeswrath has undertaken to appoint three Swiss jurists to arbitrate the dispute between a British firm and the government of one of the provinces of Colombia relative to the construction of a railroad.

Two thousand three hundred farm hands have arrived at Winnipeg from Ontario and been sent to various portions of the province where men are needed in the harvest fields. There seems to be a good demand for all the men. Three hundred of them preferred railroad construction and have gone to work on the Dauphin railway.

Sir George Newns has failed in an attempt to establish a daily paper in London that would have nothing to say about politics. There are many who object to the space given to political matters in daily newspapers, but the Newnes experience would seem to indicate that there are many more who would object if the politics were left out.

The statement conveyed in a New York York cable despatch that friction has arisen between the Canadian and Imparial Governments in regard to the establishment of a new fast Atlantic mail service between Canada and Great Britian, is denied upon the highest authority. The fact is that the matter has been entirely suspended pending the decision of the new Canadian Ministry.

London papers refer at length to Spain's bill for damages against the United States as a result of the fitting out of filibustering expeditions, destined for Cuba, in American ports, and to the decision arrived at in the case of the Alabama. The Globe, for instance, says: "The United States' acceptance of the Geneva award makes it absolutely impossible for them to repudiate their liability under the present circumstances, with any show of reason or justice."

A communication received at the Marine and Fisheries Department conveys the gratifying information that within a week of the closing of the open season the run of salmon in the Fraser River was away beyond all expectations and will give the canners a boom that will tend to make their season's operations pay much better than was anticipated. In this same connection it is noted that the run of salmon comes later every year in the Fraser and it is attributed to the fact that all the fry hatched in the Fraser hatchery is late fry, and the ten years' existence of the establishment has had this strange effect on the fish of the entire stream. It is a remarkable theory, but the Fisheries Commissioner himself holds this opinion and thinks that the millions of eggs brought out every year might temper the Fraser.

President Kruger, of the Transvaal Republic, in a recent interview declared that the stories attributing hostile intention on the part of the Transvaal are absolute inventions, spread by people who are angry because England and the Transvaal could not be pushed into war with each other. In conclusion he expressed the opinion that war between the Transvaal Republic and Great Britain would never occur. Dr. W. J. Leyds, the Secretary of State for the Transvaal Republic, in an interview just published expresses similar sentiments. He denies all the rumors of recent troubles between the two countries and the assertion that the Transvaal has negotiated a treaty with a foreign country in contravention of the Anglo-Boer convention. In conclusion, he declared that the Transvaal Republic is doing its best to secure complete harmony all round.

Apropos of the Populist charge that the rail rates of the United States have not been reduced to keep pace with the falling prices of farm products, the New York Times quotes the following figures from a United States Government return. They give the rate for the carriage of wheat per bushel from Chicago to New York:—

	By lake and canal, c.	By lake and rail, c.	By all rail c.
1872	24.47	28.09	33.50
1873	19.19	26 90	33 20
1882	7 89	10.90	14 60
1890	5 85	8 50	14 31
1891	5.96	8 54	15.00
1892	5.61	7 55	14 23
1893	6 33	8 44	14 70
1894	4.45	7.00	12 83
1895	4 11	6.95	12 17

Railroad rates, as a matter of fact, have been cut till it is a matter of wonder how the railroad manage to pay expenses.

From Bermuda.—Our stock of Bermuda lily bulbs has just arrived. Best we ever saw. Very choice bulbs for 15c, 25c and 35c each. Now is the best time to plant for good results.—Hazzard & Moore.

SPECIAL DESPATCHES TO THE EXAMINER

NOTES FROM THE CAPITAL.

Dismissal of General Cameron and Engineer Perley.

OTTAWA, Aug. 24.

It is reported here that Mr. Martin will re-enter the Manitoba Legislature. The Liberal party in the House of Commons has no very kindly feeling for him.

Mr. Tarte is promising public works right and left, but most of the jobs will lie over till next year.

Mr. Tarte has notified Henry F. Perley that his services will be dispensed with after the end of this month.

The Government has also dismissed General Cameron, Commander of the Military College. It is rumored that Lieutenant-Colonel Domville has a strong pull for the position.

The Fast Atlantic Service was considered at a meeting of the Cabinet on Saturday, but the Ministers had no announcement to make.

FATAL FIRE IN BOSTON.

A Jump from a Third Story Window to Death.

BOSTON, Aug. 24.

A fire occurred yesterday in a house on Vine Street, Charlestown district, and Mrs. Mary O'Brien, aged 69, and Patrick, her son, aged 40, jumped from the third story window to the sidewalk. Her daughter Mary, aged 26, stuck to her post but was overcome by the heat and fell from the window to the ground. Mrs. O'Brien fractured her skull and received other injuries from which she died almost instantly. The son and daughter received many severe injuries, and in addition were more or less burned, while Patrick is suffering from inhalation of smoke and flames. His condition is very serious, and there is no telling what the final result may be.
