STEEL BARS MAKE TOUGH CHEWING

Candy, a 10-month-old polar bear at the Calgary zoo, gets a little jaw exercise by grinding away at the steel bars of her cage. It's all in good fun but Candy undoubtedly could cause considerable damage to anybody's arm which carelessly got in the way. (CP Photo)

Hurricane Floods, Winds May Cause 1,000 Deaths

MEXICO CITY (AP) — Hurricane winds and floods may have taken more than 1,000 lives in the Pacific coast states of Colima and Jalisco, the Mexican government said Thursday. Reports to President Adolfo Lopez Mateos' office said that as many as 800 is believed dead in Minatitlan alone. Earlier reports said that 300 died in that town. Minatitlan is a farm community of about 10,000 24 miles northwest of Colima, the capital of Colima state. Many other places were still to be heard from. A radio message to the president from Dr. Rafael Chavez Carrillo, brother of Colima's governor, pleaded for the rapid dispatch of food and medicine. Food shortages were described as acute in all Jalisco state towns which managed to get reports to Mexico City.

Monetary Fund Action Erases Trade Barrier

By ALAN DONNELLY
OTTAWA (CP) — A proclamation that should clear away some long-standing barriers to Canadian trade has been made by the International Monetary Fund. The statement by the fund's executive directors at Washington last weekend was aimed at eliminating most, if not all, of the discrimination practised by many countries against imports from Canada and the United States. Though it created little public stir, the statement was warmly welcomed by government officials here. Canada and the United States had been seeking the move for some time. The IMF declared that, with a limited exception, the world's trading nations can no longer claim to discriminate against dollar imports on the grounds of a shortage of gold and dollars. It said the fund's member countries — about 70 of them — should act "with all feasible speed" to eliminate this discrimination. No time limit was set, but officials here say the fund directors were talking in terms of months, not years. Once carried out, officials said, the move could open some doors in Europe to Canadian products like grains, fresh apples, meats and canned fruits and vegetables. It could drop United Kingdom barriers to products such as bacon, drugs, tobacco, synthetic rubber and fish. It emphasized here that the result in dollars and cents will depend on whether Canadian goods are competitive, and on how hard exporters work to develop the reopened markets. "But we should expect a better crack at a good many markets than we have had at any time since the war," one expert said. The discriminatory restrictions — mainly quotas or prohibitions — were imposed following the war by most non-dollar countries to protect their foreign exchange reserves of gold and dollars against too-heavy buying of dollar goods from North America.

Layoff Starts At Car Plant

OSHAWA, Ont. (CP) — The General Motors of Canada plant here has started to layoff some of its assembly line workers, a company spokesman said Thursday. The spokesman said that up to Wednesday night some 200 workers had been laid off. He said the layoffs will continue until next Wednesday when the amount is expected to reach 6,000. The company announced last week it intended to layoff some of its workers on car and truck assembly operations because of the steel shortage caused by a strike in the United States.

18 Persons Die In Plane Thursday

ATHENS (Reuters) — Eighteen persons were killed Thursday when a Greek airliner crashed near Tanagra, about 30 miles north of Athens. The dead included three crew members. The plane, an Olympic Airways DC-3 flying from Athens to Salonika, was reported to have caught fire in the air. A similar accident occurred near the same spot on June 6, 1949, when 18 passengers and four crew members died in the crash of a Greek airliner. The control tower at Athens airport lost contact with the DC-3 Thursday 10 minutes after take-off. The passenger list contained two foreign names—Krahnner and Koutzitski—but full identification or nationality is not required to be listed on internal flights.

Eisenhower Gets Checkup

WASHINGTON (AP) — President Eisenhower entered Walter Reed Army medical center Thursday for his annual physical examination. He drove directly to the hospital from Burning Tree Country Club in suburban Maryland where he played golf Thursday afternoon. Press secretary James Hagerty announced Wednesday Eisenhower planned to have his annual check soon. He said the examination has nothing to do with the cold Eisenhower has been trying to shake since last month.

