

**Nationalization
Of Power Okayed
By Italian House**

ROME (AP)—Italy's parliament has given final overwhelming approval of the controversial plan to nationalize Italy's electric power industry.

The chamber of deputies completed parliamentary action on the bill, voting 371 to 57. The Senate had passed it earlier. Presidential approval, signing the bill into law, is a formality. Passage of the nationalization bill represents a major victory for Premier Amintore Fanfani's Socialist-supported government.

Over the opposition of rightists, Fanfani agreed last February to accept Socialist voting support in parliament in return for pushing Socialist-backed legislation. Electric nationalization was a key bill in the Socialist program.

The nationalization act sets up a state agency to control and generate Italy's total electric generating capacity of 17,000,000 kilowatts.

The agency's powers will extend over all means of production, transmission and distribution.

The Italian government already exerts control in such basic industries as oil, railroads, air transport, steel production, the merchant marine and communications.

**Bounty Winters
At Port In N.Y.**

OYSTER BAY, N.Y. (AP)—The HMS Bounty, the \$750,000 vessel built in Canada for the movie Mutiny on the Bounty, has arrived in New York for the winter. Earlier reports had said she would winter in Halifax.

The three-masted ship arrived from Baltimore, last stop on a 30,000-mile voyage to help advertise the motion picture. A spokesman for Metro-Goldwyn Mayer International said the vessel would be placed in drydock. Whether she will resume her voyage next spring or be used for other purposes isn't known at present.

Most of the Bounty's crew members are from Nova Scotia and will return there probably this week, the MGM spokesman said.

The ship was built in Lunenburg, N.S.
