

streets, viz: Pownall, Grand George and Prince Streets, with self-acting supplying fountains and fire plugs, cost \$2500 currency.

Respecting the right section of the town, the highest level, to which water of necessity be supplied by steam-power should the Spring turn out sufficient to the demands of the town, the Engine being placed at the fountain head; over the Engine house, and at an elevation of 35 feet, let the Engine be constructed to contain not less than 6 thousand gallons.

The Engine working ten hours per day would supply the town and leave the tank always full for night supply. By this arrangement the town being watered on the main, so that while the Engine was getting repaired, the water in the tank would keep up the pressure, till the supply, viz, six thousand gallons, was exhausted. In case of low service can be at all times supplied with the Engine, there need be no fear of the town being without water. In case of a fire, the whole power of the Engine could be thrown into the mains, which would give a pressure at the fire-plugs equal to the best of our fire engines. A good supply of water by pressure would lower the rate of insurance on property, and at the same time improve the sanitary condition of the town, which would in itself be a matter of great importance to the inhabitants.

I therefore consider that a supply of pure water would be the best mode of watering the community, and can only be accomplished through pipes, which would do away with the present pumps generally admitted to be a nuisance on our principal streets.

Under all these circumstances I have no hesitation in saying, that if a joint stock company or trust would be the better course of the City Council would take up this important measure, the number of families that would avoid themselves a supply of water from the mains, would be so small, that the expense of the closets of every respectable premises in the town, and that the water-rate would yield a fair and reasonable return, that the whole report would occupy too much of your valuable space, should the above be of any service, or tend in the slightest degree to facilitate so desirable an object, your attention of the same will much oblige, yours, &c.

ALEXANDER MACLELAND.

Temperance Hall, Charlottetown.
 At an adjourned Session of the Grand Division, Sons of Temperance of P. E. Island, held at this evening—the G. W. Patriarch presiding—the following Resolutions were adopted, and at the last previous meeting to examine and report upon certain allegations contained in an editorial article which appeared in the *Advertiser*, and which was of a most seriously affecting the character, standing and usefulness of two respected members of this Body, both of whom have, at different times, filled high official positions therein, one of whom is now employed as Travelling Agent and Lecturer of the Sons of Temperance in this Island and the other in similar position in Nova Scotia, Nova Scotia, was received and adopted; and thereupon it was unanimously

Resolved, That the statement put forth in the *Advertiser*, Newspaper, of the 10th inst., viz:—

"We admit and deplore that unwarrantable action has taken place, in endeavouring to procure the return of men opposed to this point, the prosecution of the liquor traffic, and that, too, in opposition of men who have constantly supported it, for party or personal interest, and that, in consequence of this, have been censured, and their conduct publicly repudiated by the Order; so that we think it unjust to continue in contact with the policy of the Temperance Body;"

—to be wholly gratuitous and totally devoid of truth—be entirely untrue, and be returned to, as the nature above indicated have been, and the knowledge of the Grand Division, and consequently the "admission" and "repudiation" of their conduct has been called for, and is necessary.

Resolved, That the Grand Secret. do cause a copy of the resolutions above published in every issue of the Newspapers as may see to give insertion.

By Order, P. DESBRIAY.

"The whole press of Philadelphia are out in favor of Hoffman's German Bitters, as they are prepared by the celebrated Dr. Wm. S. Wood, the great success of this valuable remedy for dyspepsia, as we believe it supplies a desideratum in the medical world, and that the imitators and counterfeiters have withdrawn their nostrums from the market, and the public are spared from the dangerous consequences in which they are usually the result."—*Herald*. See advertisement.

THE HAPPY RESULTS FROM THE USE OF DR. McLANE'S CELEBRATED LIVER PILLS.
 Are daily forcing themselves before the public. Objections will speak on their own behalf.

This is to certify that I was troubled with the Liver complaint for six months, and being advised by a friend to use Dr. McLANE'S Celebrated Liver Pills, I did so, and in a few days the disease had entirely disappeared. I therefore cheerfully recommend them to all afflicted with the above or any other disease arising from excess of bile.

Mrs. CANNON, No. 5 Clinton street, New York.

Dr. McLANE'S Celebrated Liver Pills, are now to be had at all respectable Drug Stores in this city.
