

Government Institutions Endorse Japanese Catarrh Cure as the Only Permanent Cure for Catarrh.

CURED EVERY CASE WHERE THE REMEDY WAS TRIED.

Catarrh is one of the diseases which should not be experimented with, every day's neglect allows it to spread deeper and deeper until loss of taste, smell and hearing are the inevitable result, then finally consumption sets in for which there is no cure. Thousands who have suffered for years from catarrh procured Japanese Catarrh Cure the only permanent cure. It will cure you.

Mr. A. E. Wilson, Principal, Government Indian Home, Elkhorn, Manitoba, writes: "Some time ago we purchased three boxes of Japanese Catarrh Cure, and must say it gave wonderful results in every case tried. It certainly is an article of unequalled merit."

Japanese Catarrh Cure is not a powder, it is pleasant, healing, penetrating, volatile pomade. It is easy to use, requires no instrument of any kind, it reaches every catarrhal diseased portion of the mucous membrane, and permanently cures catarrh, wherever located. Sample box free. Enclose 5 cent stamp. Address, The Griffiths & Macpherson Co., Limited, 121 Church St., Toronto. Sold by all druggists, 50 cents.

THOSE WHO GOVERN CANADA.

How the Government Makes Good Citizens.

If the question were to be asked How is Canada governed? certainly it would not be hard to find one who would answer that Canada is governed by the people of Canada, through their representatives.

Upon a general survey of the question and answer this answer would appear to be correct, especially when we remember that this is the fundamental principle of Responsible Government, and we all know that Canada enjoys the benefit of such government.

But let us view it closer and we shall see that there are vast, varied and potent forces which tend to destroy and do destroy and defeat the very object and end that responsible Government is intended to serve.

There are those who may think lightly of the fact that it is possible to undermine the principle upon which a country is governed, but among those are not likely to be found men who have achieved success in any particular line of business or in any profession. There are great numbers who may be not inaptly termed the non-thinking and illiterate part of the population. Those people do not take the trouble to think about the government of their country and as to their reading it, is very likely to be confined to a cheap novel, if indeed they read at all. It is this latter stamp of people and the natural attributes and tendencies that usually associate themselves with such types of humanity that are tending to destroy all good government and that invite the agencies of unscrupulous candidates. They do not take the trouble to think for themselves, and as a natural result it is they who first become the victims of those men and agencies that are threatening to make a mere mockery of a Canadian election.

As is too well known, the intelligent part of the electors of Canada are divided into two great parties, Liberals and Conservatives. The people who compose each of these parties can usually give some reason why they vote the way they do,—that is they have some motive for being Liberal or Conservative. It would be well for Canada if it contained only such electors. But, unfortunately there is what may be termed a third party,—and it is this third party that governs Canada.

To state the case, we may suppose that all those who study the conduct of a government while in office have cast their votes. Part of those are Liberal and part Conservative. Then we come to consider the remainder of the electorate, the electors of which only differ in the degree and kind of ignorance they display, who do not know nor care to know how a country is governed or what good or bad government really means, who would willingly accept one or two dollars—perhaps a little more, and possibly less, as sufficient reason why they should vote for a certain candidate and if offered three or four more would reason thus: "Well this is more than the other party offered and I should support such a man for this reason." How often do we hear with shame and humiliation, a man say: "I have supported this party for so many years and they never did anything for me; I always voted for them and they gave me nothing."

Oh! that we are obliged to share the privileges of the human race with a man so mean and so contemptible. Then we have those miserable creatures, who say to one that they are Liberal and to another that they are Conservative and go to the poll deprived of the little reason that they usually had by the liquor very often of both parties. I believe, I may say without fear of contradiction, that there is no district, section of country or town but contains more or less of those people,—perhaps not so deplorable as the last mentioned but using very little judgment in the registration of their opinion on polling day. If we group up all those whom we may describe as non-thinking people and place them at one-third of the population, I am quite sure we will not overstate their number. If we now place this third with either the intelligent Liberal or Conservative part of the population whom we have supposed voted, is it not manifest that the party which secures this third stands a very good chance of winning an election and it is practically this third that rules.

This third party, the votes of which are secured by the person who bids highest for them, being vested with the power and privilege of guiding the destinies of Canada! And this power given to such a class under the name of freedom and liberty; I do not hesitate for a moment to say that the giving of such power to such people is the grossest abuse of freedom. It is the handing over of the government to whoever can pay the highest price for votes. It is easily seen that those who control the public treasury are in the best position to bid high for a vote when there can be found men (willing to enter parliament) so vile and so lacking in those elements and qualities that go to make up what we understand by a man, that they will take the public money out of the public treasury and then with the money of the people buy the people's will!

I thoroughly believe that party government of whatever form or under whatever name it may be, is more or less prone to this evil of making use of public means to further private ends. But I have not known, nor heard tell of such unscrupulous means, such devices and such a flow of cash itself as was exhibited at the election just held in Canada.

