

THE NEWS.

An English and Colonial Mail was received here last evening. The news by the Atlantic Cable is of the most startling character. Scarcely had the news of the atrocious acts of the Fenians on this side of the Atlantic reached our ears, than the electric wire conveys the intelligence that even out in that far off country, Australia, an attempt was made to take the life of the son of our beloved Sovereign, by an assassin said to be a Fenian. The villain did not succeed in taking his life, though he is dangerously wounded. The assassin is arrested. An attempt was made to set fire to Buckingham Palace, by a gang of Fenians. There is scarcely a despatch that reaches us, but tells of some acts of violence or murder on the part of the members of this infernal Society. Their work seems to be assassination and robbery. It has failed to achieve the object for which it was brought into existence, except that object was destruction to life and property, and efforts on the part of the British and American governments should at once be made to crush this Society. The lives of British subjects are every where endangered, and property in the Colonies especially is insecure. They must be taught that the protection they receive from the American government will not save them from the gallows. A government that could grant \$50,000 to such men as the murderers of McGee, is not the country for Prince Edward Island to be annexed to. What think, ye annexationists over the way?

The news from Abyssinia is very good, if true. King Theodore with a number of others is reported to have been killed in an engagement with Gen. Napier. If this is true, and we hope it is, the war will be ended. The captives were all released. It remains now to be seen what action the British Government will take as to the civilization and government of that country.

The Irish Church question is the principal topic in the English papers. It is said that if the maintenance of the Irish Church is made the cry with which the Members go to the country, the Church and the Cabinet will fall together. The Austrian Parliament goes on vigorously with the work of reform. Bills have been brought in for the introduction and establishment of trial by jury. An inspired Paris journal, referring to the recent war rumors circulated in France, says it is erroneous to imply that war is inevitable simply because France has taken measures to enable her to wage it with success. It has the coolness to affirm that the more France is armed the less is the probability of war, as "an equilibrium of armed forces in the world is a guarantee of peace."

We give in another column the latest despatches.

CLOSING OF THE LEGISLATURE.

On Friday last, at half-past 3 o'clock, His Excellency came down to the Council Chamber, and being seated on the Throne, commanded the attendance of the House at the bar, and, after giving his assent to several Bills, prorogued the General Assembly with the following SPEECH:

Mr. President and Honorable Gentlemen of the Legislative Council: Mr. Speaker and Gentlemen of the House of Assembly.

In relieving you from further attendance here, I am glad to express to you my thanks for your assistance and advice.

By the Act which you have passed "to amend" and explain the Land Purchase "Bill," you have empowered me, so soon as the purchase of any public estate shall have proved to be self-sustaining, to relieve from further payment tenants on that estate, who have paid their full proportion of the purchase money for their farms.

Under this Act, I shall be enabled to comply with the prayer of the petition, which at the commencement of the Session, I informed you that I had received from certain persons who had purchased their holdings in the Selkirk Estate.

The settlement and cultivation of wilderness lands cannot fail to be encouraged by the liberal measure, in which you have authorized me to relax, on such parts of the public estates as may be deemed expedient, the provisions of the law which regulates their sale.

I have given my assent, with much satisfaction, to the bill, by which you have placed in the hands of the Government a discretionary power to expend a limited amount of public money in the purchase of lands, whose value may exceed the limits of the Land Purchase Act.

Mr. Speaker and Gentlemen of the House of Assembly:

I thank you for the Supplies which you have granted for the public service.

I earnestly hope, that the timely aid which you have offered to farmers who are unable to procure grain for seed, may avert the suffering to themselves, and the loss to the colony, which their inability to procure such seed must inevitably produce.

Mr. President and Honorable Gentlemen of the Legislative Council: Mr. Speaker and Honorable Gentlemen of the House of Assembly:

The important subject of Education has received your anxious consideration, and I trust, that the measures which you have matured for consolidating and amending the laws thereupon, may be of benefit to the community.

