

## Automobile Injuries Called Canadian Health Problem

MONTREAL (CP) — A panel of doctors has described injuries resulting from automobile accidents as "by far the most important health problem in Canada."

Dr. Kenneth Wilson, associate professor of clinical surgery at the University of Ottawa, said traffic injuries are "the No. 1 cause of death among Canadians between 18 and 55 years of age."

Dr. Wilson said the number of fatal and non-fatal injuries has been rising at a rate of 11 per cent every year for the last six years.

This was ahead of the rate of increase in population, in the number of vehicles on the roads and in the millions of miles travelled.

The doctor was one of a group of specialists who discussed traffic injuries during the annual meeting of the Royal College of Physicians and Surgeons of Canada.

The estimated cost of traffic accidents in 1964, all factors considered, was "in excess of \$4,000,000,000," said Dr. Wilson, who also heads the Traffic Injury Research Foundation of Canada.

In 1965, 4,800 Canadians were killed in auto accidents and 149,500 were injured.

## Imperial Oil Earnings Up

TORONTO (CP) — Imperial Oil Ltd. said here net earnings for 1965 totalled \$86,000,000 or \$2.71 a share, up nine per cent from the \$79,000,000 or \$2.50 earned in 1964.

Petroleum and chemical products sales for 1965 were up seven per cent to 366,000 barrels a day, and net production of crude-oil and natural gas liquids totalled 115,000 barrels a day, a slight increase over 1964.

## Coal Production And Imports Up

OTTAWA (CP) — Coal production in Canada reached 11,571,722 tons last year, highest since 1958, but imports increased to 16,069,635 tons, their highest level since 1957.

A report by the Dominion Bureau of Statistics said production was 2.2 per cent higher than the 1964 output of 11,319,323 tons but imports showed a nine-per-cent rise from 14,744,525 tons.

For December, production was 1,139,019 tons, down from 1,243,223 in the same month of 1964. Imports were 684,560 tons compared to 605,169 a year earlier.
