From the Northward good accounts of the fisheries had been received, notwithstanding the weather for some time had been unfavorable.

The Fishery Commissioner reports that the French had been unusually bold in British waters, and that he had captured seven of their boats.

From Red Bay as far as Battle Harbor, some mackerel were occasionally taken in the herring seines, which was regarded as an excellent sign. Herring had struck in all along the coast, and in several places were very abundant.

TO THE EDITOR OF THE ISLANDER.

SIR,—I have read Mr. Lowe's affidavit, which was published in Monday's Examiner, September, 11th. Mr Lowe states, on oath, that I informed him, on the occasion of his handing me a Tender for the Building of the Barracks, on the 29th August last, that his tender was the only one which I had received.

Mr. Lowe's statement that I told him that his tender was the only one which I had received, is untrue. I did not make any allusion to the number of tenders which had been received—nor did I say anything to Mr. Lowe, calculated to convey the impression that I had not received any tender previously to his.

I enclose you a letter from Mr. Robins, who was present when a few minutes previously I refused to give Mr. Alley any information, as to the number of tenders which had been received at the Colonial Secretary's Office.

I am, Sir,
Your obedient Servant,
JOHN W. MORRISON.

Sept. 13, 1865.

John Wm. Morrison, Esq.

Dear Sir,—I was in your office on Tuesday, the 29th August, between the hours of eleven and twelve o'clock: I should say it was about twenty minutes before 12 o'clock, at the same time Mr. Alley, in my presence, laid on your desk directly in front of you, a sealed letter which he said was a tender for building the Barracks—I heard Mr. Alley inquire if there were many Tenders in, and I heard you tell him that the question was an improper one, which you would not answer, or words to that effect.

I am, Sir, yours truly,
JOHN ROBINS.

CHAMBER OF COMMERCE.—At a meeting of the Chamber of Commerce, held last evening, communications were read from the Montreal Board of Trade relating to the organization of an Intercolonial Board of Trade, also a Telegram inviting the Chamber of Commerce here to send representatives to Montreal to co-operate in establishing said Intercolonial Board, at a meeting of delegates to be held on the 27th inst. Hon. J. C. Pope, the Leader of the Government, who is at present in Canada, was appointed a representative by the Chamber, and also Mr. D. Laird; and in the event of either of those two not being able to attend the meeting, the Hon. George Beer was nominated to act instead. Among other business transacted at the meeting A. H. Yates, Esq., was appointed permanent Secretary of the Chamber.—*Pat.*

We learn that the *Islander* has no just grounds of complaint against Mr. Hall's establishment at Robinson's Island, Rustico, in so far as receiving deserters is concerned; and that the remarks in reference thereto are destitute of truth.—*Herald.*

BEWARE OF THIEVES!!—We understand two or three attempts have been made within the last few nights, by some scoundrels, to break into the residences of several of the inhabitants of this City. We would advise our fellow citizens and the Police to be on the look out for the rascals. If they come our way, we promise them a warm reception.—*Isl.*

A most extraordinary case has just been brought to light at Colyton, Somersetshire. An eccentric character has now actually in his possession at this moment the unburied corpse of his mother, who died five years ago. When she died he had a lead coffin made, with a glass plate put in so as to show her face. The coffin he deposited in a shed, and from time to time went there to look upon the face of his mother. The case affords the nearest parallel to the man in London, who kept the remains of his two wives in a similar way for many years in a bedroom in his house at Portland place.

BUSINESS PROSPECTS IN NEW YORK.—The fall business has already commenced, and promises to be extremely large. Already stores and warehouses are thronged with eager buyers, and the cry from every quarter is: "Still they come." The West will buy as it never bought before: while the Southern trade, suspended for four years, will be unexpectedly large and active. Notwithstanding the war, it seems large sums of gold and silver were held at the South while the heavy receipts at the ports, and the tobacco and naval stores that are coming forward, afford a basis for an immense profitable business with that section. It must be remembered that the Southern people want almost everything needful to a civilized community. Clothing of all kinds for both men and women, furniture, farm utensils, horses, cattle, swine—everything, in short, that support life and make it tolerable. These immediate wants must be satisfied, and from the North. All the signs point to an immense business, high prices and great apparent prosperity, during the coming fall.—*New York World.*

