

Says Commissioners Are Withholding Information

The suggestion that vital information was being withheld from the subject of the amalgamation of Parkdale was made last night by A. Walden, chief secretary of the Metropolitan Committee. Mr. Gaudet, on invitation was recalled at a meeting held at a meeting in Spring Park last night.

Mr. Gaudet said 50 copies of a letter from W. H. Gram of Montreal had been forwarded by the chief secretary of the Metropolitan Committee. The text of the letter is as follows:

Moncton, N. B. November 13, 1957

"Dear Mr. Gaudet: I would have liked very much to attend your meeting but was prevented from doing so for personal reasons. Because of my absence I have attempted to make the presentation to you as clear as possible. I have prepared three copies of a plan showing in color the 34 proposed and the entire program of the Metropolitan Commission. I have enclosed three copies of a schedule showing the approximate costs of the three proposed systems. One was the existing program. Another was the 1957 program (now proposed) and the other was the entire program which would be used in the Metropolitan report.

Mr. Crandall stated in his letter that he was enclosing fifty copies of a schedule showing the approximate costs of each proposed plan or system and the approximate costs of the Metropolitan Commission. Deputy Mayor A. Walden, Gaudet and Ben Rogers, both members of the Metropolitan Commission, and the Town Planning Department, Arsenal, and the Metropolitan Commission, were present.

The village commissioners were warmly commended by several of the speakers, including Mr. Storey and Mr. Gaudet, for the contribution they had made to the committee and the manner in which they were settling the question to their own people.

Mr. Gaudet said he could not say the same for the Parkdale Commission which was "misleading" their people.

"Thank God," he said, "we have eight of the Spring Park Commissioners" who have even though vision toward the future of the Metropolitan Commission in Parkdale" are being bluffed high side and hand" and he added.

Mr. Gaudet made special reference to the letter written by W. H. Crandall, Consulting Engineer, to the chairman of the Parkdale Village Commission.

enclosed fifty copies of a schedule showing the approximate costs of the three proposed systems. I believe that if the three proposals are fastened to the wall at the time of the meeting and the fifty copies distributed among the rate payers, the proper estimate of the three proposals would be made.

Without going into too much detail regarding the complexities of the proposals, the O'Leary and Spring Park programs, I would strongly recommend that three items be carefully discussed at the meeting. One is the cost of the proposals, the other is the Government and with one of our resident bond holders the exact amount which you can be assured of getting.

Amalgamation Problems Are Again Discussed At Meeting

In the second meeting in which many weeks on the subject of amalgamation of the City, people of Spring Park met last night in the hall of the Metropolitan Commission. The meeting was held at 7:30 p.m. in the hall of the Metropolitan Commission. The meeting was held at 7:30 p.m. in the hall of the Metropolitan Commission. The meeting was held at 7:30 p.m. in the hall of the Metropolitan Commission.

Mr. Crandall stated in his letter that he was enclosing fifty copies of a schedule showing the approximate costs of each proposed plan or system and the approximate costs of the Metropolitan Commission.
