Hyacinths for Glass Culture

No use to use small Bulbs for Glass Culture. You lose your time and trouble. Get the best colors. Cheap, poor Bulbs for house culture are a delusion and a fraud. Most of the so called bargains in Bulbs are of this kind. They are "culls" small Bulbs of weak vitality, and poor color. Their only merit is cheapness and they are really "dear at a gift". Buy our large named Hyacinths, they are the finest grown in Holland.

MAILS IN THE YUKON.

Reorganization of the Service.

OTTAWA, Oct. 24.—Hon. Mr. Mulock is arranging for a thorough reorganization of the Yukon mail service. Arrangements are almost perfected with a contractor for a fortnightly service, which with the present fortnightly service will give a weekly mail to and from Dawson.

A. E. James, a Manitoba railway clerk, has been stationed at Skagway and will sort mails there so that the mining communities along the route may get their letters promptly. Both Post Master Hermann and James are authorized to send extra mails when the circumstances require.

Neither Sifton's department, nor the mounted police hereafter will have anything to do with the mail service.

The proclamation ends by urging all Cubans to resist the landing of American troops by force.

MARCHAND'S REPORT.

Paris Merchants Want a Peaceful Settlement.

PARIS, Oct. 22.—Captain Baratier, the special messenger conveying despatches from Major Marchand, the leader of the French expedition at Fashoda, has arrived at Cairo, from which place he has telegraphed a summary of his despatches to the Government.

The report was received during the course of the night. It does not mention the arrival at Fashoda of General Kitchener and only gives an account of the incidents of the expedition, with an elaborate description of the route followed, the points occupied, the manner of occupation, the raising of the flag, the force left at each point and the treaties of submission concluded with the tribes, in addition to referring to an encounter with the Dervishes. The report only goes as far as the beginning of September and says that on August 20th the supplies of the party were abundant.

The reason for the omission of any mention of the arrival of General Kitchener at Fashoda is said to be the fact that the report of Major Marchand was not ready when Captain Baratier left Fashoda. When the Captain started from that place he did not think he would go beyond Khartoum. Major Marchand, however, deemed it advisable to send the finished portion of the report, intending to despatch the remainder of it as soon as Captain Baratier returned. But the Captain on arriving at Omduram, found there instructions telling him to go on to Cairo from which place he will proceed to France.

It is believed in certain quarters that Captain Baratier is the bearer of a verbal report which the French authorities were not willing to trust upon the British telegraph lines.

Captain Baratier, on his arrival at Cairo, said the mission had not lost an officer or a soldier. He added that the health of all the members of the party was very good and that revictualing on the march was easy.

The drift of opinion on the Fashoda question among commercial men in Paris, was shown by a resolution adopted on Thursday afternoon by the Municipal Council of this city, urging the French Government without sacrificing the material interests of the country, to use its utmost efforts to avert a conflict with Great Britain over this dispute.

WHITES AND NEGROES

Fierce Fighting in the States.

LOSS OF LIFE ON BOTH SIDES.

NEW ORLEANS, La., Oct. 23.—The Picayune's Vicksburg special says: "Telegrams report a wild state of affairs at Hermandville, on the line of the Alabama and Vicksburg railway, in Scott county. Last night a negro beat most unmercifully an old white man. Later a deputy sheriff and two others went to the negro's house with a warrant to arrest him. When the officers neared the house they found it surrounded by some fifty negroes, all armed, and were fired upon. Mr. Potter, a well known citizen, was killed and the other two are thought to be mortally wounded. As soon as the news reached Hermandville the men hastily armed themselves and went to the scene of the riot, then the fight opened in reality and lasted the greater part of the night. At daylight this morning it was found that nine negroes had been killed and four captured who were slightly wounded."

MEMPHIS, Tenn., Oct. 23.—The Commercial Appeal has a bulletin from Jackson, Miss., stating that a sheriff's posse of one hundred men is scouring the country near Forest, Miss., for a mob of negroes who killed a white officer. Several negroes are reported killed, and the pursuit continues. Gov. McLaurin has gone to the scene of the trouble.

WILMINGTON, N. C., Oct. 23.—The four negroes who shot the three white guards have been captured near Ashpole. They were run down and brought to by the blood hounds. It is uncertain yet what the fate of the negroes may be, but it is feared that their cowardly attempt to assassinate the guards will so exasperate the whites as to cause further and more serious trouble.