A CHILD WITH THREE TONGUES.—On Wednesday the wife of John Cranford, slater, Ewe and Lamb Close, Dumfries, gave birth to a son, who exhibits the rare, if not unprecedented, peculiarity of having three tongues. We saw the child, and found it to be seemingly in excellent health, of full size, and in other respects well formed. The middle tongue is the largest of the three; it is rounded at the top, and is fastened to the lower part of the palate in such a way as to prevent the child sucking readily. Each of the tongues is separated from the other, and those on each side do not appear to cause the infant much inconvenience. The curious malformation does not, so far as appearance goes, result from any disease. The child has been seen by Dr. McCulloch and Dr. Thompson, and they are of opinion it would be advisable, after he is a little older, to liberate the middle tongue from the palate by an operation. Meanwhile the infant is suckled by means of a bottle.—*Dumfries Standard.*

MYSTERIOUS WRECK.

LUNENBURG, Sept. 13.—Brig *Zero*, coal laden, was picked up on Monday about four miles out to sea, abandoned, and taken to Bridgewater by fishermen; hole in each side where attempt had been made to scuttle her. Vessel tight and dry. Chief papers and chronometer taken away—well found in stores and materials. Part of the crew at Lower Dublin, Lunenburg. They say the Captain fell overboard.

DEVOURED BY A SHARK.—Captain McDonald, of the ship *Ariadne*, 335 tons, from Prince Edward Island, with timber and deals, which arrived at Greenock on Monday, reports that five days after leaving Prince Edward Island, one of the hands, engaged as cook and steward, jumped overboard while under the influence of liquor. Captain McDonald at once thereafter ordered the vessel to be hove too and a boat to be launched to rescue the unfortunate man. The immersed person was ultimately observed to be making great efforts to reach the vessel, and was heard immediately thereafter to utter several dreadful cries, then to rise his arms wildly and disappear. As a shark was observed following the ship for several days it is supposed the monster had seized the unfortunate man and dragged him down. The boat was at once pushed to the spot but no trace of him could be seen. Deceased was about 22 years of age, unmarried, a native of Prince Edward Island, and had recently been discharged from the United States navy.—*Liverpool paper*

PERSONAL.—Dr. Chas. McKay, is at present on a visit to our city, and is staying at the Park Hotel. The Dr. has long held a prominent position in conection with the London *Times*, and for some years past has been its chief American correspondent. His visit, we believe, is of a professional character in connection with his newspaper duties, with a view, as it is said, of forming an independent estimate of the feelings of the Provinces respecting Confederation.—*St. John News.*

A Convention of delegates from the British North American Provinces, will be held in Quebec, on Thursday, the 14th inst. The object of this meeting is the subject of Reciprocity with the United States. Canada will be represented by two members, and Nova Scotia, New Brunswick, Newfoundland, and P. E. Island, by one each.—*Halifax Express.*

It is rumored that Hon. R. D. Wilmot will represent the Province of New Brunswick at the forthcoming Reciprocity Convention in Quebec. It is said that the Solicitor General, Hon. J. W. Ritchie, will represent this province, and we see it stated in the Charlottetown papers that Hon. James C. Pope will be the representative of Prince Edward Island. As we before stated, Hon Ambrose Shea goes to Quebec on behalf of Newfoundland.—*Halifax Chronicle, Sept. 14.*

On Thursday last, the steamer *Heather Belle* brought from Charlottetown to Brule about 130 sheep and a pair of oxen for the Halifax market. Holloway's Pills are undeniably the finest medicines in the world for biliousness and indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver and stomach complaints, there is no medicine known that will give such immediate relief as these renowned Pills; young and old, rich and poor, patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm climates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.

There is probably no line of disease which has been more erroneously treated than Throat and Lung Complaints.

There is also not a recipe written, nor a preparation before the public for the above complaints that does not contain Ipecac, Antimony, Lobelia, or Opium, in some form or other, which I claim to be entirely unnecessary in nine tenths of such cases, as they produce nausea, cause the stomach to repel flood, and allow disease to triumph over what nature requires to keep up strength.

Again, these objectionable components cause doses to be placed so far apart, that the irritation which causes the cough gets the upper hand, and the foundation of weak lungs or consumption is permanently laid.

