A. Hall, this evening, at eight o'clock—Rev. Mr. McLeod, Chairman. LADIES Corsets from thirty cents upwards at Young's. As fall wheat is not a good crop this year the free trade organs should not fail to point to it as an evidence of the failure of the National Policy to protect our manufactures.—Toronto Mail. THE gale at Summerside this morning was severe, but began to abate towards noon. A considerable amount of ice is reported in the harbor. The steamer "Summerside" will probably leave to-night. In almost every section of every country in Europe and throughout the United States and Canada, the 40th anniversary of the birth of Martin Luther was celebrated on Saturday. A YOUNG man named Wolfe was accidentally shot on Friday morning at Liverpool. He was in company with another young man who was carrying a shot gun, which was accidentally discharged, the contents lodging in Wolfe's back in the vicinity of the kidneys. It is feared he cannot recover. THE TAY SALMON FISHING.—The rent of the River Tay, which is the most productive of all British salmon streams, is expected to touch next year a higher figure than has ever yet been recorded; at present the commercial and angling rental united amounts to a little over £20,000, and to provide that sum, pay the working expenses, and yield a profit to those who lease the fisheries it has been calculated that salmon to the value of \$60,000 must be required—say 80,000 fish each of the value of fifteen shillings. JOE COLLINS, a party well known in Summerside, concluded he would go over in a small boat to McCallum's Point on Wednesday of last week, for the purpose of gathering up a quantity of fuel for immediate and future use, but strange to say, night came on but no Joseph put in an appearance at home. Upon search being instituted the following day, the missing man's hat was found, but no trace of him could be had anywhere. Those who went in search returned with heavy hearts in the firm belief that poor Joe had met a watery grave. Thus the matter rested until Saturday afternoon, when joy was spread in the household of the missing man by the receipt of a fifteen word collect telegram from him at Pugwash, conveying the glad tidings that he had made that port in safety, and would be at home at the earliest possible opportunity.—Journal. McNutt. The schooner "Lois" has been chartered by the Steam Navigation Company to carry freight to Shediac in connection with the steamer "Summerside." She made her first trip Friday.—Pioneer. LADIES American Rubber Circulars for two dollars each at Young's. LORD LANSDOWNE was waited on recently by Chief Ansoott Hak, Chief of the Malawik Indians, and Dr. Jones, Chief of the Menasias, youngest of New Credit, Ontario, who came to present to the new Governor-General their allegiance and loyalty to the British Crown. Both of these gentlemen were dressed in Indian costume and wearing medals presented to their forefathers by King George the Third and King William the Fourth, with tomahawks, with pipe or calumet of peace and wampun attached. His Lordship, after accepting their address, replied, expressing the pleasure it gave him to receive the delegation, and his earnest desire to forward their prosperity in every possible way, concluding by thanking them for their kind reference to Lady Lansdowne. Lord Lansdowne then presented the members of his family to the chiefs, after which the chief of the Mohawks presented Lady Lansdowne with a cabinet photo of himself in costume. THE newest and cheapest Dress Materials are at Young's. A HANDBOOK of the Presbyterian Church in Canada 1883, edited by the Rev. A. F. Kemp, LL. D., Rev. F. W. Farries, of Knox Church, Ottawa, and J. B. Halkett, Esq., of the Marine and Fisheries Department, has just been published. The book embraces the leading features of the Presbyterian Church, as a living power in the country, sets forth the conditions and covenants of the last Presbyterian Union, and details, as far as possible, the personnel of its Ministry in the Dominion. The book further presents in a collected form the judicial decisions of the General Assembly since the Union and also gives a very complete account of the Theological Colleges in connection with this Church showing the high status of these Institutions. The Mission and Benevolent Schemes of the Church are also reviewed. Indeed the whole book is one of general interest and should be in the house of every Presbyterian on the Island who wishes to keep himself posted in the work and progress of the Church. The book may be had at the bookstore of Mr. Theo. L. Chappell, who is sole agent for it here.

Foreign News Notes.

