DOES THE EMPLOYMENT OF LABOR
BENEFIT A COMMUNITY?
OF COURSE IT DOES.

D. A. Bruce employs more people manufacturing custom and readymade clothing than all the staff of the largest dry goods house in the province (possibly twice as many). He is prepared to give employment to three times the number if a more liberal patronage is extended in the purchase of home made clothing. He is confident he gives better value than any importing clothier, who merely acts as a middle man between the foreign manufacturer and local consumer, taking his money and sending it abroad to pay for foreign labor. The product of the local manufacturer would have preference—it's the best.

A Song of Ecstasy.
In The Century there is a paper on the "Songs of American Birds," by John Burroughs. Mr. Burroughs says:
A very interesting feature of our bird songs is the wing song or song of ecstasy. It is not the gift of many of our birds. Indeed, less than a dozen species are known to me as ever singing on the wing. It seems to spring from more intense excitement and self abandonment than the ordinary song delivered from the perch. When the bird's joy reaches the point of rapture, it is literally carried off its feet, and up it goes into the air, pouring out its song as a rocket pours its sparks. The skylark and the bobolink habitually do this, but a few others of our birds do it only on occasions. Last summer, up in the Catskills, I added another name to my list of ecstatic singers—that of the vesper sparrow. Several times I heard a new song in the air, and caught a glimpse of the bird as it dropped back to the earth. My attention would be attracted by a succession of hurried, chirping notes, followed by a brief burst of song, then by the vanishing form of the bird. One day I was lucky enough to see the bird as it was rising to its climax in the air and identified it as the vesper sparrow. The burst of song that crowned the upward flight of 75 or 100 feet was brief, but it was brilliant and striking and entirely unlike the leisurely chant of the bird while upon the ground. It suggested a lark, but was less buzzing or humming. The preliminary chirping notes, uttered faster and faster as the bird mounted in the air, were like the trail of sparks which a rocket emits before its grand burst of color at the top of its flight.

The Coming of Baby.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinging touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favorite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates.

THE RED FLAG

Sometimes a red flag means anarchy, sometimes an auction. It is usually a sign of excitement of one kind or another. What I am doing in my store seems to have stirred up as much commotion as if I had hung out a red flag, but it is only the bargains inside. My competitors don't like it a bit. No wonder; look at these prices—

The Heintzman & Co., Piano

It is guaranteed longer than any other piano on the market.

Why So?

Because the new patent agraffe, cast in the frame of the Piano, makes it stay longer in tune than any other. Because the old fashioned pressure bar on the string, secured by wood, screws into wood only.

It's done away with in the new Heintzman Piano. Because quality is not sacrificed to price. Call in and see the latest styles—
