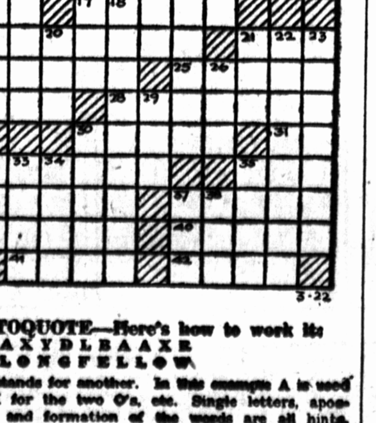
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:
AXYDLBAAXR
is LONGFELLOW

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

Develops Revolutionary Smokeless Stoker Furnace

SYDNEY (CP) —Dominion Coal Company officials Monday proudly unveiled the coal industry's reply to oil— a revolutionary smokeless, ashless stoker furnace.

Harold C. M. Gordon, vice-president and general manager, said the company hopes that by promoting the furnace it can consolidate the present coal market and make gains from oil and other domestic fuels.

Competition has reduced domestic coal sales in the Maritimes by an estimated 500,000 tons annually.

Loss of home and other markets, principally the CNR which has switched largely to diesel engines, has been causing increasing unemployment in Nova Scotia's coal fields, most of which are operated by Dosco or its subsidiaries.

COAL SHOVEL OUTDATED

Dosco claims the new furance will make the coal shovel as out of date as the button hook, and will all but eliminate the removal of ashes.

The hot-air unit, about the size of a pre-war washing machine, sits beside the coal bin and feeds itself. Much ash is eliminated by efficient combustion, and that which remains sifts slowly out the side into a cannister which the company claims can be emptied as infrequently as once a month.

Mr. Gordon said first units on the market will be for homes requiring a radiation surface of not more than 500 square feet. Later a larger one for houses with more than 800 square feet will be produced.

MADE BY SUBSIDIARY

They will be manufactured at Trenton Steel Works, a Dosco subsidiary.

Mr. Gordon did not state the cost, but it is believed to compare with other types of heating.

The model for the Dosco furnace was built by Bituminous Coal Research Incorporated in the United States.

The furnace is expected to be in production in plenty of time for next winter. Demonstrator units will be sent about the Maritimes within a few months.

Still Runs Own Business At 102

SANTA BARBARA, Calif — (AP)— Retire at the age of 65? "Why?" demands Capt. George C. Mcguire, who is 102 years old and still runs his business.

His company catches sea lions and ships them to zoos and circuses all over the world.

However, the captain disclosed Monday, he just supervises the business now.

New Issue of Dollar Bonds

TORONTO (CP)—A new issue of $15,000,000, 3¼- per- cent 10-year Canadian-dollar bonds of 1955 of the International Bank for Reconstruction and Development is being offered to the public by a syndicate of investment dealers and banks.

Offering price is 99 to yield about 3.37 per cent and maturity date is April 1, 1965.

The syndicate is headed by Wood, Gundy and Co. Ltd., Dominion Securities Corporation Ltd. and A. E. Ames and Co. Ltd.

A sinking fund will be established in 1958 to retire $3,500,000 principal amount prior to maturity. The bank may also redeem all or part of the remaining bonds prior to maturity at premiums ranging up to two per cent of the principal amount.

Proceeds will help reconstruction and development of member countries by facilitating investment for productive purposes. All loans made in a country are guaranteed by the member government concerned.

Previous public offerings by the bank were made in Canada in 1952 and 1954.

At Dec. 31 the bank had commitments of more than $2,000,000,000 in 33 member countries.

Also at Dec. 31 the bank had accumulated $109,100,000 in net earnings. An additional $55,600,000 had been accumulated from a statutory commission of one per cent on loans.

Fifty-six countries are members, including Canada, Britain and the United States.

Propose Giving Desert To Jordan

LONDON, (AP) — The foreign office was cool Monday to an Egyptian proposal the Negev desert be taken from Israel and given to Jordan.

The idea was outlined at a Cairo press conference Sunday by Major Salah Salem, minister of national guidance, with indications this would clear the way for Egyptian defence co-operation with other Arab states and the west.

A foreign office spokesman told reporters Britain has been aware of the Egyptian idea for some time but he refused official comment on it. He did say Britain stands by the American-British-French declaration of 1950 which guaranteed observance—and protection — of existing Middle Eastern frontiers.
