Driver Escapes As Light Truck Leaves Highway A 1952 Mercury half-ton truck left the highway when travelling east on the Sherbrooke Road, about 1/2 mile from Travellers Road, corner early Saturday evening and ended up on its hood in the ditch. The vehicle suffered very heavy damage but the driver, an airman, miraculously crawled out of the overturned vehicle with only minor scratches and a small cut on the forehead, although somewhat dazed.

He reported that a hit and run attack by a party in another vehicle which sideswiped his truck was the cause of the ditching. And to add insult to injury, when the airman engaged a tow truck Sunday morning in order to get the truck back on its four wheels and towed to a garage, he found, on arrival that the four wheels, the radio and the battery had been stolen during the night.

The wrecked vehicle, which had been borrowed from another airman, was towed into Summerside on borrowed wheels.
