Hockey at Crapaud.

Sir,—As a participant in the game played in Victoria Rink on March 3rd, in which the Crescents of Crapaud won from the Victorias of Charlottetown by a score of 4 to 2, I was slightly surprised to see by a local in Friday's EXAMINER that the Victorias were defeated by a score of 4 to 3. The error would not perhaps be of such consequence as to provoke a demand for its correction, were this the first instance in which the result of the game referred to has been inaccurately stated by the press; and it is with the express purpose of making it the last that I presume to write this letter. Besides containing some minor errors in regard to the details of the play such as the time and manner in which certain goals were scored, the Guardian's report in the issue of March 4th, appeared under a heading original in both style and matter,—to the effect that the game resulted in a draw and that the Crescents won only by a time allowance. This defective report was attributed to lack of information as it was known that no representative of the Guardian witnessed the game; and with the view of obtaining a correction in a later issue a proper account was telephoned the city reporter stating explicitly that the match had been won by the Crescents within the usual one hour's play. Yet, in the Weekly and Semi-Weekly Guardian the public were given the same fictitious account under the same delusive heading. We think that the Guardian, by persisting to print its own imperfect version of the game despite the protests of eye-witnesses, has carried its "independent" principles to a pitch which is scarcely compatible with its professed claim to the practice of that "temperance" which should exist in all things.

CRESCENT.

Hampton, P. E. I., March 13th, 1899

Obituary.

It is our sad duty to chronicle the death of Allan McDonald, second son of the late Angus McDonald, of Rock Barra, Lot 46, P. E. Island, who died at San Francisco California, on February 17th, 1899, after an illness of three months, borne with patience and resignation to the Divine Will, in the 52nd year of his age.

The deceased left this country about fifteen years ago for Manitoba, where he remained for a short time when he went to Oakland, California, and there carried on the ship-building until a few months previous to his death. He was honest and upright in his dealings, sober, and generous in disposition, and well liked by all who had the pleasure of his acquaintance.

He leaves a sorrowing widow and one sister in California, two sisters and one brother in Victoria, B. C., and one sister in this province, Mrs. Barnaby McIsaac, Bayfield. He also was a brother of the late Daniel McDonald, Rock Barra, who died last November, besides a large circle of friends and relations to mourn their irreparable loss. The funeral was largely attended; and with all honors he was laid to rest far from his native home. (Island papers please copy.)

Sturgeon Notes.

We are having pleasant weather here now. With good roads and good ice the sportsmen of this place are having a good time practicing their fast horses.

The post office is well kept by Miss Maggie A. Murphy.

We are glad to have some of the young men from Summersville visiting us at the present time as the driving is good. Besides, some of our young ladies will enjoy a good time with their friends from that place.

We are glad to say that our school is progressing rapidly under the care of our well-respected school teacher, Miss Minnie Creed, who deserves credit for the way she has brought up her pupils. To Miss Annie Trainor is also due much praise for her teaching of the pupils of St. Mary's Road East. Under her care they are learning rapidly.

Miss Annie Donley is home from Boston to see her mother who is not expected to live.

Our cheese factory is about beginning to make butter again, after being closed about a month. It will run till about the 15th of June making butter and then commence making cheese. Mr. David Collings will run it again this summer. He will want a new helper this summer. His last man has his trade learned both in cheese and butter making and will be applying for a factory for himself. We wish him success in getting one for by what Mr. Collings says about him as a good man in all respects there will be no company taking in by him; but the Company that will have the luck of getting him will be well pleased both with his work and good qualities.

Mr. John Jamieson has left home for Ottawa

DAIRYMEN'S MEETING.

Sir,—In troubling you again for a short space I only wish to say in reply to "Anti-Humbag" that notwithstanding his sage opinions about a cheese inspector and instructor I still have the idea that Mr. Dillon in naming a particular man for the position would not affect the interests of any other buyer in the business.

His insolent and untruthful remarks about Mr. Dillon "hinting to a tory clique to stampede the meeting" are beside the mark, and show how hard up he is for argument to defend the premier's cause. But Mr. Dillon needs no defence for his conduct at this or any other meeting he has been known to attend. His cause is just, and without any exaggeration he is thought, by not a few Liberals as well as Conservatives, to be the most popular man on P. E. Island today, in contrast with the Premier who to gain a little cheap popularity at the expense of the public, had professors brought here and then held meetings irrespective of chairman or audience.

I must apologise to Mr. Dillon for using his name so freely without his knowledge or consent; but I believe in justice and fair play being accorded to all.

ONE OF THE AUDIENCE.

A Word of Warning to Gossipers in Sturgeon.

Sir,—Sturgeon is the home of some notorious gossipers. They not only talk and gossip about what they hear, but they make and circulate lies; yes, slanderous lies of a very formidable type. Tom Pepper, the famous gossip and liar, could not hold a candle to some of them. No, he would have to retreat before their awful fire. As certain parties, their names I will know but will withhold for the present, have originated, fabricated and circulated certain lies or falsehoods about me, I consider it is high time for me to rise up with arms and repel their cowardly and contemptible attacks. I must be up and doing with a heart for any fate. As I did not wish to be anywise rash or hasty in the matter I thought I would give them a word of warning through the columns of your paper, (which is a valuable one, a welcome visitor at our place every Saturday evening) I wish to inform them that if they want to talk and tell slanderous lies they will have to try some other person, not me. Our word should be more prized than gold and true each word we say for in the Bible we are told, it brightens all our way. Be thou just and fear not. I dread a liar worse than I do the devil, for people can contrive schemes to free themselves of the devil, but against a liar they cannot; his ways are misleading and deceitful. Fear then a liar, watch him or rather her as a cat watcheth a mouse. There is a certain house in Sturgeon where the machinery for manufacturing lies is operated, and that by a skilled engineer thus producing lies unequalled for quality and grandeur. Oh! How deceitful is a liar; truth and silence are noble gifts which some of our Sturgeon gossipers are totally devoid of. Let them keep their tongues clewed to their teeth or they may have to take back their words and eat them without salt or pepper. Take a word of warning from this, liars and gossipers; talk not, at least about me, for if you hatch any more lies or slanderous statements concerning me you can then accept the inevitable as I am determined to follow you to the last. Keep then a silent tongue if it lies within your power to do so.

J. ROACH KIELY.

Do you get any guarantee with any other brand?

How it Was

Discovered!

Soaps made after old methods, loosen dirt but slowly, and Women used to rub clothes briskly between the hands or on a board.

This process went on till one day somebody estimated that clothes received more wear on wash day than on every other day of the week.

Then our soap-maker went to work and after patient study, the richest and best material known in the science of soap making were ingeniously combined—to which was skillfully added a new scientific discovery of marvellous cleansing properties and

ROYAL OAK SOAP

was evolved.

The cheapest, the safest, and purest soap now on the market. No effort or expense has been spared to make it the best.

It Loosens Dirt

It Saves Labor

It Makes Linen as White

as Snow, & Woolen as s wee