Oscar Begus, the well-known painter, is dead. The cholera epidemic is decreasing at Mecca. Another Chinese ironclad has been launched at Kiel. The appointment of M. Ferry as Minister of Foreign Affairs was gazetted on Friday. M. De Giers, Russian Minister of Foreign Affairs, has started on a foreign tour. It is announced that Mr. Charles L. Colby has given \$1,000,000 to found the new university in Wisconsin, of which Baptists are to have the control. The coal miners of the Pittsburg district have resolved to strike on the 15th inst. unless an increase is accorded them or the question submitted to arbitration. The total French land force in Tonquin at the beginning of November is officially stated at 8,650 men, and the naval force at thirty-two vessels, manned by 4,500 men. The North German Gazette says that so far from the Crown Prince's proposed visit to Spain being aimed against France it will be made in the interest of peace. The Crown Prince left Berlin on the 14th inst., for Madrid. The Servian Prime Minister declares that the disturbances now occurring are fomented by Radical intriguers, with the object of dethroning the king and securing a regency until the coming of age of the Crown Prince. A Vienna despatch says the Servian rebels have been attacked by the Servian Army under General Nicolic in Castra-Brodica and defeated. Seven rebels were killed and many wounded and two hundred prisoners captured. The remainder of the rebel force escaped across the frontier. The finding of a small piece of gold-bearing quartz in the gizzard of a lyre bird which he was preparing to stuff, has led an Australian taxidermist to infer that the precious metal exists near the spot in the Blue Mountains where the bird was killed. The region will probably be explored for gold. The supreme court of the United States will soon be called on to decide whether a newspaper may with impunity call a woman ugly and say she has a big nose. The Nashville American was reckless enough not long ago to say that Miss Alice Marguerite King, an actress, was a small lady with a big nose and ugly. Miss King resented this frankness of opinion and brought a suit for libel, fixing the damages at \$50,000. The court, however, seems to have been profoundly impressed with Miss King's nasal appendage, the peculiar beauty in her countenance, for it dismissed the suit. Miss King, therefore, has determined to appeal to the United States supreme court, and a decision which shields the feminine nose and plainness of feature from insulting comments is anxiously looked for by every member of the softer sex whose looking-glasses tell them that their faces are not beautiful and that their noses are too pronounced.

British News Notes.

There is an alarming spread of pneumonia among cattle in England and Ireland. A wholesale system of evictions was put into operation at Loughrea, Ireland, on Saturday. Much excitement exists among the people. The Prince of Wales has received many invitations to make a state tour through Ireland. Mr. Gladstone is encouraging the Prince to make the tour. The report that the Marquis of Lorne is to be appointed Viceroy of Ireland is denied on good authority. At the Lord Mayor's banquet Mr. Gladstone replied to the toast in honor of Her Majesty's Ministers. Referring to M. Waddington's speech, he said: "Our hearts' best wishes are with France in every career of peace, justice and orderly government, on which she may find it her interest to enter." Referring to the Missionary Shaw affair, he said what had come from the French Government had been offered rather than demanded. He believed the incident would tend to confirm the good feelings between the two countries. Mr. Gladstone said orders had been given for the withdrawal of a portion of the British forces from Egypt, and that withdrawal would include the evacuation of Cairo. All the great powers of Europe, he said, had declared their attachment for the cause of peace. In regard to Ireland, he said: "There is much to be done, much to be desired, much to be lamented; but there is also much to be hoped for. Peace and order must be firmly maintained." Cheers.

The laborers who went up to work on the Lake Superior section of the Canada Pacific Railway refused to take off their coats and commence operations at \$2 a day, or six times as much as an English cotton operative gets. Fifteen hundred tons of iron rails destined for the Canada Pacific Railway are lying at the bottom of Lake Superior, under twenty-five feet of water, through the giving away of an embankment on which they were piled. Kingston is exporting cotton goods to Free Trade England. The business of manufacturing cutlery is to be commenced in Montreal shortly; and a pin-making factory is about to be opened in Galt. These are hard times for Reform politicians. The borings for oil at Belliveau, Albert county, N. B., have reached a depth of 680 feet. As the operations have proceeded, oil has been met with frequently and recently the shale brought up was saturated with oil and burned freely. On Wednesday of last week the flow of oil began to be continuous, and so continued at last accounts. There is no doubt that a deposit of oil has been struck, the only question to be decided being as to the quantity. The oil is remarkably pure. Mr. HOLMAN'S mutton canning factory, says the Pioneer, is in full operation, putting up about 60 carcasses each day. About a dozen hands are employed at the various operations.

Ch'town, Sept 12, 1883.—6od 1f. GAS-HEATING STOVES. THESE Stoves can be seen in operation every evening at Mr. G. H. Hassard's Bookstore, South Side of Queen Square, where orders for Stoves can be left, and where an illustrated catalogue can be seen, containing every information. The cost of these Stoves range from \$4.00 upwards. The cost of gas varies from less than one cent per hour upwards, according to the size of the stove and heat required. The great advantages of these Stoves are that they will heat any sized bedroom, nursery or sick room, in a few minutes after lighting the gas, the consumption of which can be instantly stopped by turning off the tap, thus preventing the waste of fuel, either before or after the necessary heat is required. No coal to be taken up stairs. No ashes to be brought down. No dust, dirt or smoke about the room, which is most important in case of sickness. At a cost of about one-half to three-fourths of a cent boiling water, warm food or hot drinks can be had at any time during the night, in from two to four minutes after lighting the gas, thus making the stove useful in the nursery and sick room, both summer and winter. The Stove also lights the room with the same gas that warms it. Ch'town, Oct. 24, 1883.—7m wkl