Salvage Seen For Old Ship

ST. JOHN'S, Nfld. (CP) — A ship which sank in the harbor here during the First World War may soon rise from its watery grave. The Desola arrived in the Newfoundland capital port between 1914 and 1918 with acid on board. The ship sank after some of its cargo ate through the metal plates of the hull. Part of the ship was used as a foundation on which a CNR pier was constructed. The pier was extensively damaged by fire last spring and the remnants are being removed to make way as part of a \$13,000,000 harbor project.

BISHOP WATERMAN PRESIDES

Venerable Archdeacon Installed For Province

Rev. Canon James Thomas Ibbott was installed as Venerable Archdeacon of P.E. Island, last night in St. Paul's Anglican Church, Charlottetown, in the presence of a congregation which taxed the capacity of that edifice. Representatives were present from all of the 21 parishes and 21 congregations coming under the jurisdiction of the newly installed Archdeacon. He succeeds the late Ven. Archdeacon Harrison who occupied the position from 1940 until his death at Summerside on April 7, 1959. The installation ceremony was conducted by His Lordship Rt. Rev. R.H. Waterman, Bishop of Nova Scotia, with jurisdiction over P.E. Island, with whom was associated Hon. Harold L. Palmer, Vice-Chancellor of the Diocese, who read the letter of the Bishop dated Sept. 1, 1959. "Constituting and appointing" Rev. Canon James Thomas Ibbott, Rector of St. Paul's and Canon of All Saints Cathedral, Halifax and Canon of St. Peter's Cathedral, Charlottetown, as Archdeacon of P.E. Island. The service was taken by Rev. W. Eric Ingraham, Rural Dean and Rector of Kensington, with Scripture reading by Rev. Canon J.R. Davies, Rector of St. Peter's Cathedral, and prayers by Rev. Canon E.M. Malone. 36 YEARS SERVICE Bishop Waterman referred to the 36 years of service to the Church given by Archdeacon Ibbott as he recapitulated the natural qualities of leadership and "devotion to our Lord and his Church" which had progressively brought distinction to the Archdeacon. "In his new position as senior officer in the territorial jurisdiction, next to the Bishop I commend him to you as one in whom I have the fullest confidence," his Lordship said. Bishop Waterman paid tribute to the noble character of the late Archdeacon J.R. Harrison and his effective ministry as Rector of St. Mary's Summerside and Venerable Archdeacon of P.E. Island. Other members of the clergy present in the Sanctuary were; Rev. A.E. Piercey, Rector of St. John's Church Milton, Rev. M. J. Findlay, Port Hill, Rev. Mark Ferguson, Summerside and St. Eleanor, and Rev. D.S.H. Min-ton, Crapaud.

Army Said Shelving Idea Of Lacrosse Guided Missile

Paris Picked For Summit

By NICHOLAS HERBERT
LONDON (Reuters) — Leaders of the British, United States, French and West German governments have agreed on Paris as the place for their mid-December talks. It was announced in London and Paris Thursday. No specific date was given but the conference is expected to fall between Dec. 15 and 20. President Eisenhower said in Washington Wednesday the place of his meeting with Prime Minister Macmillan, President de Gaulle and Chancellor Adenauer had not then been settled. The Paris meeting is designed to align Western policy for an East-West summit meeting next year.

NO CONTRACT

The CBC announced Oct. 26 that its contract with Larry Henderson, principal television newscaster for the past five years, will not be renewed. A CBC spokesman said Mr. Henderson and the corporation could not agree on terms of a new contract. (CP Photo)

K VISIT IN 1960

French Foreign Minister Maurice Couve de Murville, besides disclosing the plans for the Paris meeting, announced that Premier Khrushchev's visit to de Gaulle will come during the first three months of 1960. Again, no specific date was given. Later, Foreign Secretary Selwyn Lloyd told the House of Commons that Britain would have preferred an earlier Western summit meeting. But one of the advantages of the December talks in Paris, he said, is that it would permit an exchange of views there with other NATO governments. The foreign, defence and finance ministers of the 15 NATO countries are scheduled to hold their annual meeting in Paris Dec. 14-16.

