MARY HAWORTH

Emotional Depression Features Retrospection

Dear Mary Haworth: At last I have the courage to write. I have tried often and failed; this time I will be brief.

Almost beyond describing is the loneliness and heartache I suffer. For the past 15 years my life has been on the reefs.

I was divorced from my husband and left my daughter in his sister's care. She (my daughter) came to see me once when I was unconscious, longing to die. From that I recovered; then a later sustained a broken shoulder, hip, nose, ribs and fingers.

I haven't seen my daughter in years. She has married but I don't know her name or whether she has children.

Without the slightest thought of chasing men, but only to improve my present and to help my daughter, I decided to study law at a local university after six months.

I received my law degree and my marriage certificate within a year of each other. That was 25 years ago. I am now 50 years old and seeking a mate are practically unlimited. I should think Nothing ventured, nothing gained.

Dear Mary Haworth: My husband and I have applied to adopt a baby girl. We are an army family; far from our home backgrounds. How do I see one of my friends and relatives know about the new baby?

Do we write them in advance of the adoption? Or wait until we have the baby, then explain? Or should we just tell them we have a baby girl and give no explanation? (P.S.: We have a son of our own who soon will be five years old.) G.F.

Dear G.F.: When you have the baby send out conventional birth announcement cards (available at stationery stores), giving the relevant information in your own handwriting, in the spaces provided.

For the honeymoon trip to P.E.I. the bride wore a white suit with a pink hat and black patent shoes and handbag.

During the honeymoon a community shower was given for the newlyweds at the home of her aunt and uncle, Mr. and Mrs. John W. MacPherson of Bellevue.

The newlyweds will reside in Hamilton, Ont.

ELEEN'S DIARY

Nights Drop Slowly In The Early Summer

Now in early summer, the nights come dropping soft, give farm-folks long lovely evenings. Perhaps in this second breath of the day, to enjoy a spell of gardening, or to the hobby, or to ride the time more or less away.

There was a time at Alderley when through this season the pair of eyes and their three members of the family, each in his own fed, calves in a row at the paddock fence with the evening commencing to grow hazy about a frog in the pond, or up the stream, would stum stum
