THE BUILDERS.
Spring, summer, autumn, winter.
Come duly, as of old,
Ye winds blow, sun set, and morning saith,
"Ye hills, put on your gold."
The song of Homer liveth.
Dead Solon is not dead;
Ere ye speak, ye must be wiser,
O'er ruins of sun is spread.
But Babylon and Memphis,
Are letters traced in dust,
Ere ye speak, ye must be wiser,
The might in which ye trust!
They rose, with all the depths of guilt,
Their vain creations sowed;
They fell, because a fraud and force
Their earlier courses sowed.
Truth, mercy, knowledge, justice,
Are powers that stand;
They build with their right hand,
And work with their left hand.
—Benjamin Ellitt.

Potash for orchards.
Murrate of potash may be applied on apple orchards at the rate of 200 to 300 pounds per acre, preferably in the spring of the year after the orchards are plowed and before they are cultivated. If it is not proposed to plow them this spring, then sow broadcast as soon as the ground is in condition to receive it, and cultivate most thoroughly, even though there may be some grass, with a cutaway harrow off in any way which will incorporate the potash with the surface soil. In order to get the best results the orchard should be kept cultivated up to about the middle of July, when crimson clover at the rate of ten pounds per acre might be sown and cultivated in and the ground rolled.
—Country Gentleman.

AN X RAY
Snap Shot
Of your internal organization, would reveal your back pains, congested kidneys, if your organs are coated, disordered stomach; if your head is heavy, sluggish liver. Take another snap shot after you've used Mack's Rheumatic Pills, and note the change—the kidneys will be filtering the poisons from the system, the stomach actively digesting and the liver pouring out bile. You'll say you never felt better in your life. The system has been cleared of poisons by Mack's Pills, that's why.
Fifty cents.

"Cough Chaser" will cure that hacking cough. 10c.
