Memorial Stained Glass Window For Zion Church

CHOIR ENTERTAINED—Mrs. W. R. Garrick was hostess to the members of the choir of the Presbyterian Church, Montague, Sunday evening. Mrs. A. F. Campbell presided at the piano for a sacred song. A delicious lunch was served by the hostesses who were assisted in serving by Mrs. Sadie Garrick, Charlottetown, Mrs. Campbell, Mrs. F. N. Young and Mrs. Elsie Waterworth.

This column is reserved for news of local interest, but advertising of a new nature may be inserted at five cents a word, strictly payable in advance.

An exceptionally fine stained glass window is at present being installed in Zion Presbyterian Church in Charlottetown. The window has been purchased through the efforts of the Women's Auxiliary of the Church, and is in memory of the thirteen men of the congregation who lost their lives in the last World War. The overall glass size of the window is seven and a half feet by twenty-four feet, and is made in three panels.

RECEIVES NEWS OF COUSIN'S DEATH—Word has been received by Mrs. Edward Goff, Charlottetown, of the death in Duluth of her cousin, Miss Genevieve Macdonald. Miss Macdonald was a daughter of the late Hugh Lord and Louisa Owen Macdonald of Cardigan. Prior to her retirement several years ago Miss Macdonald was Chief Reference Librarian of the Minneapolis Public Library. She is survived by her sister, Edith, Mrs. John B. Stevenson, Vancouver, B.C., who was with her at the time of her death. Mrs. W. E. Agnew and Miss Muriel Morson, and Miss Minnie Owen of this City are cousins.

DONT MISS Gracie Fields show at Forum tonight.

Union Commercial Produces Color Film

The premiere showing of the color film, "Your Training in Business," produced during the past few months by Union Commercial College, was made to a large audience on the evening of June 27 in the Union Commercial College auditorium. The film features the students of the class of '50 in the various phases of the activities connected with their training. The theme of demonstration in the film is interspersed with humorous portrayals of "Hopeless Homer," a character who always does everything the wrong way. The film gives a prospective commercial beginner an excellent conception of the type of training he will get at an up-to-date, modern business school. It gives commercial graduates a refresher in the correct methods and techniques of production in business. The film was well received by the audience, who evinced keen interest, and expressed their appreciation by hearty applause.

PRIVATELY OWNED

shore on the north coast of Prince Edward Island.

"The Province of Prince Edward Island," Mr. Mayhew replied, "can come under this vote just the same as any other Province and can get the draggers. So far as whether it is feasible to use draggers off the Prince Edward Island coast, I think there is ample proof in the fact that the trawlers and draggers from New Brunswick do fish along that coast."

"As far as reduction plants are concerned, I indicated certain locations I thought suitable. One of these places was in Prince Edward Island where I thought a reduction plant should be set up to take care of the offal and the surplus fish that turn up along that shore. An individual has taken the hint and is now in the process of trying to establish a plant. He is making application to the Industrial Bank for assistance. We are quite pleased when private enterprise comes along and does these things, because the Government does not want to get into this kind of business. There is a small plant in New Brunswick which has done very well, and I would think that perhaps this individual in Prince Edward Island may be able to do it."

"Is the one the Minister is speaking of at Hunter River to be carried on by private enterprise?"

our councils and conventions. "In conclusion, therefore, it is my pleasure and my privilege, as President of the Progressive Conservative Party of Prince Edward Island, in my own behalf, and on behalf of our Party and each Conservative who constitutes it, to ask you to accept this gift as a token of our appreciation for those long years of faithful service."

In acknowledging the presentation and address Dr. MacMillan spoke feelingly of his years of association with the party, and urged all who hearted support of the new leader, Mr. Bell.

DEATH LAST NIGHT

Continued from page 1

Charlottetown. As captain of these boats, Captain Read was known for his friendly personality and his good service to the travelling public.

He formerly was a large fox rancher and to the time of his death was an extensive farmer, possessing a fine herd of purebred Guernsey cattle. He was a true sportsman. As a young man he was an excellent athlete and was always interested in yachting and horse racing.

He took an active interest in public and community affairs as well as in politics.

Captain Read entered the hospital early in May with pneumonia. He seemed to be recovering but several days ago his condition began to worsen and he died about six o'clock last evening.

He is survived by his wife, the former Nellie Hilson of Wilnot and a son and four daughters. They are: John E. at Borden; George, Mrs. George Barton, Yonkers, N. Y.; Nellie, Mrs. Glen Waddell, Cape Traverse; Sadie, Mrs. Bert Dickie, Cape Traverse; Adele, Mrs. Clarence Cameron, Montreal.

The funeral will be held from his late home at Borden on Sunday afternoon at two o'clock. Burial will be in the People's Cemetery, Summerside.

