Tweedy Appeal Case Adjourned

Mr. Justice Mark McGuigan presided yesterday morning when the sitting of the Supreme Court opened to hear the appeal of Mr. Justice G. J. Tweedy from a conviction on a charge of driving to the common danger.

IN MEMORIAM

In fond and loving memory of Mrs. Matthew Kempf, who departed this life Dec. 20, 1951.

Today is a day of remembrance With many sad regrets A day we shall always remember When the rest of the world forgets.

We think of you in silence And oft repeat your name What would we give to hear your voice And see your face again.

Sadly missed by daughter, Mrs. George Sorrey.

scheme of the office he stated that some years ago a burlap covering had been placed over the office wallpaper. It was painted a light gray.

Dr. Harold Shaw, Provincial Pathologist, was next called and told of seeing Sgt. Lund on December 3. He had visited him at the laboratory with some materials and asked that certain examinations be made to find marks of similarity. There were two envelopes, one containing red wallpaper, the other, ashes; also a pair of shoes.

The purpose of the tests was to associate material in the envelopes with the shoes. There was some material adhering to the heel of the right shoe which was similar in several respects to material contained in the envelope. Some red material was associated with the naked eye and smaller particles were visible under a lens. Tested under reagents for solvency the material from the envelope appeared similar in col-

or and texture to that on the shoe. It concluded that the red paint present on the paper and the red pigment present on the heel of the shoe are similar in color and solvency. There were easily visible pieces removed from the shoe for the tests.

He did not identify the material taken from the other envelope. No test was made. It appeared to be ash similar to some on the toe of the shoe. That opinion was just based on observation.

Dr. Shaw said that all chemical reactions were similar on the red material from the envelope and that from the shoe.

During cross examination Mr. Farmer suggested that the testing was simply a process of elimination and that the pathologist would not say they were identical — only similar.