MEMPHIS, Tenn., Oct. 23.—A special to the Commercial Appeal from Forest, Mass., says: "As a result of an attempt to arrest a negro near Harpersville, Scott county, in the eastern part of the state, one white deputy was killed, three wounded, and according to the latest reports, nine negroes have been killed by the citizens of Harpersville and the neighborhood and sheriff's posse combined. The pursuit of about fifty negroes who have joined the original offender with the avowed determination to prevent his arrest and capture, and which ambushed the party attempting the arrest, continues and by morning the number of fatalities will undoubtedly have assumed larger proportion. The whole country is aroused and the sheriff's posse has been reinforced with men from all the neighboring towns. Gov. McLaurin has gone to the scene, which is about ten miles North of Forest, the nearest railroad point."

Price of Fish.

LUNenburg, Oct. 24.—The advance in the price of fish has given a great impetus to the fishing industry in this county, which has been lagging of late years, in consequence of which every shipyard in the county will be employed, which to say the least looks encouraging.

NEWS NOTES.

The withdrawals from the post office savings bank last month exceeded the deposits by \$87,000.

The latest returns regarding the prohibition plebiscite indicate a majority of about 14,000.

The steamer Roanoke came from the Yukon a few days ago with \$2,000,000 on board.

Complete returns of the prohibition plebiscite for every constituency in Ontario show a total of 269,776 votes cast; 153,503 for and 115,273 against; majority for prohibition 39,230.

Major-General Hutton has shown his interest in the Yukon Contingent by sending to them a number of presents in the way of boxing gloves, clubs, dumb bells, and a quantity of medical comforts. They are not likely to reach their destination before Christmas.

The National Prohibition deputation to the Dominion Government is likely to wait on the Premier and his colleagues at Ottawa on November 1st or 2nd. The deputation will be representative and influential, and will emphasize the importance of the majority of over one hundred thousand votes for prohibition in the English-speaking provinces. The Government will be asked by the deputation from Quebec to appoint a commission to investigate the charges of election frauds in that province.

THE FRENCH WILL EVACUATE.

Will Probably be a Peaceful Solution.

DECISION SAID TO BE ALREADY TAKEN.

By the French Government—M. Delcasse Working for Peace.

[SPECIAL TO THE EXAMINER.]

LONDON, Oct. 25.—The Paris correspondent of the Chronicle claims to have authority to say that a decision has already been taken by the French Government to speedily evacuate Fashoda, and that M. Delcasse will do his utmost to facilitate a peaceful solution of the question.

LONDON, Oct. 25.—The Fashoda yellow book, issued by the French Government, having left some slight misgivings in this country as to Lord Salisbury's firmness in dealing with the French Ambassador, a speedy dissipation of these fears followed the publication of yesterday's blue book.

It is specially welcomed by the London papers, which express satisfaction—particularly at the view of the Egyptian Regent which is held to nullify entirely the French idea that England lacks approval of the Egyptian Government.

A Railroad Manager Says:

"In reply to your question do my children objection to taking Scott's Emulsion, I say No! on the contrary, they are fond of it and it keeps them pictures of health."

Britain and the States.

WASHINGTON, D. C., Oct. 21.—The House of Deputies of the Protestant Episcopal Council, after passing a resolution congratulating the Czar of Russia upon his recent peace message, adopted this resolution: "Resolved, that this general convention of the Protestant Episcopal Church of the United States of America place on record its sense of deep gratification at the many manifestations of friendliness to our nation which have been so freely and cordially shown by the Government and Empire of Great Britain in the late war with Spain, and express sincere hope that the time may speedily arrive when these two great nations of the Anglo Saxon family, the United States and the British Empire, shall stand together in defence of the rights and liberties of mankind and for the promoting of Christian civilization among the nations of the earth."

A Blast from the Bagpipes.

When Havelock's men had fought their way into Lucknow, the Highlanders' piper, who lost his way, suddenly found one of the enemy's calvary, sabre in hand, about to cut him down; his rifle had been fired off, and he had no time to use his bayonet. "A bright idea," said he afterwards, when he related the story, "struck me; all at once I seized my pipe, put it to my mouth, and gave forth a shrill tone, which so startled the fellow that he bolted like a shot, evidently imagining it was some infernal machine. My pipe saved my life."