WARNS OF DELAY

Lloyd reaffirmed Britain's desire for an early East-West summit meeting. He said "it would be a mistake to wait too long before there is another series of personal contacts."

Missing Hunters Search Pressed

HALIFAX (CP) — Searches for missing hunters in two Nova Scotia areas will be stepped up today as hope fades for their return. Forty civilian navy workers from here will join the search today for 50-year-old Harold Lloyd of Dartmouth, N.S., missing since Friday near New Glasgow. A private search was being organized in Dartmouth.

Ships Collide In New York

NEW YORK (AP) — An Israeli passenger vessel, outward bound for Haifa, collided Thursday night with a freighter in New York harbor. No injuries were reported. The 9,831-ton passenger ship, The Israel, was damaged on the port side. She dropped anchor and tugs were standing by. The other ship involved was the 8,277-ton freighter American Press. The freighter apparently suffered no serious damage but was being towed to a Hudson River pier by tugs. The weather at the time was clear. The weather bureau said visibility over the harbor and surrounding area was at least 10 miles. The two ships collided near Bedloe's Island shortly before 9:30 p.m. A 30-foot coast guard patrol boat and a heavy-duty coast guard tug sped to the scene. Bedloe's Island, with the Statue of Liberty rising from it, lies across New York harbor from the lower end of Manhattan Island.

Atomic Surface Weapon Is Supplied To U.S. Army

By DAVE McINTOSH
Canadian Press Staff Writer
OTTAWA (CP) — The army has shelved — probably for good — plans to obtain the American Lacrosse surface-to-surface guided missile, it was learned reliably Thursday. No reason for the action was given but it was assumed that the army has changed its mind about the Lacrosse meeting its requirements for an artillery missile. Officially, the defence department declined to confirm or deny that plans to acquire the Lacrosse were being pigeon-holed. A department spokesman said the Lacrosse is still in the development stage but other officials said it is being supplied in quantity to the United States army. The weapon would have provided the Canadian armed forces with their first atomic capability. Canadian weapon to be fitted with an atomic warhead. Prime Minister Diefenbaker announced Oct. 1, 1958, that the Canadian army would get the Lacrosse. He estimated initial cost of the Lacrosse at \$1,198,000 with an annual recurring expenditure of \$360,000. A sum of \$473,000 was provided in the 1959-60 defence budget for the initial purchases from the Martin Company of Orlando, Fla., the manufacturer. But the defence production department, purchasing agent for the armed forces, has received no instructions to buy the weapon. The only missile the army now has on order is the French SS-10 anti-tank weapon. A small number have been ordered for evaluation purposes. The navy is the only service with a missile in operation. It is the air — to — air Sidewinder. The RCAF is scheduled to get the Bomarc in 1963.

Canada Bank Interest Rises To 5.27 Percent

OTTAWA (CP) — The Bank of Canada interest rate Thursday rose to 5.27 per cent from 5.18 last week with the sale of \$115,000,000 in 91-day government treasury bills. The increase followed a steady five-week decline that had dropped the rate by almost a full point between Sept. 17 and Oct. 22. The bank rate — minimum charge by the central bank on its infrequent loans to chartered banks — is set at one-quarter of one per cent above the average yield on the weekly sale of 91-day treasury bills. The bank Thursday announced that \$115,000,000 of the bills were sold by tender at an average price of \$98.763 for an average yield of 5.02 per cent. The highest yield was 5.11 per cent and the lowest 4.93. REFLECTS MONEY MARKET The bank rate is considered a general reflection of conditions in the short-term money market, since its level is tied to the weekly rates of short-term borrowings. Thursday's bank rate of 5.27 per cent compares with the record high of 6.41 on Aug. 13 and the record low of 1.12 on July 31 last year. The government also sold \$20,000,000 in 182-day treasury bills at an average price of \$97.318 to yield 5.33 per cent. Highest yield was 5.57 per cent and lowest was 5.45. Last week the average yield on a similar sale was 5.36 per cent. Next week another \$115,000,000 in 91-day bills and \$20,000,000 in 182-day bills will be offered for sale, meeting an equal amount of bills falling due then.

