

Mr. McLure Stresses Need Of Assistance To Fishermen

A strong plea on behalf of the fishermen who were victims of a heavy storm last November in the Rustico district was made in the House of Commons recently by Mr. W. Chester S. McLure, M.P. for Queen's. Following is the report of Mr. McLure's remarks as taken from Hansard. He was speaking on a bill to provide short-term credit for western grain producers.

"I am neither a western farmer, a grain grower nor an eastern farmer, but I have listened to the appeals that have been made here since the session began and my sympathies are certainly with the farmer in the condition in which he finds himself in western Canada.

"After all, we must look at the farmer. I view the occupation he is engaged in as a great work for the benefit of us all. The farmer is the greatest gambler of any man in business, in the professions and in anything else we have in our communities. He gambles from the time the seed is put in the ground. He gambles on whether he is going to get the proper soil productivity, and also on whether he is going to get good cultivation of the soil. He goes right on gambling to the time of harvesting.

Market Conditions

"He gambles on weather conditions, and worst of all he has to gamble on marketing conditions. Well, it is not quite so bad gambling on the market conditions in the east as it is in the west, because in the east the farmer uses his own experience and smaller organizations in marketing his products. But in western Canada the government takes charge of the marketing conditions and according to the report we had last year it lost a good deal of money. Someone repeated the statement tonight that the wheat growers, through marketing conditions set up by the government, lost about \$300 or \$400 million."

"Hon. Mr. Howe: 'I thought we settled all that in the Manitoba plebiscite.'"

Mr. Sinnott: "That is nonsense."

Mr. Blackmore: "It is not nonsense."

Fisherman's Situation

"I should like to add some personal observations. The first of which would be that while the farmer is a gambler, the fisherman is a real runner-up. I am proud to see the Minister of Fisheries (Mr. Mayhew) in his seat, after escaping from the Communists in Korea. I know he will appreciate what I am going to say about the poor fishermen in my own locality.

"Last November there was a very heavy storm in that area, with winds reaching a velocity of 70 miles an hour, with extra high tides which broke up practically all the breakwater, so that the waters flooded in over the beaches and around the homes of the fishermen. It invaded their fishing shanties and their equipment. A large percentage of that equipment was a total loss, so the fishermen are left without the security that would permit them to ask for a loan.

"I bring this to the attention of the minister. When we are voting money for the western farmers I suggest something could be done for those fishermen. I know the machinery has already been set up in the Department of Fisheries, so it would take the burden of administration off the shoulders of the Minister of Trade and Commerce (Mr. Howe).

A Few Thousand Dollars

"This would cost only a few thousand dollars, as compared with the millions that would go to the west.

"Further, it could be operated through the Fishermen's Loans Board which is already set up. I know the Minister would find, upon investigation, that the loss suffered by these poor people has been very great. I know some of them whose homes have been disrupted. They had to leave their homes during the storm. Their shanties, buildings, machinery, equipment, boats, traps, rope and all other gear were lost.

"Some of it was beaten by the waves against the rocks. Surely those fishermen are deserving of some consideration at the hands of the government. If we are to be generous to the western farmers, then I want to see the fishermen of my constituency in Prince Edward Island receive what is properly their due."
