Ford Co. Profits Decline For Third Quarter Of Year

DETROIT (AP) — Ford Motor Co. became the third member of the automotive big three to announce that its profits declined in the third quarter of this year in comparison with a year ago.

Ford Chairman Henry Ford II said the company's net income for the first nine months was $492,900,000, the second highest in Ford history. The record of $540,200,000 was set in the opening nine months of last year.

Ford's third-quarter net income of $65,800,000 was the lowest third quarter since 1960, when it was $51,400,000. A year ago, Ford made $102,100,00 in the third quarter.

In New York Thursday, Chrysler Corp. announced its profits had dropped in the third quarter and for the year to date, compared to 1965 levels.

General Motors reported Tuesday its earnings for the third quarter also were off.

Both Ford and General Motors said their consolidated sales for the opening nine months of this year were the second highest in the individual companies' history. Chrysler's nine-months income marked a corporate high.

Ford said "lower profits in the first nine months of 1966 reflected principally increased costs of labor and materials."

Directors of Chrysler, third largest U.S. automaker, declared a regularly quarterly dividend of 5 cents a share at a New York meeting Thursday.

Oct. 12, Ford declared a regular quarterly dividend of 60 cents.

MONEY SOCKED AWAY

Savings banks account for more than 50 per cent of Norway's bank deposits.

RIPLEY'S BELIEVE IT OR NOT

Breath Tests Are Opposed

OTTAWA (CP) — Drinking drivers are not a major cause of traffic accidents, a Toronto criminal lawyer told the Commons justice committee here.

Stocky dark-haired Anthony Bazos held the floor for most of the 2½ hour meeting of the committee, which is considering legislation to make breath analysis compulsory for persons suspected of drunken driving.

Mr. Bazos opposed the compulsory breath test, which have been supported by the Canadian Medical Association, the Canadian Bar Association and the Canadian Highway Safety Council.

"Statistics don't support the theory that alcohol causes carnage on the highways. The actual reason is the increase in the number of motor vehicles causing traffic congestion."

He said compulsory tests were "against all the principles of British justice and principles grown up over the years in Canadian courts."

"What you're trying to do is make a man convict himself."

Mr. Bazos quoted statistics showing that of all traffic accidents in Ontario in 1965, 91.2 per cent of drivers were in normal condition, 1.8 per cent had impaired ability and 6.3 per cent had been drinking. He said he was unfamiliar with safety council figures which showed that alcohol was involved in 45 per cent of traffic accidents.

STARS REACH FAR

Some "star bridges" between galaxies reach 100,000 light years, 600,000 million million miles.

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y D L B A A X B
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

The bidding:

North	East	South	West
1♣	1♦	1♥	Pass
1♠	Pass	3♣	Pass
3♥	Pass	4♥	Dble

Opening lead— eight of diamonds.

This hand occurred some years ago in the Vanderbilt team of four championship. The bidding might not be approved by Good Housekeeping, but that's the way it went.

West led a diamond, East winning the trick with the queen. East returned a heart, on which South played the nine. West could have won the trick with the ten, but, in an effort to mislead declarer in trumps, he won the nine with the queen.

West's unusual play paid extraordinarily good dividends after South ruffed the diamond return and played a low trump in the expectation of finding the adverse trumps divided 3-2. Had this turned out to be the case, South would have wound up going down one.

But when West won the trump with the ten and then cashed the A-K, eating up all of declarer's trumps, South was in serious trouble. East discarded three spades as the trumps were being led, and when West then played a diamond, East was able to ash his remaining diamonds.

The outcome was that South lost four trump trick as well as five diamonds and went down six for a loss of 1,700 points!

South would have done much better if he had avoided the trap so artfully laid by West. He would have gone down two instead of six had he abandoned further trump leads, and would have lost 500 points instead of 1,700.

It is interesting to note that West's play of taking the nine with the queen placed him in a position where he had everything to gain and nothing to lose.

He knew that the play might encourage declarer to look for a 3-2 trump break, and he also knew that his four trump tricks would remain intact even if South adopted a more cautious method of play than leading trumps. West's attempted deception was certainly not profound, but it was sensationally effective.
