## TELEGRAPHIC NEWS.

OTTAWA, June 26.

Mr. A. L. Blackman is in town on business  
with Sir Charles Tupper in connection  
with a scheme by which it is proposed to  
lessen the distance of ocean travel from  
Europe to America by at least two days  
travel. The proposition is to build a line  
of railway to Holyhead, Wales Crossing,  
the Menai Strait, to be connected by spe-  
cially constructed steamer, with an air line  
across Ireland from this terminus to St.  
John's Newfoundland. The distance is  
1,640 miles from St. John's to Cape Ray, a  
distance of 220 miles, a line is to be con-  
structed for which the Newfoundland Gov-  
ernment have granted a land subsidy of  
3,000 acres per mile and an exclusive right  
for 40 years. From Cape Ray, Newfound-  
land, to Cape North, C. B., the distance is  
50 miles, which is to be traversed by a  
large steamer, harborage for which  
will be constructed artificially at the  
most advantageous point in regard  
to the drift ice of the Gulf of  
St. Lawrence. From Cape North it is pro-  
posed to construct a line of railway to  
traverse the entire length of Cape Breton  
Island to the Strait of Canso, a distance  
of about 120 miles, the subsidy for the con-  
struction of which is 2,000 acres and \$3,200  
per mile. From Canso, the eastern exten-  
sion of the Intercolonial Railway is to be  
used to New Glasgow, from whence to Ox-  
ford, N. S., a railway of eighty miles is  
now in course of construction. Location  
surveys on the line from Cape North to  
Canso, N. S., are expected to be proce-  
ded with early in the spring, and as the  
necessary charters have been secured from  
the different Governments, it is the  
intention of the Company to proceed as  
quickly as possible with the work of con-  
struction.

ALEXANDRIA, June 28.

There were symptoms of a rising here  
yesterday, detailed particularly against the  
English. The soldiers cleared the square  
and the guards have been doubled.

LONDON, June 28.

It is stated that a regiment of heavy  
dragons and four battalions of infantry,  
have been warned to be prepared to go to  
the Mediterranean.

CONSTANTINOPLE, June 28.  
Up to the present time the ambassadors  
have communicated nothing of the pro-  
ceedings of the Conference.

LONDON, June 28.

The Irish members of Parliament en-  
tertained Mr. Parnell at a banquet this evening.  
Justin McCarthy presided. Mr.  
Parnell was toasted, and a speech was  
made in his honor.

LONDON, June 28.

The Times' Alexandria correspondent  
says the proposed departure of Sikiwinez  
and Sir Edward Malet has caused a revival  
of the panic. Distress among the natives  
is increasing. The Times' Paris correspon-  
dent says England is now the only power  
resolutely opposed to an arrangement with  
Arabi Pasha. There are now thirty-two  
men-of-war in Alexandria harbor, and four  
more are expected. The sitting of the  
Conference on Tuesday lasted two hours.  
The Conference again resolved to maintain  
secrecy.

LONDON, June 28.

The British Consul at Coruna, Spain,  
while fishing near Bayona, hooked a large  
fish. In his attempts to haul in he was  
dragged into the water sixteen feet deep.  
He was carried under four times, and after  
struggling for half an hour he succeeded in  
reaching land.

NEW YORK, June 28.

A despatch from Constantinople last night  
announces the issue of a new circular by  
the Porte to the powers, renewing the  
arguments used to justify its refusal to  
admit the utility or necessity of a con-  
ference on Egyptian affairs. The arguments  
are emphasized by two despatches from  
Dervish Pasha, one reporting the reception  
of a deputation representing the army to  
present an expression of absolute sub-  
mission to the will and orders of the Sultan  
and the Khedive; the other announces the  
decision of the Council of Ministers to grant  
amnesty to all who were implicated in the re-  
cent events except those who were respon-  
sible for the riots in Alexandria. As another  
result of their deliberations it was resolved  
to allow no functionary to hold official com-  
munications by correspondence with the  
representatives of foreign powers in Egypt,  
who shall consult the Council upon urgent  
questions it is deemed necessary. These  
arrangements are highly approved by the  
Khedive, and all the foreign consuls ex-  
cepting the English and French.

NEW YORK, June 28.

An exciting meeting of the central body  
of the Parnell Land League was held here  
last night. Mrs. Parnell attended. The  
first resolution passed condemned the mem-  
bers who attended the Davitt Astor House  
conference as delegates unauthorized of the  
Parnell Land League. Other resolu-  
tions were passed, condemning the Irish  
World for attempting to create a new de-  
parture to Irish affairs, and holding it re-  
sponsible for the unfortunate position occu-  
pied by Davitt and cowardly attempts to  
create a party hostile to Parnell's leader-  
ship; condemning it also for leading the  
working classes to believe their interests  
would be overlooked on the Rotunda plat-  
form.

