| 24. Heart | There's the Girl |
| 25. Bananarama | I Can't Help It |

HISTORY SOCIETY

Sir Walter Raleigh

Well folks, time has certainly flown since the beginning of the semester; Exams will soon be upon us. As a result, the History Society held its final meeting of the semester on Thursday, November 26th. Sincere gratitude is extended to all members who, quite astutely, decided to join the distinguished ranks of the UPEI History Society. Your enthusiasm and steadfast loyalty are sure to prolong the longevity of our group.

Before the ear closes, however, all society members are encouraged to partici-

pate in our up-and-coming events:

1. Friday, November 27th
-Bowling at the Basilica Recreation Centre
-Cost = \$1.00 (includes shoe rental)
-Van will be leaving barn at 2:30pm.
2. Movie Pub — December 4th at 2:00pm

The Pub Crawl last week was a relative success. Once again, we made our presence known at campus events.

The History Society extends warmest wishes for a festive holiday season!

Queen Elizabeth

Biorhythms

Duane Briand

Well of course the Bio's pulled off another great party, but this time we decided to include everyone. The Panther Lounge was jammed full of people that had a great time and had a chance to win one of the many doorprizes. Thanks to Ron Cameron for getting all the prizes. The pub crawl was a great success. With a total of 152 participants travelling to six bars, there surprisingly were no major mishaps. Thanks to all the participants.

Another recent happening for the Bio Club was the adoption of the North River as a part of the adopt a stream program here on the Island. Along with the adop-

tion of the North River the Bio Club is sponsoring a foster child from an underdeveloped country. These two undertakings should help prove that the Bio Club has depth and is more than one wild party after another.

A big thank you is in order for Dr. Louie Hanic, who recently put another donation in our scholarship fund. Your appreciation is greatly appreciated, Dr. Hanic.

We are now boasting a club membership of over 100 members, which is a new club record. Remember if you have an interest in biology you could also be a member of the increasingly popular Bio club.

Another added feature is a direct line to the North

The fat cells of November are here.

Pole. So far we know the Home Ec Club will get a videotaped lecture from Mrs. Claus entitled, "Snack to leave Santa" and Dr. Johnston will get a rotten potato for giving the senior biology students post graduate tests in an undergraduate course.