We hear a great deal about public morality, the necessity of the youth of Canada being taught to form high ideals of life; and the Government, wisely enough, places books in the schools filled up with the best of instruction, more or less of which is imbibed by the young Canadian people during their school life, which in most cases, ends at sixteen or eighteen. But as soon as these people reach the age of twenty-one the government or members thereof have paid agents to bribe and buy the will of those people whom they sent out books and teachers to teach to be good citizens. Not only this, but before those young people have reached the age at which they become of value at an election, they have, during their earlier life, seen their fathers and elders selling their votes to those who give them most. Does the government suppose that they will make good citizens in this way? Very little of this unscrupulous debauchery in the homes of children will counteract and overbalance all the good derived from the printed ideals in their books and the efforts of their teachers. If this conduct on the part of a government and government members is calculated to produce good citizens it is strange indeed, for it is diametrically opposed to what anyone would consider as public morality in a public official.

WHEN YOU are feeling tired and out of sorts you will find Hood's Sarsaparilla will do you wonderful good. Be sure to GET HOOD'S

Local and Other Items

—A large shipment of Haszara's Brahmia Tea has just arrived direct from the plantations.

—There will be a football match on the C. A. A. grounds on Saturday, St. Dunstan's vs. Prince of Wales College. Admission 15 cents.

—The Provincial Legislature has been dissolved. Wednesday, Dec. 12th will be election day. Nomination Day will be Wednesday, December 5th.

—In compliance with a resolution passed by the City Council a subscription list has been opened at the City Clerk's office for the Monument Fund. P. S. Brown, \$5.00.

—Any person wishing to buy a pair of heavy horses, belonging to the City of Charlottetown can get full particulars by applying at the City Clerk's office.

—The Tupper Club is ready to fight again; because its members do not approve of the acts of the present Administration, and they do not wish it to be supposed that they do.

—Alexander McLaren, aged 74 years, formerly of P. E. Island, died at East Boston, on Nov. 1st. Ang's Mc Masters, also of this province, died at the same place on the 4th Nov.

—The November Prince Edward Island Magazine, unavoidably delayed this month, will be out tomorrow. It's a grand number, we think the best perhaps this year. You can get it at the bookstores tomorrow.

—The Cheese Board will hold its last meeting for the season on Friday, 16th inst., at their rooms, Provincial Building, at half-past one o'clock. The Directors of the Dairy Association will meet in the same room at a quarter to twelve in the forenoon.

—The Liberals at Marysville, the home of Mr. Gibson, M. P. elect, burned the defeated Conservative candidate, Rev. Jos. McLeod, in effigy. Mr. McLeod's only offence is that without rum or money he came within less than one hundred votes of defeating the son of the great lumber king, with all the influences that he could bring to bear.

—Mrs. Edward Compton, a well known resident of St. Eleanor's, died quite suddenly at that place yesterday. According to the Summerside correspondent of the Guardian, she was in her usual health until Sunday when she suffered a slight weak turn from which she had apparently quite recovered when she was suddenly seized with the attack which caused her death within a few moments.

—At a meeting of the executive of the Y. M. C. A. held last night it was decided to postpone the sale of the building. A telegram was received from the maritime committee stating that Mr. Robb could remain a month and a future engagement would be for Mr. Robb to decide. It is hoped that Mr. Robb, who left this morning for his home in Halifax, will consent to take the secretaryship of the Charlottetown Association.

—At the Caledonian Club room, on Thursday evening, an address and medal will be presented to Rev. T. F. Fullerton. An address and a valuable meerschaum pipe will at the same meeting be presented to Lieut. Macdonald. The medal to be given Rev. T. F. Fullerton is of gold and contains the St. George's Cross with the words "South Africa" surmounting it. Both presentations are being made on behalf of the Caledonian Club.

A grain of sand in the eye can cause excruciating agony. A grain of pepper in place of the grain of sand intensifies the torment. The pain is not confined to the organs affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There are fretfulness, irritability, sullenness, and depression of spirits. The general health of women depends on the local health of the organs peculiarly feminine. Remove the drains, ulcerations, bearing down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine and other narcotics, poisons which enter into many other preparations for woman's use. It makes women strong and sick women well.

Have you got one of those souvenir's booklet form with khaki cover, of the return home of our South African heroes? If not you should get one now. Price ten cents at all the bookstores.

There is going to be a bazaar—a big one—a good one—in the Market Hall, before Christmas.

FUR JACKETS FREE

WE have not advertised Fur Jackets very extensively of late. No need to. The other fellows are doing it for us. No doubt you have noticed all the big ads they are writing just to convince the public that they can buy the (isn't it?) same class of Furs that we do. Quite a compliment for us. They perhaps we should not be too hard on them. If we had the reputation for selling high class Furs which we have perhaps we would be tempted to do likewise.

But the fact still remains (and this is the weak point in all their arguments) that

NOT ONE OF THEM

Can buy a single Bocharan or Astraeken Jacket from James Coristine. As we never make assertions which we cannot prove we made the following unprecedented offer:

If any other firm in the city can show you an Astraeken or Bocharan Jacket bought this season by themselves from James Coristine & Co., Montreal, we will make you a present of the best fur jacket in the store. As the weeks go by we will tell you how many Fur Jackets we have given away.

Itching, Bleeding Piles

Mr. W. G. Phyll, proprietor Bodega Hotel, 36 Wellington Street East, Toronto, says: "While living in Chicago I was in a terrible state with itching and bleeding piles. I tried several of the best physicians and was bled and tortured in various ways by their treatments to no avail, besides spending a mint of money to no purpose. Since coming to Toronto I learned of Dr. Chase's Ointment, I used but one box and have not been troubled with piles in any shape or form since."
