### A Message from The Minister of Agriculture

Prince Edward Island's agricultural progress in the past year, as depicted in this special edition of The Guardian-Patriot, is a story in which all people and all businesses can take great pride.

I am pleased that the past year has seen such growth and prosperity for Island farmers. It is the intention of the Department of Agriculture to use every means at its disposal to maintain and expand this major industry.

I congratulate the Publisher and staff of the Guardian-Patriot on their achievement in producing this annual review and forecast.
