FOR DRILL.—The Engineers will meet for drill this evening, in uniform.

GATHERING OF THE CLANS.—At the meeting of the Caledonian Club, held last evening, it was decided to hold the usual gathering, this year, on the Charlottetown Driving Park Grounds, on the 15th of August next.

ANOTHER CAVE-IN.—Yesterday evening the basin of the fountain on Queen Square was again filled with water. During the night, however, it caved in over the sewer near the eastern side where the clay had not been tightly packed, and the water fell several inches. When the damage was discovered this morning, the basin was allowed to run dry, and men were set to work to rebuild the portion which had fallen in.

THE WINDOW BREAKING CASE.—The Stipendiary Magistrate to-day enquired into the case of the policeman who, it was alleged, refused to arrest the young man charged by Watchman Merchant with breaking a pane of glass in the window of Prowse Bros. store on Saturday evening. The officers concerned and Mr. B. C. Prowse were examined. As a result of the enquiry, the Magistrate ascertained that (1) the watchman did not capture the stone-thrower, but charged a young man he met on the street with being the guilty person, which statement the young man denied; (2) the policeman refused to make the arrest desired without a warrant, as they had not seen the offence committed. In this case the Magistrate decided that no blame could be attached to the policemen. In this connection it is well for the public to understand that no officer of justice has a right to make an arrest unless he is armed with the proper warrant obtained on a sworn information, or himself sees the offence committed. In this case the proper course for the night watchman—who, we presume, is sworn in as a special constable—was to have arrested the man on the spot and called upon the officers to assist him in the capture and conveying of the man to the police station.

LETTERS TO THE EDITOR.

Netting Fish.

Sir,—With all due deference to Mr. McKay's knowledge of Wheately River, may I be permitted to state that having fished in the river, say twenty years, I ought to know of what I speak. I have been on the river several times this year, and no later than last week, when I had to come to the conclusion that it was useless now, as far as trout fishing is concerned. I might also say, with all modesty, that when I can't catch fish with fly or hook the fact that there is none in the river is as good as proved.

To go further: I imagine that those who induce people to visit our Island, with glowing descriptions of our splendid sea-trout fishing, are, to say the least of it, rather over-doing the thing, and should have some regard for the feelings of the poor angler, who after scouring our Island in vain for the magnificent trout of which he has read, has to give it up with blessings on the head of somebody. Another kind of fishing which I neglected to mention in the mackerel fishing in our splendid harbor. A finer sport can hardly be procured, and when you are lucky enough to catch a few of these fine fish you have, at any rate, something solid to show for your trouble. Last year one of our local fishermen tried to seine the harbor for mackerel. He caught nothing worth catching, but he effectually drove all the fish out and spoilt the summer's fishing of those amongst us, who like a run down to the Three Tides. This is not a square deal, and should in some way be prevented. We hope that it won't happen again this year.

Promising you, Mr. Editor, a sample of the best catch, I am,

Yours, &c.,

CREEL.

The Short Line Prospering.

MONTREAL, July 23.

A leading official of the Canadian Pacific Railway, speaking of the outlook for the new Short Line, said to-day that so far the passenger business had been all that could be desired, and that the outlook was most encouraging. Legitimate appeals to the American Minister to meet Hippolyte and endeavor to arrange some basis upon which a conflict might be stopped, but whether the Minister has taken any steps is not stated.
