

THIS IS THE ACID TEST, OR THE CADRE'S OWN MINI TEACHER EVALUATION. Read these instructions carefully before proceeding.

a.) On the left hand side of their name you will notice two columns. Check the first column (farthest left) if you've taken a course from the professor listed. Check the second column if you are taking a course from him presently.

b.) You will notice that on the right hand side of the name there are five columns, the first three of which are named Good, O.K., Bad respectively. Check the column which most represents your assessment of the listed professors teaching ability and effectiveness. Do this for all the professors whether or not you've had a course from them. If you are unsure or don't know the professor leave the column blank. In the fourth column on the right (the large one) rate their contribution, as a whole, to the university community on a scale 9,000 to 34,500 points. The higher the contribution, the higher the points. DO NOT READ ANY PART OF THIS PAPER BEFORE COMPLETING THIS TEST.

AFTER YOU FINISH YOUR EXAM, TURN TO PAGE 6 AND SEE HOW YOUR ANSWERS FOR CONTRIBUTION COMPARE WITH THE EXPERTS WE PREPOLLED
