NEW YORK

NEW YORK (AP)—The stock market Tuesday tumbled to its worst loss in three weeks as leading banks boosted the prime interest rate charged to their bigger borrowers.

The news came as a surprise to Wall Street. An increase in the prime rate was not expected Tuesday.

The banks raised the interest rate to 5 per cent from 4½ per cent, effective immediately.

Motors and steels took the worst losses at the outset, dragging the rest of the market with them. Closing prices were about the day's worst.

The Associated Press average of 60 stocks dropped $2.00 to $229.00. It was the worst break for the AP average since Aug. 10 when it fell $4.10.

Among Canadian issues, International Nickel lost 1¾ McIntyre Porcupine 1½, Aluminium Ltd. ⅞, Walker Gooderham and Distillers Seagrams, both ⅝. Hudson Bay Mining ⅜. Canadian Pacific ½ and Dome Mines and Granby Mining, both dropped ¼.

American stock exchange prices declined.

Among Canadian Brazilian Traction gained by ⅛ and Scurry Rainbow oil lost by ⅛.

MONTREAL

MONTREAL (CP) — Prices slipped throughout Tuesday and losses outnumbered gains about 2 to 1 at the close of quiet trading on the Montreal and Canadian stock exchanges.

All groups joined in the decline. In steels Algoma lost 1¾ at 37¾. United Steel lost ⅝ at 9¼ and Stelco went down ½ at 81½. Standard Structural went up ½ to 81½.

Nova Scotia Light lost 1¼ at 15 in a dominantly lower utility group.

Base metals declined with International Nickel going to 94¾, down 1. Aluminium lost ½ at 32.

The papers Price Brothers lost 1¼ at 40¼ and Bowater Corporation went to 43 losing 1.

Banks were also weak. Toronto Dominion slipped to 59½ off 2 and Royal lost 1 at 83.

Some gainers in Tuesday's weak market were Shop and Save up 1½ at 23. Ford U.S. at 81¼ up 5¾, and General Motors at 55 up 3¼.

The closing averages show banks off 0.6 at 63.06, utilites up 0.5 at 149.8, industrials off 3.2 at 313.7, combined off 2.0 at 259.0, papers off 2.1 at 439.4 and golds off 1.25 at 87.64.

TORONTO

TORONTO (CP)—The Western oil index dipped almost 2½ points on the Toronto Stock Exchange Tuesday, reducing their index to 111.73, a four-year low. Golds and base metals, early winners, joined the retreat at noon. Base metals gave up almost one-third while golds lost a few decimal points.

Ansil was the lone winner among the five most active mines, up 10 cents at 26 cents.

Seniors were down almost to an issue in western oils. Hudson's Bay lost ¾ at 16 and Pacific Pete gave up ⅜ at 13½. Bailey-Selburn lost 30 cents at $7.45.

International Nickel, down 1¾ at 93½, took the major loss among base metals. Consolidated Denison Uranium was off ¼ at 13¼.

In golds McIntyre slipped 1¾ at 87¼ and Hollinger lost ⅛ at 31¼. Giant Yellowknife was a winner, up 45 cents at $8.75.

Index losses: Golds .17 to 87.99; base metals .31 to 171.75; western oils 2.40 to 111.73.

AGRICULTURAL NEWS

P.E.I. Department of Agriculture

A. CULTURAL

Reclamation? The most effective means of cultural control is to plow the land and cultivate it well before re-seeding to hay or pasture. A hoed crop is ideal to eliminate the weed. Two successive crops of grain with fall cultivation after the first grain crop will kill the seedling plants and also those plants which have developed from root fragments. A close dense pasture sward will discourage the establishment of this weed. This does not mean that the plant does not respond to liming and fertility but that in the early stages of development it is a rather poor competitor. Thick, productive pastures discourage its establishment.

Mowing, Pulling and Digging The most common method of control is to mow the flowering oats. This is a rather short term control, as many of the plants so cut will revert to the rosette stage, producing a flowering stalk later that season, or during the following season. Nevertheless some farmers have been able to control this weed fairly well by this method. Where only small infectations are found, the plants may be pulled or dug. Some regrowth may occur from root fragments but, by careful vigilance, small colonies can be eliminated. The plants in this case should be removed and burned.

Sheep Grazing? Fortunately, sheep are not as susceptible to poisonous alkaloids of Ragwort as are cattle. Sheep will graze this weed while it is in the rosette stage, and this grazing has in many cases kept the incidence of the weed to a low level. When the sheep were removed from these farms, Ragwort increased rapidly and soon resulted in cattle poisoning. Where practical, these would seem to be the most effective means of control, other than by chemicals.

