

Wholesale Tailoring

This is Sleepless Hall!
It has 210 windows, yet its electric light bill is \$300.00 per month.

It contains 48,000 square feet of floor space, employs 600 tailors and tailoresses, cuts up 20,000 yards of cloth weekly, and makes 5000 gentlemen's garments every six days.

It has 120 electric sewing machines, and 28 electric pressers, as well as electric cutting knives, and button hole machines, which each do the work of 28 people daily.

Its tweeds and linings are bought direct from the mills in thousand yard lots, instead of in 2 1/2 yard lengths as the tailor buys them from wholesalers.

It costs "Sleepless Hall" \$2.50 for the making of a dress suit which would cost a tailor \$9.00 for making the coat alone.

This is why no tailor can sell a suit equal to a \$15.00 "Fit-Reform" for less than \$25.00 to \$35.00

FRED. W. HYNDMAN

The Shilling Trick.

A wandering sleight of hand man was entertaining some loungers with an exhibition of his tricks. After showing a good number of them, he said:
"But I have one good trick that I call the shilling trick."
Of course they all wanted to see that, so he instructed a good number of them to give him a shilling, after having marked it and carefully noted the date. About a dozen of the bystanders did so and he took them all, shook them up, and then showed each man another shilling than the one he had marked, accompanying each shilling with the question:
"Is that yours?"
Each man, of course, said "No," and he strolled away, saying:
"Then they must all be mine."—*London Globe.*

He Had Traveled.

"Now," said the intrepid explorer
after he had shown the guileless native
the inside workings of the brass watch
and had noted his naive wonder at the
mysteries of the mechanism, "I will let
you have one of these for two tasks.
Then you can be the envy of the tribe."
The native gentleman yawned. Then
he said:

"I exchanged a secondhand war club
for a bushel of those things when I was
in London last summer, and there was
not one of them that went for more than
a week."—*Pearson's Weekly.*
