Leave Southport at 7.15, 8.45, 9.45, 10.15 and 10.45 a. m.; 12.15, 12.45, 1.15, 2.30, 3.30, 4.30, 5.30, 6.45, 8.00 and 8.45 p. m.

A VALUABLE DISCOVERY.—A vein of albertite coal, 9 inches wide, is reported to have been discovered on the farm of Ralph Steeves, Lower Hillsboro, N. B., and is now being investigated by mining men with a view of developing it. It will be a valuable find, if workable, as albertite is worth about \$23 per ton. Six or seven American and English capitalists interested in Albert County mine development are expected at Hillsboro on Saturday.

PACKED IN ICE.—The Journal says: Forty-one barrels of fresh mackerel, packed in ice, were forwarded to Boston, via Summerside, from Morell. They were carried from Charlottetown to Summerside in a box car attached to the express, and the work of transferring them from the car to the steamer occupied only three minutes. St. John the fish were to be re-packed in ice. It is to be hoped that this method of shipping will prove successful.

SUFFERINGS AT SEA.—The Amherst Sentinel reports that a Norwegian ship has arrived at Northport, bringing four sailors picked up at sea in an open boat. They say their vessel, a Norwegian, bound for Shediac, struck an iceberg and sank. The crew of ten took to the boats. These four had been drifting ten days without provisions, and when rescued were suffering terribly. Their legs and feet are much swollen, and they are still confined to their bunks in their ship. The captain and five men who were in the other boat were picked up and landed at Quebec, as stated in our telegrams yesterday.

SONS OF TEMPERANCE.—The returns submitted at the recent annual session of the National Division of the Sons of Temperance show that at the close of 1889 there were 1,528 subordinate divisions, the decrease during the year being 94 divisions. In membership the number was 78,480, a gain in members of 1,185. Nova Scotia stands at the head of the roll for numbers, and Pennsylvania is next. The Bahamas has one Son of Temperance to every 4,229; Quebec one to every 1,621; Newfoundland one to every 390; Ontario one to every 382; Manitoba one to every 255; Prince Edward Island one to every 63; New Brunswick one to every 52; and Nova Scotia one to every 25. The treasurer's report showed that the cash on hand June 30, 1890, was \$2,025, against \$3,288 a year ago.

A NARROW ESCAPE.—The Sentinel says: A three-year-old child of George McLellan, of Lynn, Cumberland, fell into the well, in the absence from home of all the family except his mother and an infant child. The house is in the woods, a mile from any neighbor and there was no one to send for assistance. The child came down on his feet, the water being nearly to his shoulders. The mother let down a well bucket which worked with a windlass, and told the child to grasp the rope fairly, and she would be sure to bring him up safely. He did so, and was brought to the top, a distance of over fifteen feet, and so firmly were his hands clasped about the rope that Mrs. McLellan had to unrip them. This narrow escape should be a warning to those who have their premises.
