THE Hon. B. R. Stevenson has resigned his seat in the Provincial Government. It is said that Mr. Stevenson will be the Government's candidate for the Speaker of the Assembly.

WHAT DID HE MEAN?—During the sermon in St. James Street Methodist Church, Montreal, on Sunday, the clergyman said very solemnly that the privilege last week in the United States came just a minute too late to save two men, "Molly Maguires," to which a gentleman in the congregation responded in a clear, strong voice, "Praise the Lord!"

GREAT excitement and consternation prevailed at Ogdensburg, N. Y., a few days ago, caused by the following announcement: "Owing to the unusual financial pressure and large depreciation of value of real estate and securities, I am compelled to close the Judson Bank. With moderation on the part of my creditors, I confidently expect to pay all my liabilities in full."
(Signed) J. D. JUDSON.

MEETING OF THE LEGISLATURE.—The 19th of February seemed to meet with favor among members of the Local Government, as the day for assembling the Legislature; but was subsequently found that the absence of the Governor at the State Dinner at Ottawa, to which the Governor General has invited the several Lieutenant Governors for Feb. 13, would prevent his Honor from returning in time to open the Legislature on the 19th. The opening is accordingly fixed for the 27th February.

Some United States Senators are entertaining Congress with a proposition to ask the British Government to abolish the fishery clauses in the Treaty of Washington, instead of waiting for the treaty to run its course and terminate in 1855. It is argued that if this is not agreed to a duty should be put on Canadian fish, Congress being able, according to Judge Curtis, to impose duties in defiance of treaties. This was not the view held in regard to the Newfoundland disputes, the treaty being regarded as of the most absolute and obligatory character. The same good sense which led the people of the United States to desire the payment of the fishery award will save them from the humiliation of repudiating a treaty.

THE Dominion Board of Trade have adopted the following resolution:—"That this Board favors the adoption of such a National policy as will secure the development of our coal, iron and other ores, together with the other industries of our country."

On the question of a duty on fish cans, the Board passed the following:—"That the Board petition the Government to use every effort to have the duty charged in the United States on tins containing fish abolished; and, in the event of not succeeding in this, that a corresponding duty be levied on the article imported into Canada from the United States; and that in the meantime, the sanction of Parliament be obtained to such a course."

Canada possesses the most valuable and extensive fisheries in the world, and therefore the International Fishery Exhibition, to be held in Berlin in April, 1880, cannot fail to prove interesting to our people. Numerous prizes are to be awarded to the exhibitors in the nine classes. One very remarkable class will be that in the history of fishing, in which are included the implements of fishing, original or in reproduction, from the oldest time downward; also models, pictures, seals, and emblems of an ancient fishermen's guilds.

The English population of Egypt seem to look on Cyprus somewhat in the same manner that Americans regarded California when the gold fever broke out.