Funeral Of Mrs. K. H. Coffin

The funeral of the late Mrs. Kimball H. Coffin was held from her late residence, Moyell, on Saturday, June 24th, at 2 p.m., followed by services in the Marie United Church conducted by the Rev. Mr. Corkum of Souris, P.E.I. Mr. Corkum sang "Somebody We'll Understand" and the United Church choir sang "The Lord's My Shepherd" and "Abide With Me." She is survived by two sons and two daughters, Layton, on the homestead; Ernest R., in Cambridge, Mass.; Ethel (Mrs. Ernest B. Wright), Beverly, Mass.; Alice (Mrs. Clarence Murchison), York Point, P.E.I. Her son, Roy H., predeceased her some years ago.

The pallbearers were: Louis Kelly, Bruce MacEwen, Harold Murphy, Wendell Coffin, Edward Rosner, Freeman Jay.

Maritime Veterinary Ass'n Convention

SACKVILLE, N. B., June 29—(CP)—A day-long conference of the Maritime Veterinary Associations concluded today with Dr. J. F. Frank, Sackville, N. B., appointed to arrange for the third annual conference to be held here next year at Mount Allison University.

At the morning session Dr. S. W. Stiles, Falmouth Forensic, Me., presented notes on general practice. The laboratory diagnosis of distemper, with special reference to foxes, was outlined by Dr. P. J. G. Plummer, of the Animal Disease Research Institute, Hull, Que. A panel discussion on small animals was conducted by Dr. L. P. Rutherford, Dr. J. E. MacLean, both of Halifax, and Dr. D. B. Butterwick, Fredericton.

At the afternoon session, presided over by Dr. O. S. Norland, Island Association, papers were read by Dr. Charles A. Mitchell, Animal Disease Research Institute, on skin lesions and its relationship to the tuberculin test; and Dr. J. M. Velleux, director of Animals Service, Quebec Department of Agriculture, on lead and arsenic poisonings in cattle.

A Women's Auxiliary was organized by the wives of delegates and elected Mrs. J. F. Frank as president and Mrs. N. H. Watson of Fort Elgin, N. B., secretary.

Fish Catch Heavier In May

OTTAWA, June 29—(CP)—Alewives—which some persons know as "gaspereaux" and others as "river herring"—were among the fish which helped swell the nets of Atlantic coast fishermen to 131,577,000 pounds last month. The catch was 20,272,000 pounds heavier than in May, 1949.

The Bureau of Statistics today reported that herring, lobsters, cod and alewives were caught in the greatest quantity. The value of the catch was \$6,969,000 as compared with \$4,443,000 in May, 1949.

The Bureau said the successful lobster fishery was "almost wholly responsible" for this 36.6 per cent rise in value.

Landings of sea-fish on both coasts (excluding Newfoundland) totalled 147,035,000 pounds, valued at \$8,273,000, compared with 126,688,000 pounds valued at \$6,535,000 in May last year.

On the Pacific coast, landings totalled 15,458,000 pounds, slightly lower than the May, 1949, total of 15,578,000 pounds. However, landed value of the catch was 5.3 per cent higher, amounting to \$2,204,000, against \$2,092,000.

The Bureau said better bait but prices were largely responsible for the increase in landed value.

See Crow Shooting Contest Proving Highly Successful

The crow-shooting contest being carried out in this Province, at the present time, is proving very successful in helping to eliminate the menace to game birds, it was reported here yesterday by officials of the Provincial Fish and Game Association who are sponsoring the event.

The competitions were commenced here the first of the season to help eliminate the large number of crows throughout the Province that are preying on the eggs and young of island game birds, particularly Black Ducks and Hungarian Partridge.

The competition is open to anyone in the Province, and will close on July 17. The legs of the crows must be sent in pairs, and will be received by the Royal Packing Company in Charlottetown up to that date, with entries sent by mail and postmarked July 17th being accepted. All competitors must be members of the P. E. I. Fish and Game Association by July 15. Some splendid prizes, seven in

Canada Pushing Vigorous Fish Culture Program

OTTAWA, June 29—(CP)—Canada is pushing a vigorous fish culture program to encourage production of the type of seafood which can find ready markets, Fisheries Minister Mayhew told the Commons today.

This program involved such seafood as oysters, lobsters, shrimps, and salmon, particularly salmon. All had ready markets.

The salmon culture program was being carried out in various parts of the country but it was an "up-hill battle." Many industries "sometimes regard our rivers as sewerage systems," creating conditions adverse to the spawning of salmon. There also was the problem of controlling the annual salmon kill both by commercial and sport fishermen.

Lot of Money Being Spent A lot of money was being spent on dams, the stocking of rivers, and other culture methods, the Minister said but he made no excuses for it. He believed the increased vote for this time might have to be increased still more.