A true Cough Remedy should not only be the pocket, bedside or nursery companion of all, and to be used just as often as there is tickling in the throat, or disposition to cough, but to allow of its free use after the cough is checked, to clear away all remaining irritation, and make the cure perfect.

Cases of most violent Sore Throat, with all the symptoms of Diptheria, have been entirely cured by making a constant use of the Cough Remedy as a Gargle. For Hoarseness it is invaluable.

Married.

At Holland Grove, Bedeque, on the 21st ultimo, by Augustus E. C. Holland, Esq., J. P, Mr. Nelson Howatt, of Lot 17, son of Cornelius Howatt, Esq M.P.P., to Catherine, daughter of Mr. William Platts, of Augustine Cove.

Died,

At Liverpool, G. B., of consumption, on the 15th July last, Mr. Artemas G. Alchorn, aged 26 years, son of Mr. John Alchorn of West River.

At the residence of the Hon. Joseph Wightman, St. Andrew's Point, on Tuesday, the 12th instant, from affection of the heart, Edward T. Wightman, aged 14 years, much regretted by friends and acquaintances.

On Sunday morning last, Elizabeth, eldest and much beloved daughter of Mr. Joseph Knight, aged 14 years and 6 months. Funeral will take place from her father's residence, Great George Street, to-morrow (Tuesday), at 4 o'clock.

At Saint Germain de Rimouski, Canada, on the 22nd August, M. Pierre Gauvreau, aged 67 years and 9 months.—The day on which died this worthy citizen, this good husband, good father and exemplary Christian, was the forty-second anniversary of a most happy marriage. M. Gauvreau was a Notary, and during his honorable career held many public trusts, among others, those of Justice of the Peace, Municipal Councillor, Agent of Crown Lands, Collector of Customs and Lieutenant Colonel of Militia. The duties of these offices he performed with that fidelity and honor which characterised all his actions. At this time, while the country still mourns the death of Sir E. P. Tache and the Hon. Judge Morin, it is interesting to announce that M. Gauvreau was the intimate friend of both. At one epoch in the life of these two distinguished men, it was contemplated by the chiefs of the Canadian party and electors to return M. Gauvreau as representative for the County of Rimouski, but the position of a Member of Parliament was not in accordance with his modest tastes and habits, and he declined to yield to the invitations of his friends. Generosity, affability and gentleness were marked characteristics of the virtuous man to whose memory these lines are consecrated. M. Gauvreau suffered many years from the disease which carried him to his grave. During his sickness, as before it, his lively faith and strong religious convictions were always accompanied by the practice of the Christian virtues and attendance upon the Sacraments of the Church. The subject of this obituary notice died as he had lived, in peace with God and his own conscience, enjoying the respect and sympathy of his fellow citizens and numerous friends who were to be found in many parts of the country. His mortal remains were followed to the Church and thence to their last dwelling place by a numerous cortege, composed of the inhabitants of Rimouski and the neighbouring counties. "Blessed are the dead who die in the Lord."— Courier du Canada.

[The deceased gentleman was the father of Dr Gauvreau, of this City.]

At Charlottetown, on Tuesday evening, the 12th instant, after an illness of 13 days, Sarah Ann Gillis, daughter of Mr. John Gillis, of Kildare River, Lot 3, in the 19th year of her age. The deceased left her home on the 26th ultimo, to attend the Normal School, with the view of becoming a Licensed Teacher, and after creditably passing the usual preliminary examination to obtain admittance to that Institution, she attended therein but one day, when she was attacked by the insidious disease to which she fell a victim, leaving her sorrowing friends and a large circle of acquaintances to whom she was endeared for her estimable qualities, to lament her sad and untimely end. May she rest in peace.

At his residence in Seal River on the 5th instant, Mr Allan McIsaac, aged 54 years.

Of scarlet fever, on the first instant, at 2 o'clock, a. m, Mary Jane, aged 5 years 4½ months; and at 8 a. m. on the same day, Henry, aged 1 year and 8½ months—children of Donald and Jane Taylor, of North Bedeque.

At South West River, New London, on the 11th instant, after eight week's illness, of Diptheria, Barbara, the fourth daughter of Duncan Cole, in the 21st year of her age. Ayer's Pills.

Are you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills and see how directly they restore the natural action of the system, and, with it, the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentry, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, worms and suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the speedy and certain Cure of Intermittent fever, or Chills and fever, Remittent Fever, Chill fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.