B. CHEMICAL

While changes in field management as mentioned under cultural control are extremely important there are cases where ragwort should be controlled and a change in overall management is not feasible. Under these conditions, 2,4-D will be found a better tool with which to control ragwort than even cutting or pulling.

One Treatment With 2, 4-D Is Not Enough! It must not be assumed that one spraying will give 100 percent control. It will take at least two properly-timed sprayings and even after control is obtained reestablishment of ragwort will vary from one place to another under varying conditions of sward density and abundance of ragwort in adjoining fields. In many cases, two properly, timed sprayings, a year apart and during the rosette stage, should bring the ragwort under control in pastures with a reasonable dense sward. 2, 4-D is not recommended for use on newly-seeded pastures due to its injurious effect on clover. The natural white clover, found in many of our pastures, is surprisingly resistant to 2, 4-D.

In the last case, two treatments, a year apart, will not kill out the natural white clover. Use 2,4-D Ester or Amine form at 1½ lbs. of actual acid per acre in the early summer when the ragwort is in the rosette sage. Repeat the following year at this stage of growth. The amount of water used to cover an acre can vary from 5-40 gals. without causing any differences in results.

WARNING!

2,4-D treated ragwort usually becomes more palatable to livestock. It is advisable to keep livestock out of the treated pasture for several weeks after spraying. If one desires one can keep a close check on the livestock and remove the stock as soon as there is evidence of grazing of the treated plants.

The above was taken from a publication of the Nova Scotia Department of Agriculture.

POULTRY BREEDERS

The Maritime R.O.P. poultry breeders held their annual summer meeting in Kentville, N.S. on August 28th. The group consisted of Maritime R.O.P. breeders, Provincial and Federal Dept. of Agriculture officials and representatives from the Experimental Farms.

Mr. G.R. Wilson, Chief of Production Services for the Canada Dept. of Agriculture, addressed the group. Mr. Wilson complimented the breeders for their excellent showing in the Random Sample Test which has just been completed at Ottawa. Mr. N. I. Clark of Berwich, N.S. placed second in the test, and Mr. Ralph Raynor of Mt Herbert, P.E.I. placed eighth.

The highlight of the meeting was the appointment of Provisional officers to set up an association of Maritime Hatcherymen. This association will also have representatives in the Canadian Hatchery Association.

Following the meeting the group inspected the poultry plant at the Kentville Research Station where a lot of poultry breeding work is being done.

MILK HANDLING

It is estimated about 70 percent of the daily milk deliveries in Edmonton, which total about 385,000 pounds, is now handled by the milk tank system. Also approximately 300 of the 471 milk shippers, who are licenced to produce milk for this market, have installed farm bulk tanks. Considering Alberta's Dairy Commissioner D.H. McCallum, these figures indicate that a very definite changeover in the method of milk handling has been taking place durin the last three years.

Under this system the milk is collected every second day by one of the 16 milk transportation tanks now hauling to the four Edmonton dairies. These tanks are owned by individual truckers with the exception of those hauling to the Northern Alberta Dairy Pool who own their own. About 75 per cent of the milk is produced within a radius of 20 miles from the city center and the farthest shipment travels 47 miles. The weighing and sampling for butterfat test is done on the farm by the trucker who is licenced as a milk grader by the Minister of Agriculture. Inspectors of the Dairy Branch make frequent checks on the weight of milk in these tanks.

In the bulk tank method which was not always the case when cans were used because often the cream would stick to the lids and shoulders of the cans, thus adversely affecting the butterfat test. Other advantages frequently mentioned by producers, haulers and distributers are greatly reduced labor, cheaper hauling and better quality milk.

It is anticipated, says Mr. McCallum, that by 1960 very few producers will be shipping milk in cans. Already one Edmonton plant receives only bulk milk and a large number of farmers are installing bulk tanks this year.

Adequate forage and feed are keys to success in livestock farming.

The average farm accident costs 10 days work less and $105 in medical expenses.

No natural water supply can be guaranteed safe without proper treatment. Periodic checks and tests should be made of any water supply, regardless of source.

Identify all dairy calves shortly after birth so you can keep production records when they enter the herd.

Protein producers such as beef, pork, milk, mutton, eggs, poultry, and plants in fields and pastures are our best bet for adding to profits from agriculture.

A good time to top dress alfalfa meadows is right after the first cutting.

Improper use of insecticides can be harmful. follow directions carefully.