The able Report of the Committee on Highways has laid before you. Although you have not seen fit to take any legislative action upon it during the present Session, the whole subject will be carefully considered during the recess, with the view to the adoption, at your next meeting, of a system of management which will afford a better security for the judicious expenditure of the money appropriated for this service.

I now release you from further attendance here by proroguing this Session of the Legislature.

The following are the Titles of the Bills passed through the Legislature, during the Session for 1868:—

An Act to amend the Act for the due observance of the Lord's Day. An Act to revise and continue other Acts. An Act to incorporate the Prince County Agricultural Society.

An Act to Incorporate St. Peter's Bay Agricultural Society. An Act to Incorporate Baptist Church at Long Creek. An Act to prevent accidents to persons travelling on the ice. An Act relating to the Savings Bank. An Act in addition to and amendment of the Act to Incorporate the Town of Charlottetown. An Act to amend the Laws regulating the sale by license of spirituous liquors. An Act to consolidate and amend the several Laws relating to Education. An Act for raising a Revenue. The Appropriation Act.

An Act to empower the Government of Prince Edward Island to expend Ten Thousand Pounds in the Purchase of Lands in the said Islands.

DEATH OF SIR DOMINICK DALY.—A telegram received from Ottawa on Wednesday, announced the death of this prominent statesman, which occurred at Adelaide, Australia. Sir Dominick Dalry was born in the North of Ireland, on the 11th August, 1799, and was consequently in his 69th year. In 1825 he held the office of Assistant Secretary of Lower Canada. In 1827 he was appointed Secretary, which office he held till the union of the two provinces. After that event he held the Secretaryship of Canada for seven years. During the exciting political contests of the period Mr. Dalry acted with Lord Metcalfe, and was a prominent member of the Conservative party. In 1851 he was knighted, and received the appointment of Lieut. Governor of Tobago. In 1854 he was made Lieut. Governor of Prince Edward Island, which post he held till 1859. He assumed the governorship of South Australia in 1861.—Unionist.

It is with much pleasure we direct the attention of our readers to the advertisement of BEER & SONS in another column. We are glad to see that the manufacture of Mowing Machines and Horse Rakes has been commenced in the Colony. We hope this new branch of mechanical industry will prove in every way a success.—Patriot.

We have received "Godey's Lady's Book" for May. The steel plate entitled "Godey's" is a very pretty picture, suited for the season. The usual colored fashion plate comes next, with six finely colored figures. There is a handsome colored engraving of an Antimacassar, in shell pattern, a large extension sheet of dresses and novelties. The work department contains an elegant selection of fancy work. The literary department is fully up to the highest standards, for which "Godey" is proverbial.

We have been obliged to omit some original matter intended for this day's paper, as well as a number of advertisements, in order to make room for the news by last night's mail.

THERE are several vessels here already loaded with produce, waiting for an opportunity to get out.

GRANNIE'S BOY. Summerside, April 30, 1868.

To the Inhabitants of the West of P.E. Island:

HAVING been frequently informed during the last few weeks that the inhabitants of the West were lamenting my early departure from among them, they having been informed that I would leave on the first of May next; I beg to inform them that such is not the case, but that I intend to live and die among them. I have a daughter with me, and expect shortly to have my son, and probably other relatives and friends will shortly follow. Having had more than 30 years of practical experience in my profession, I can readily distinguish between disease and poison. My heart has frequently ached to see the victims of ignorant and laid prostrate by mercurials and nitre. I have been informed of others being killed by cold water injudiciously applied.

There has also been a great amount of absurd nonsense about Cancers. I would advise those who are certain that they are so afflicted to bathe the part affected freely and frequently with Lemon Juice; also frequently to swallow a little either alone or in water sweetened, and lose no time in consulting a medical man, as the general health is usually bad.

I am your true and faithful Friend and Adviser, J. SHAW, M. D. Pilgrim's Rest, Lot 10, April 30, 1868
