DR. AYERS

Of Special Interest to our Farmers

The Perches.

If there is anything about the furniture of the poultry house that needs careful attention, it is the perches or roosts. On these the hens spend over half their time, and it is quite necessary that they be hygienic in every way. So many poultrymen have such high roosts that the fowl in jumping down, bruise their feet, and the disease known as humble foot results. Others place their roost poles in a stair form.

This causes all the fowl to crowd to the top roost, and, of course, the weaker ones get crowded off, and some are crippled or killed.

To avoid this difficulty, place the roosts on a level and only sixteen or eighteen inches high, then when the fowl alight from the roosts there will be no danger or injury to them.

The reason fowl like high roosts is that in their wild state they learned to roost as high as possible, so as to avoid their enemies. I would rather see roosts only eight inches above the floor than to see them four or five feet above.

The kind of roost pole is quite important. It should be free of any creases or cracks wherein lice may find a lodging place. This is quite important.

They should not be smaller than two or three inches in width or diameter. A two by four, made round on one edge and placed on edge, makes a very good roost pole.

The poles should be placed so as to be movable that they may be taken out and cleaned once in a while. The handiest way is to make a low trestle, and let the roosts set in notches cut in them.

Make them solid but do not nail fast.

Now give the whole thing a good coat of coal tar or of whitewash, and you will have a roost that no sanitary crank will ever find fault with, and one that you will find beneficial in every way.—Exchange.

Spring Care of Potatoes.

The Maine Farmer in commenting upon the subject says:

"The potato sends out the strongest sprouts when it is exposed to the light. The tuber that is taken directly out of a dark cellar and planted deep in a compact soil does not make as strong plants as one that has been exposed to the light until the buds start or else is covered lightly with soil at planting time. Those who practice planting in June are learning that the best plan is to spread the seed thinly in the light when the buds make a short, stubby growth and then remain in that condition for weeks till planting time. In case of early planting it is practicable to plant in deep furrows and cover lightly, so that the sprouts will start strong, and then fill in the furrows with weeder or harrow as the plants make growth. In well drained soils this way of planting gives good results if the nature of the soil will permit deep planting at all.

The Ohio Experiment station has lately been making some tests along this line and finds that there is a decided increase in the crop of potatoes if the seed is exposed to the light for a week or ten days before planting. This without any other treatment. Of course if it is desired to treat the seed for scab this may be done at the same time; but the exposure to the light alone is a very great help. This is certainly a simple process and one worth trying. It involves practically no expense if you have a barn floor, or other covered space where the potatoes can be spread out. You would probably gain as much in time, and much more in crop, by exposing the seed in this way for ten days or two weeks than by planting fresh seed that much earlier.

The Nova Scotia farmers cannot commence to supply the better demand of the city of Halifax alone. The

Sunlight and Lifebuoy Soaps

are the only guaranteed pure laundry soap on sale in Canada, can you afford to be without them.

NOTICE

The Creek known as Sherry Creek, has been leased for twelve months for fishing purposes. Anyone found trespassing thereon shall be prosecuted.

PATRICK SHERRY

Herald says \$200,000 are sent out of that city every year for butter to P. E. Island, New Brunswick, Quebec and Ontario.

Salt on Black Land for Wheat.

PRINCE EDWARD:—"I have some quite low, black land I intended sowing to wheat. Some of my neighbors thought there would be a tendency to the crop 'lying down' and suggested sowing salt when I sowed the wheat. Would it be likely to increase the yield or strengthen the straw?"

We incline to the opinion that the neighbors are right in advising an application of salt to the black land for wheat, as salt has the effect of reducing rank growth of straw, and therefore increases the chances of a good yield of grain.—Farmer's Advocate.

Fix up all the fences round your pastures before you start cropping, and avoid stop,ing the field work later or putting the cattle into a field which will not hold them. Many a good cow has been made unruly by neglect of the pasture fences.

All the weight of practical experience and scientific experiment for years has gone to show that early spraying is important. In treating apple scab, plum and cherry fruit rot, and others of the worst orchard diseases; the best spraying of the year is the one given before the buds start. Now is the time to do it.—Co operative Farmer.

There are three conditions: When the blood is poor; When more flesh is needed; When there is weakness of the throat or lungs.

There is one cure: that is Scott's Emulsion.

It contains the best cod-liver oil emulsified, or digested, and combined with the hypophosphites and glycerine. It promises more prompt relief and more lasting benefit in these cases than can be obtained from the use of any other remedy.

CARD.

