Newspaper Advertising Hits the Mark with a Large and Constant Audience

There's nothing hit-or-miss about the newspaper audience - it's a constant audience that varies little throughout the year. That's because newspaper circulation remains constant with little variation from month to month. There is no summer slump in newspaper reading habits. Furthermore, readers can pick their own time - day or night - to enjoy the paper. And they do! For sure-fire results, advertise consistently in the daily newspaper.
