**Social and Economic Research**

Here is the equipment whereby formulas for social and business progress may be developed

WITHOUT knowledge or information at his disposal, a person is greatly handicapped in the promotion or extension of any venture he may undertake. On the other hand, the possibilities of success are definitely increased, if one is well posted on all the facts—past and present—that are associated with the venture and the conditions related to it.

Depending upon persons and circumstances, this venture may be a plan for social betterment or for business enterprise. Perhaps it is the building of a school—the raising of a particular kind of farm product or livestock—the catching and curing of fish—the administration of a health department—the manufacture or export of certain commodities; or it may be connected with mining, lumbering, smelting, building, brickmaking or any one of hundreds of different ventures that commonly interest Canadian citizens.

But whatever it may be—full information about it is available from the Dominion Bureau of Statistics, Ottawa, and this information is accessible to all.

**Figures Give You Facts—Show You Future Possibilities**

Take the tourist trade for instance. Records compiled by the Bureau show the growth of the trade year by year and approximately how much the tourists spent while in Canada. It is known how many came by car—by train or over ocean routes; also how many visited each province and in what month they arrived.

Then to a person interested in apples, the Bureau can furnish data on what quantity has been consumed in Canada year by year—also what quantities are exported and where to—and their value. Similar data

are available for every other product of farm, forest, mine and fishery.  
On matters pertaining to the health of Canadian citizens there is a tremendous amount of useful, authentic information covering every province and presenting a valuable array of facts in an orderly manner, correctly co-ordinated and easily understood.  
Similarly on hundreds of other subjects related to the social and business life of Canada, the Dominion Bureau of Statistics furnishes abundant information.

As a whole, these statistics are a record of Canada's accomplishments and a barometer of social and business trends. They indicate possibilities of progress for the years to come.

**Fifteen Branches Co-operate in This Service**

All the facilities of the Bureau of Statistics are maintained for the use and benefit of Canadian citizens. To cover and present all phases of its work, the Bureau issues approximately 500 different publications—weekly, monthly, quarterly and annual. For business men the Canada Year Book is one of the most useful of these publications. It is a well-bound volume of some 1141 pages crammed with tabulated and other information which represents exceptional value at \$1.50; procurable from the King's Printer, Ottawa.

A list of all Bureau publications will be well worth checking over to note their contents and to secure those which best serve your interests. The Bureau cordially invites inquiries and promptly attends to all correspondence. Address your letters to Dr. R. H. Coats, Dominion Statistician, Ottawa.

**Livestock**

(Canadian Press)

MONTREAL, July 31 (CP)—Receipts on today's Montreal livestock market were 722 cattle, 1,566 calves, 1,815 sheep, 1,184 hogs. Cattle receipts included 225 held over from last week. There were not enough early sales today to establish prices. Calves were 25 to 50 cents lower, lambs 1/2 lower and hogs 50 cents lower.

Calves were 25 to 50 cents lower. Good quality veals made \$7 to \$7.50 with medium kinds around \$6.50 with common light veals down to \$5
