

Wires Stress Urgency Of New Car Ferry Need

SUMMERSIDE—Telegrams to Prime Minister John Diefenbaker and the Minister of Transport, Hon. George Hees, pointing out once again the urgency of an immediate start on a new ferry, were approved at a meeting of the executive of the Summerside Board of Trade Monday evening. The telegrams pointed out that a recent accident to one of the Abegweit's motors pointed up the board's previous contention that the whole ferry service could easily break down through a serious mechanical defect. The text of the telegrams to the Prime Minister and Mr. Hees is as follows: "Transportation problem between Borden and Cape Tormentine becoming serious. Ferry Abegweit has developed motor trouble and will have to be laid up for repairs and may have to go to dry dock. Ferry Prince Edward Island pressed into service as emergency measure following fire after being declared unfit for passengers. Only recently returned from drydock due to mechanical breakdown during peak traffic period. Scotia 2 presently unfit for service and does not carry passengers. Urgently request you give early consideration to building a ferry." Similar telegrams were sent to Federal Fisheries Minister Angus MacLean, Dr. O. H. Phillips, M.P. for Prince and other island members asking their support and cooperation.