Guiteau appears to realize his terrible  
position more keenly as the end draws  
near. He still maintains that he is the in-  
spired servant of his Creator, who will pro-  
tect him. His brother, who has not aban-  
doned all hope, will present another  
appeal for a reprieve until an examination as  
to the assassin's sanity has been held. His  
spiritual adviser, Rev. Dr. Hicks, asked the  
prayers of his congregation for the unfor-  
tunate man on Sunday.

## The Markets.

OATS.

The market for oats in Great Britain is  
reported very dull. Prince Edward Is-  
land oats are worth from 18s. to 18s. 3d.  
per quarter of 304 lbs. for English ports,  
and 18s. 6d. to 18s. 9d. for ports in  
France.

FLOUR.

The Gazette of the 26th has the following  
regarding the flour market of Montreal—  
Yesterday we referred to the continued  
remarkable inactivity in the flour trade,  
which we attributed partly to the fact that  
the Province of Quebec produced more  
wheat than formerly, and that this  
wheat was being ground in the coun-  
try mills, thus supplying the wants  
of the interior, which previously  
had to be filled by drawing on the  
stocks of flour held here. This opinion is  
shared by some of the leading men in the  
trade, who state positively that in some  
districts they know the consumptive de-  
mand for flour during the past season has  
been met almost entirely by the product  
of local mills, which had been closed for  
years previous. Of course there are other  
causes contributing to the present stagna-  
tion, such as absence of export demand,  
and the through shipment of flour from the  
West to the lower ports, but we contend  
that a new feature in the trade has  
been developed by the local pro-  
duction of flour in certain districts of this  
province, which formerly depended  
exclusively upon the Montreal market for  
their supplies, and this we claim accounts  
largely for the diminished country flour  
trade experienced of late by the merchants  
of this city. On 'Change to day there were  
no transactions reported.

PORK.

The Montreal Pork market on the 26th  
inst., was quiet, but very firm, with sales  
of a jobbing nature at outside figures.  
The quotations are as follows:—

Mess Pork, Western, brl, \$30 00 to \$21 00

EGGS.

The market for eggs in Boston, has  
been quiet and prices up to the 24th inst.  
were easy. The supply was good, and  
sales of P. E. Island stock have been made  
at from 18 to 18 1/2 cents.

POTATOES.

In Boston up to the 24th there was for  
potatoes a very unsettled market, with a  
further decline, but at the close reports say  
there was an upward tendency. Prices  
then quoted were: Roses and Prolifics,  
\$1.25 to \$1.35; Peerless, \$1.10 to \$1.20;  
and Jacksons, \$1.00 to \$1.00.

## GENERAL NEWS.

Ants usually live but one season.  
A breed of solid-hoofed pigs is said to  
exist in Texas.

A thousand British immigrants arrived in  
Montreal on Friday.

Ignorance is the curse of God; knowl-  
edge the wing wherewith to fly to heaven.  
The Kansas harvest this year will, it is  
estimated, be the most bounteous since 1878.

Survey is prevalent among Hungarians  
and Poles, at Pottsville, Pa., owing to the  
excessive use of salt meats.

The latest reports of storms come from  
Indiana, several deaths have been caused  
by the violence of the elements.

A movement for the separation of Nor-  
way from Sweden, and the establishment  
of a republic, is growing in strength.

The diocese of Ottawa has been di-vided  
by His Holiness, and the See of Pembroke  
created. The Very Rev. N. Z. Couvaut  
has been designated Bishop of the new See.

It is said that Arthur has notified the  
employees of the American Government  
that if they refuse to subscribe to the elec-  
tion funds he will protect them against  
any attempted harm by those who run  
"the machine."

Interest in Irish affairs continues unabated.  
Ejection decrees have been obtained  
for 250 tenants in Connemara, the enforce-  
ment of which will render 2,000 people  
homeless and probably cause much trouble  
to the authorities.

The diary of the ill-fated Delong relates  
in simple but touching language the un-  
paralleled sufferings of himself and the  
portion of the "Jeannette's" crew in his  
party, in their wanderings among the  
Arctic wilds where their remains were  
found.

Alarming news of the state of affairs in  
Russia has been received. Nihilism,  
which it was hoped by the Czar and nobles  
was dying out, has suddenly burst forth  
again with redoubled fury and vehemence,  
and the safety of the Czar's person is a  
constant source of anxiety to the Imperial  
authorities. In consequence of these  
troubles the coronation has again been  
postponed.

The Toronto Mail says:—The most  
extraordinary event of the past week is the  
fact—in fact it be—that the peace-at-  
any-price man in England have suddenly  
awakened to the fact that they are the  
laughing-stock of Europe, and have accord-  
ingly determined to send a military expedi-  
tion to Egypt. It is understood that the  
Suez canal is to be seized and guarded, and  
that Egypt is to be left to 'stew in its own  
gravy.'