SAYINGS OF JESUS

Thomas Gospel To Be Published

NEW YORK (AP) — "Whoever knows the all but fails to know himself lacks everything." This is one of the hitherto unknown sayings attributed to Jesus in the Gospel According to Thomas, to be published in full this weekend for the first time. The event is of far-reaching significance, says Rev. Paul Mincar, professor of New Testament at Yale Divinity School. The book contains 20 chapters, including 11 sayings or discourses credited to Jesus, some of them echoes of familiar gospel passages, others wholly new. At one point, it is recounted: "Jesus said to His disciples, 'Make a comparison to me and tell me whom I am like.' 'Simon Peter said to Him: 'Thou art like a righteous angel.' Matthew said to Him: 'Thou art like a wise man of understanding.' Thomas said to Him: 'Master, my mouth will not at all be capable of saying whom Thou art like.' " The book was among 49 works bound in 13 papyrus volumes found in 1945 in a ruined tomb near Nag Hamadi in upper Egypt, preserved there in dry sand for 16 centuries. They were collated in 1956 in a Cairo museum. While the particular manuscripts are said to date back to the late 300s, they are considered to be copies of original sources going back perhaps to the first century, as old as parts of the New Testament. "The genuineness of sayings attributed to Jesus but otherwise unknown will provoke widespread discussion," says Dr. Everett F. Harrison, New Testament professor at Fuller Theological Seminary. Published by Harper and Brothers, along with a commentary, the text itself begins: "These are the secret words which the living Jesus spoke and Didymos Judas Thomas wrote." Didymos Thomas was one of the 12 apostles. The emphasis remains on love: "Love thy brother thy son guard him as the apple of thine eye."

College Work Is Discussed

Matters dealing with Prince of Wales College, including the new residence for women, were under discussion yesterday afternoon as members of the Executive Council met with the Regents of the college. Premier Walter R. Shaw said last night the meeting was routine to review matters with no new subjects being introduced. Among those attending with the Premier were Dr. L.G. Dewar, minister of education; Malcolm MacKenzie, deputy minister and director of education; and Dr. Frank MacKinnon, principal of Prince of Wales College.

Cuba Drafting New Tax Law

HAVANA (AP) — A new tax law covering petroleum concessions in Cuba is being drafted, the director of the department of mines said Thursday. It is believed the law will be similar to the one for minerals announced Tuesday night. This confronts mine operators with a tax of five per cent on production, 25 per cent on exports, \$20 per hectare (2.47 acres) annually for mines not considered adequately exploited and \$10 per hectare for those in full operation. Before mines director Cesar Rodriguez made his statement, petroleum experts predicted the minerals law would drive out dozens of oil firms big and small which have been seeking to expand the island's current production of 600 to 700 barrels a day.

Soviets Blast Labor Leader

LONDON (AP) — The Soviet Union's government-controlled trade unions levelled a bitter blast at Walter P. Reuther Thursday, accusing the American labor leader of deserting a Russian wife in the 1930s. The 52-year-old AFL-CIO vice-president responded that this was a propaganda attack "based upon complete fabrication and falsehood." Trud devoted a page to Reuther under the headline: "Get acquainted with Mr. Reuther, leader of the monopolists."

REV. JAMES T. Ibbott, Rector of St. Paul's Anglican Church Charlottetown, Canon of All Saints Cathedral Halifax and his effective ministry as Rector of St. Mary's Summerside and Venerable Archdeacon of P.E. Island, (second from left) following his installation last night as Ven. Archdeacon of Prince Edward Island, by His Lordship Rt. Rev. R.H. Waterman, Lord Bishop of Nova Scotia, (second from right). Participating clergy included Rev. W. Eric Ingraham, Rural Dean, (left) and Rev. Canon E.M. Malone. (See page 5 for other pictures).