To the Electors of the City of Charlottetown:

HAVING been solicited by a number of citizens to nominate as a candidate for Water and Sewerage Commissioner, in place of D. Laird, resigned, I beg to say that I have accepted the nomination, and, if elected, will do all in my power to serve the best interests of the citizens. I hereby solicit the votes and support of the citizens, as I may not be able to make a personal canvass of each individual.

Yours respectfully, JOHN WHEATLEY.

AMTORMAN'S VICTORY

Over Diabetes, Gained by the Power of Dodd's Kidney Pills

TORONTO, May 8.—In a large city like Toronto, there is always much sickness, kidney disease largely predominating. The street railway employees, exposed as they are to all the inclemencies of the weather, are particularly liable to kidney disease. But they all know how to conquer this enemy.

For instance, Mr. T. H. O'Reilly, 27 Niagara Street, motorman, No. 624, was for three years a great sufferer from Diabetes. Every remedy failed to help him, till he began to use Dodd's Kidney Pills. Three boxes cured him.

It is cases like this, where the patient and the cure are equally well known, that are the test of a remedy, and Dodd's Kidney Pills have always stood it successfully. They cure all kidney complaints.

Dr. Chase Cures Catarrh after Operations Fail.

Toronto, March 18th, 1897. My boy aged fourteen, has been a sufferer from Catarrh, and lately we submitted him to an operation at the Central Hospital. Since then we have resorted to Dr. Chase's Catarrh Cure, and one box of this medicine has made a prompt and complete cure.

H. G. FORL, Foreman, Cowan Ave. Fire Hall.

Build Up.

When the system is run down, a person becomes an easy prey to Consumption or Scrophulous. Many valuable lives are saved by using Scott's Emulsion as soon as a decline in health is obtained.

Today's Shipment—American Muslin Coccu in stripes, Organdy Valence in spray patterns, Danabe Dimity, Windsor Vanda muslin for blouses and dresses, Gagonette Broderie, baby muslin goods, American belts, American collar, linen American sailor hats, straw trimmings, walking hats, sailor hats, dress hats, trimmed walking hats, veils and muslins. The above goods were purchased by our Miss McEachern. Call and inspect our millinery. Miss McEachern will be pleased to show you the styles.—Jas. Paton & Co. 92, 3, wky.

To all who find themselves with health gradually slipping away. Kidneys and Liver so disorganized that they are incapable of keeping the system free from poisonous waste material. Stomach Disordered, Bowels Constipated, Head Aching, Back Pain, take Dr. Chase's Kidney-Liver Pills. The quick way they help you back to health will surprise you.

The books of W. A. Weeks & Co. will be placed in the hands of their attorney for the collection of all unpaid accounts, on the fifteenth of May. Save expense by calling at our office and settling before that date.—W. A. WEEKS & Co.

Ask for Minard's and take no other.

Croup Quickly cured.

Mrs. J. Sims, Mt Pleasant, Vancouver, B. C. writes:—If there ever was a never-failing remedy for a disease, it is Griffiths' Menthol Liniment for croup. We have frequently administered it to our children, even the baby, and never knew of its failure to cure in a few minutes. No home should be without it. 25 cents at druggists.

One can very properly divide belts into three classes: Belts of rank or knighthood, which were much in vogue among men from the time of Edward III to the end of the reign of Henry VI. Belts of utility, such as the belts as originally were used by women to preserve the symmetry of their forms, much as the corsets are now used; and fancy girdles, which have purely a decorative purpose. Paton & Co. have 1000 belts, the utility kind, all colors all qualities all prices, call and get a belt. 3 in dy 1 wkly.

Chronic Eczema Cured.

One of the most chronic cases of Eczema ever cured is the case of Miss Gracie Ella Alton, of Hartland, N. B. On a sworn statement Mr. Alton says: I hereby certify that my daughter Gracie Ella was cured of Eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, Druggist, of Hartland also certifies that he sold four boxes of Dr. Chase's Ointment which cured Gracie Ella.

Minard's Liniment is used by Physicians.

SEED WHEAT

DEAR SIR,— I am very glad to be able to inform you that after testing the WHITE FIFE WHEAT, imported by you from the North West last fall, I have no hesitation in recommending it to the farmers of P. E. Island

I sowed twenty grains without making any special selection, and out of the twenty, nineteen grew strong and healthy.

Farmers in this section of the country pronounce your seed wheat the best sample that they have seen imported to this Island.

Yours etc., R. P. BAGNALL, Farmer, Hazel Grove, P. E. I.

I still have a few bags of this specially selected wheat to dispose of.