CLUB NEWS

The Souris Yaks of Souris Line Road held its monthly meeting on August 14, 1959, at Souris Line Road South School. The meeting was called to order by the President, Gerald Clinton. The Local Leader, Father John Cash, was present. There were sixteen present. The meeting was called to order by the President Gerald Clinton, who led in deciting the 4H Pledge. The minutes of the previous meeting were adpoted as read. New business arising concerned Achievement Day. Father Cash pointed out the important points to follow when exhibiting calves.

A Judging Class will be held at Hugh McAulay's on August 19 at seven-thirty.

Father Cash told the members that a program for the fall months would be outlined at the next meeting. It was moved by Remegies Grant and seconded by Terry Clinton that the meeting be adjourned until September 11 at Souris Line Road South School. Gerald Clinton, president; Mary MacAulay, secretary.

Heatherdale 4-H Calf Club met at the home of Mr. Max Cooper, with nineteen members present. The minutes were read, approved and signed. Cyril MacPherson moved and Butch MacPherson, seconded that Glen Tattrie and Wayne MacPhee be on the program for next month.

J.D. MacPherson and John Matheson seconded that we have next meeting at the Heatherdale Hall. Glen Peardon, Gordon Pearson, John A. MacDonald, David Cooper, and Stirling MacPherson will show their yearling calves on Achievement Day which will be held at the home of Mr. Malcolm Matheson. It was decided the club buy bread and cookies to sell on Achievement Day.

The club had an auction sale and made $1.46 on it. The meeting was adjourned after which a delicious lunch was served. The next meeting will be held on September 18 at 7.30 p.m.

Achievement day is to be held on September 16. Margaret Matheson—Secretary.

New Perth 4-H Calf Club sixth meeting was called to order on July 26. There were fifteen members and one visitor present. The minutes were read and approved. It was moved by John Cain and seconded by Eleanor Moore that the 4-H Club make signs and erect them to mark the New Perth District.

A Judging Class was held August 14 and the next meeting August 28. Roll call was answered by members seeing who could bring the largest carrot to the meeting, and a prize of a package of gum was given to the winning member.

The Secretary was asked to write Mr. Dave MaLean to see if September 5th would be a suitable date for Achievement Day. Kenny Mellish.

UNFRIENDLY BEARS

YELLOWSTONE NATIONAL PARK (AP)—Forty-two persons have been clawed or bitten while attempting to feed the park bears this year, park ranger Jim Valder said Monday. Only one person was taken to hospital—a man who suffered a heart attack after a bear climbed onto his dinner table.

KENSINGTON

Mr. and Mrs. Wesley Crozier and family left for their home in Stoney Creek, Ontario, after spending a most enjoyable holiday with Mr. Crozier's family in Hamilton.

Mr. and Mrs. Glendon Crozier returned on Saturday to their home in Madawaska, Maine, after holidaying in Hamilton and Cavendish.

Mrs. Leslie Mountain accompanied by Allan and Betty, have returned to their home in Darnley after spending two weeks vacation in Montreal as the guests of Miss Roma and Georgie Anderson. Miss Violet Mountain of Montreal accompanied her mother home and will spend a couple of weeks in Darnley.

Mrs. Leslie G. Ramsay returned to her home in Indian River, after attending the funeral of her brother, the late Ulysses Cameron, who passed away in Hanley, B.C.

Miss Elizabeth Caseley has returned to her home after an enjoyable holiday spent with relatives in Chelton.

Mr. and Mrs. Don Bowness and family have returned to their home in Toronto, Ont., after visiting in this vicinity. They were the guests of Mr. and Mrs. Turner Glydon, Margate.

The sincere sympathy of a wide circle of relatives and friends is being extended to the family of the late Mr. Elliott Wright, who passed away in the P.E.I. Hospital on August 12.

The services at the United Baptist Church, Central Bedeque, on Sunday, August 16th, were of special interest. In the morning the annual Memorial Service was observed. Rev. Dr. C.A. Britten was in charge. Baskets of beautiful flowers decorated the Church in memory of those who had passed away. A duet: "The Lights of Home" was sung by Mrs. Howard Schurman and Mrs. Robert Waugh, and the choir sang an anthem: "One Sweetly Solemn Thought". After the service the congregation, led by men carrying white baskets of flowers, deacons, and choir, singing psalm 23, wended its way to the cemetery near by, where each grave was decorated with flowers. Prayer and the singing of a hymn closed the service.

In the evening a service under the auspices of the Mission Band, of whom Mrs. Wilbert Wright is president, was held when the guest speaker was Rev. Bruce Moore of North Sydney, N.S. The music was a mixed quartette, and a solo by J.B. Lewis. Mr. Alden Leard was organist. The theme for the occasion was "Christen Action in a pagan world". There was a large congregation. BQ
