

Dear Student:

You may or may not be aware of the delay that occurred at last Sunday night's movie. The half hour delay was the doings of some delinquent who felt that it was necessary to sever a number of wires leading to the sound system in the Duffy Amphitheater. Fortunately, a repair man rectified the situation, thus enabling the film society to show the movie. Undoubtedly the act was premeditated.

This matter was not taken lightly by the administration nor the Student Union. A joint meeting was held. The following suggestions were considered in an attempt to alleviate the ever increasing vandalism in the Amphitheater:

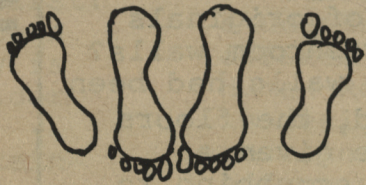

1. Terminate the movies indefinitely.
2. Lock Duffy Amphitheater immediately following academic hours.
3. Continue under present system.

We felt that the first or second proposals would resolve the problem, but would not be effective in punishing the delinquent(s). As a result, the third proposal was once again accepted, in hoping that a more subtle approach would achieve the same results.

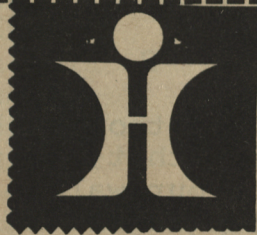

If anybody has any information concerning the above incident, we appeal to you to discuss it with any of the Student Council Executive. If no results are obtained, and such incidents occur in the future drastic measures will have to be taken. I am hoping that this will not be necessary.

Yours truly,
Pat Duffy
