VARIETIES.

THE BIBLE IN SARDINIA.—The Geneva correspondent of the London *Christain Times*, in a letter to that paper, says:—"Wishing to profit by the permission granted by the Sardinian Government with respect to admission of Bibles, the Bible Society of Geneva lately sent to Chambery two of its colporteurs, and such was the demand for the sacred volume, that in the space of a fortnight, in the two towns of Chambery and Annecy, 1500 copies of the Scriptures were sold by the colporteurs of the Bible society, and at the depot which Mr. Graydon, agent of the British and Foreign Bible Society, established at the house of the editor of the *Gleaner*. Of these 1500 copies, about 1000 were Bibles, and 500 Testaments—all of the French version of Sacy."

A LOCOMOTIVE was lately run, for the first time, five miles on the Egyptian railroad, much to the astonishment of the Bedouins, who galloped alongside on their fleet horses for some time, until they found they had no chance of keeping pace with the locomotive.

THE following anecdote, illustrative of railroad facility, is very pointed. A traveller inquired the distance to a certain point. "Dat 'pends on circumstance," replied the darkey. "If you gwine afoot, it'll take you about a day; if you gwine in the stage or de homnibus, you make it in half a day; but you get in one of dose smoke wagins, you be almost' dar now!"

PRESERVING EGGS.—M. Appert's method of preserving eggs is to put them in a jar with bran, to prevent their braking; cork and hermetically seal the jar; put into a vessel of water, heated to 200 degrees Fahrenheit, or 12 degrees below boiling. The vessel with water being taken from the fire, the water must cool till the finger may be borne in it; remove the jar. The eggs may then be taken out, and will keep for six months.

THE BEST MEDICINE.—Good, wholesome food and temperance, with pure, cold water to drink and bathe in, with fresh air, plenty of exercise, and a clear conscience, are said to do more to restore or preserve health, and prolong life, than all the doctors and medicine in the universe.

HENS AND EGGS.—The *Maine Farmer* says a young hen will lay the first year about 150 eggs, the second 120, the third 100,—diminishing every year as she grows older; and she should "go to pot" after the fourth.

BEST FOOD FOR FOWLS.—By experiments lately made on a farm at Neufchatel, in Switzerland, it has been proved that fowls to which a portion of chalk is given with their food lay eggs the shells of which are remarkable for their whiteness. Some hens, fed upon barley, would not lay well, and tore off each other's feathers. The barley was then mixed with some feathers chopped up, which the hens ate and digested freely. By adding milk to their food, they began to lay, and ceased plucking each other's feathers. Never give poultry or birds salt, or salt food; it is poisonous to them.

CURIOUS SENTENCE.—The following verse contains every letter in the English alphabet except "E." It is a question whether any other English rhyme can be produced (in print) without the letter "E," which is a letter employed more than any other. By inserting the word vex instead of tax, in the second line, the verse would contain all the letters of the alphabet.

A jovial swain may rack his brain,
And tax his fancy's might,
To quiz is vain, for 'tis most plain
That what I did was right.

A COMPARISON.—A preacher, who had once been a printer, observed in one of his sermons, that "youth might be campared to a comma, manhood to a semicolon, old age to a colon, to which death puts a period."

A SECRET is like silence—you cannot talk about it and keep it; it is like money—when once you know there is any concealed it is half discovered. "My dear Murphy," said an Irishman to his friend 'why did you betray the secret that I told you?" "Is it betraying you call it? Sure, when I found I wasn't able to keep it myself, did't I do well to tell it to somebody that could?"

WANTED, by an attorney, a clerk to *engross* people's attentions.

A MAN in Burlington advertises, "hams and cigars, smoked and unsmoked, for sail."

"DADDY, I want to ask you a question." "Well what is it son?" "Why is Smith's gin-shop like a counterfeit shilling?" "Don't know, son; why?" "Because you can't pass it," said the boy. The old man was carried off on a shutter.

"Ah, Mr. Simkins, we have not chairs enough for our company," said a gay young wife to her frugal husband. "Plenty of chairs, ducky, but a little too much company.

VETERINARY PRACTICE,

Under the Patronage of His Excellancy Sir ALEXANDER BANNERMAN, *Knight.*

GEORGE LORD, begs leave respectfully to intimate to his friends and the public in general, that he has resumed his practice in the VETERINARY LINE, under the patronage of His Excellency Sir ALEXANDE BRANNERMAN, Knight.

After a successful practice of 27 years—14 in England and 13 in America—in the course of which he has been directly instrumental, through his skill, in saving, for their owners, the lives of many valuable HORSES and COWS; he hopes that, in now soliciting a renewal of PUBLIC PATRONAGE, he may be permitted to say that he considers himself to be as well qualified to prescribe MEDICINES and preform OPERATIONS, in the capacity of a HORSE and COW DOCTOR, as any individual who has ever practised in that line in this Colony; and he, therefore, presumes that he may confidently look forward to a renewal of that patronage which he formerly enjoyed in this Island.

RESIDENCE—Next door to the Victoria Hotel, Water Street, Charlottetown.

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD.

Copy of a Letter from Mr. John Lloyd, of Erw wen, near Harlech, Merionethshire.

To Professor HOLLOWAY,

SIR,—I avail myself of the first opportunity of informing you, that, for a very long period, I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming, that I was really afraid of going about without an attendant. In this melancholy condition, I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your obedient Servant'

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Edward Rowley, Esq., of India Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY,

DEAR SIR—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPSY, and which, under God, was effected by your invaluable Pills. I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks. (Signed) EDWARD ROWLEY.

A DANGEROUS LIVER COMPLAINT AND SPASM IN THE STOMACH EFFECTUALLY CURED.

Copy of a Letter from Mr. Bostock, Druggist, of Ashton under Lyne, dated July 31, 1852.

To Professor HOLLOWAY,

DEAR SIR—I have much pleasure in handing to you a testimonial of the efficacy of your Medicines. A person in this neighbourhood, with whom I am well acquainted, was affected for a long time with violent spasmodic pains in the stomach and liver, arising from frequent colds, smells of paint, and the effects of a stooping position, which he was obliged to assume in his business. The spasms were of an alarming character, and frequently left him in a weak and debilitated condition. At length he heard of the salutary effects of your invaluable Pills, and was induced to give them a trial. The first dose gave him considerable relief, and by following them up in accordance with your directions, they have acted so wonderfully in cleansing the liver and stomach, and strengthening the digestive organs, that he has been restored to the enjoyment of good health.

I remain, dear Sir, yours faithfully,
(Signed) WILLIAM BOSTOCK.

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES.

Extract of a Letter from S, Gowen, Chemist, of Clifton, Near Bristol, dated July 14th, 1852.

To Professor HOLLOWAY,

DEAR SIR—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you, that, for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach, Indigestion, loss of Appetite, violent Head-aches, pains in the side weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last, she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with no other remedy.

(Signed) S. GOWEN.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