Russia Refuses To Use Influence To End War

LONDON, June 29—(AP)—The Soviet Union tonight flatly rejected an American request that Moscow use its influence to end the Korean war.

The United States made the request in Moscow Tuesday, when Ambassador Alan G. Kirk called on the Foreign Office. The reply, a declaration to Kirk by Andrei A. Gromyko, Deputy Soviet Foreign Minister, was broadcast by the Moscow radio tonight.

The Soviet Union held that the events in Korea were provoked by an attack of South Korean troops upon the frontier areas of Northern Korea—a contention contrary to United Nations findings.

In turning down the American request for Russian action, the reply said: "The Soviet Government holds the principle of inadmissibility of interference of foreign powers in the internal affairs of Korea."

"According to reliable data of the Soviet Government, the events which are going on in Korea were provoked by the attack of the South Korean authorities on the frontier area of Northern Korea. Therefore the responsibility of these events lies with the South Korea authorities and with those who stand behind them."

As is known, the Soviet Government withdrew its troops from Korea earlier than did the U. S. Government and thereby confirmed its traditional principle of non-interference in the internal affairs of other states. The Soviet Government holds now also the principle of the inadmissibility of the interference of foreign powers in the internal affairs of Korea."

N. B. Trappers Told P.E.I. Hares Not For Export

Two New Brunswick trappers have applied to the Provincial Department of Industry and Natural Resources for permission to buy live wild hares or rabbits from Prince Edward Island for export to the United States.

The two men, Stanley Bell and Sidney Biggar of MacAdam, N.B., said that last year they had shipped 11,000 wild rabbits, principally to New York and Vermont. Three thousand of these went from Grand Manan Island in addition, there are other dealers shipping rabbits from New Brunswick.

In reply to their application, Hon. Eugene Cullen pointed out that, from information which he had and which is supported in a Charlottetown newspaper ("Hunters' Corner" in The Guardian), island rabbits were at a low ebb during the winter. This condition was brought about by the prevalence of foxes at large in the Province.

Accordingly, said Mr. Cullen, it was the policy of his Department at the moment to discourage the trapping of rabbits for export from the Island.

all, have been donated for the contest winners. The grand prize, donated by R. T. Holman Co. Ltd., will be a Savage, 12 gauge three-shot, automatic shot gun. Other prizes, which will be duplicated for the winners of Prince County and for the winners of King's and Queen's Counties combined, are as follows: Mossberg, 20-gauge, three-shot shot gun; hunting coat, vest and cap; khaki waders.

The prizes will be displayed in R. T. Holman's show window, Charlottetown, next week, and the winners of the contest will be announced on July 24th.

No Decision On Canada's Aid In Korean Conflict

By Douglas How OTTAWA, June 29—(CP)—A high Government source said tonight the fluid Korean battle situation and development of United Nations plans for joint military action are likely to delay at least until this week-end any decision as to what military aid Canada may give.

Asked about reports that Canada has offered to send three destroyers now on the Pacific coast, he said there has been no offer of specific military aid from this country.

Canada, he said, is trying to find out what the key country, the United States, needs and wants. There have been negotiations through today that have brought Ottawa into contact with Washington and with United Nations headquarters at Lake Success as well as with London.

The Korean battle front itself is such a sea-saw affair that the situation changes radically during a period of 24 hours. What might be needed today could be unneeded in two days' time.

Another factor is the absence of any United Nations machinery for handling a military situation in which member nations suddenly rally round to put up arms and men to stop aggression.

ery, the U. S. has assumed the key role. Canada's offer of help, therefore, is not discussed with the Council as such but with individual countries.

Officials here say this crisis might lead to development of permanent U. N. machinery that could handle this sort of situation without improvisation. They also say Korea, if "things work out right," could bring far greater benefit than that.

It could, they feel, lift U. N. to the highest level of world confidence yet attained by such a body and possibly stabilize peace for some time to come. But the fighting in Korea is still too tough and too current for too much thinking of that sort.

Meanwhile, there are reports in Ottawa that some Cabinet Ministers were all for immediate Canadian intervention when President Truman announced the U. S. would use force in Korea—and that a small minority wanted no part of it. Prime Minister St. Laurent, however, is believed to have won his point when it would be better to find out what the U. S. wants from Canada before Canada said what she would give.

Naval support appears to be the favorite form of U. N. aid being offered, a fact which in itself might lead the U. S. to decline any Canadian naval offer.

Canada Pushing Vigorous Fish Culture Program

OTTAWA, June 29—(CP)—Canada is pushing a vigorous fish culture program to encourage production of the type of seafood which can find ready markets, Fisheries Minister Mayhew told the Commons today.
