Meeting Of Ministerial Ass'n. Of Charlottetown

The November meeting of the Charlottetown Ministerial Association was held on Tuesday afternoon in the Y.M.C.A. with the president, Henry Barber, in the chair, and the secretary, Mr. F. B. Gamble at the desk.

After worship had been conducted by the president, assisted by Capt. Titcombe, the minutes were read and approved. New members were welcomed in the person of the Rev. W. N. Byers, and Rev. J. M. Sproule. The Rev. T.H.B. Somers, Rev. M. D. Dunbar, Rev. J. C. Davidson, Rev. E. C. Evans, and Rev. J. F. MacKay were also present.

Capt. Titcombe presented a most comprehensive report on the Pedlar Mission conducted early in September, stating that well over 7,000 people had been reached and 26 conversions reported as a result of the crusade. Capt. Titcombe was thanked for his report and then a motion was passed congratulating him on his recent appointment to take a three months' course next spring at the Salvation Army Headquarters in London, England, the only Canadian officer chosen.

The Rev. M. D. Dunbar gave a report on the annual meeting of the P.E.I. Association held in Summerside on Monday. The paper for the day was given by the Rev. J. F. MacKay of Vernon and evoked a spirited and interesting discussion on the part of all the members present.

The annual meeting and election of officers will take place at the Y.M.C.A. when the study will be presented by the Rev. J. T. Irwin.

Burgess Bedtime

Continued from page 10

hold on with one paw and his hind feet.

Angrier, and angrier grew the sound of that humming by the Bees. Cubby Bear kept slapping at them. Of course he couldn't slap at them and try to break open that hollow tree at the same time. It happened that that was a particularly stout tree. Sometimes a hollow tree is nothing but a shell which is easily broken open. Perhaps had Buster Bear been there in place of Cubby he would have been able to tear open that storehouse and get the honey. You know Buster has big claws and is very, very strong.

Peter was so excited and so interested that he forgot to keep under cover. He kept moving a little nearer, and a little nearer to that tree. He did it without knowing he was doing it. He just had

Federal Gov't May Boost Subsidies To Gold Mines

OTTAWA, Nov. 5.—(CP)—The Canadian gold mining industry was heartened Monday by the possibility that the Federal Government may increase subsidies and thus avert a crisis threatening to close mines and spread unemployment into many northern communities.

However, an industry spokesman saw little hope that the government would meet a further request—that it allow the sale of finegold on the world's premium or so-called free markets where the price ranges higher than the rigid official price.

Canadian gold sold on the premium markets must be debased—mixed slightly with an alloy so that the difference between it and fine gold, used in monetary transactions, can be easily detected. The government takes this precaution to discourage a build-up of monetary gold in private hoards.

Mine operators selling on the premium market are not eligible for government cost-aid subsidies.

Boosting of subsidies and sale of fine gold on premium markets were among a group of industry recommendations submitted to the government by a delegation led by V. C. Wansbrough of Toronto, managing director of the Canadian Metal Mining Association.

Following a meeting with Finance Minister Abbott, Mr. Wansbrough said he is certain the government will give the matter of a "serious consideration." He was "hopeful" that a boost actually will be granted.

Subsidies are worked out under a complicated formula based on production costs and output and average about \$2.80 an ounce for gold produced. Subsidies run out at the end of 1953 unless legislation is renewed.

The delegation noted that the current formula was designed to meet conditions when the mint price for gold was \$36.85 (Canadian) an ounce. Since then the mint price has declined by more than

to see all there was to see. He got a little too near. Two or three angry Bees discovered him. One of them stung one of his long ears. "Ouch!" cried Peter, and suddenly lost all interest in what Cubby Bear was doing.

Enough is enough. The trouble is some folks often do not know when they have enough. Cubby Bear did know. Whining and growling, Cubby Bear began to back down that tree. The cloud of Bees went right down with him. He backed faster. When he was still some distance from the bottom he let go and dropped. Then he took to his heels. Somebody else could have that honey if they could get it. All he wanted now was to get away from those angry Bees.

an ounce. The official price for gold is \$35 (U.S.) an ounce. With the Canadian dollar climbing above par, the price in Canadian funds is reduced by the amount of the exchange rate. Meanwhile production costs are continuing to climb, the industry said.

The industry said it realized that actually the only real solution to the current crisis lies in a sharp boost to the official gold price—but it noted that the International Monetary Fund has ruled against an increase at this time.

It made these alternative suggestions: 1. Sale of fine gold be allowed freely both in Canada and abroad. 2. Removal of government control over the export of gold. 3. A boost in cost-aid subsidies.

"The gold mining industry affords employment to some 22,000 Canadians directly and indirect employment to a very much larger number," the industry said in its brief. "The communities which depend on gold mining provide livelihood to some 125,000 Canadians."

Producing gold mines have been reduced to 60 from 140 in 1941.

"In the last 18 months, 10 mines have been forced to close and four more now are making plans for suspension or cessation of operations."

MEDICINE HAT, Alta. — (CP) — New construction values in Medicine Hat this year point to a record total. In the first nine months of 1952 the city issued 377 building permits valued at \$1,569,000, equal to the whole year's total in 1951.

PHILADELPHIA, Miss., 27 — (AP) — Eight vicious dogs killed a semi-invalid farmer, authorities said today. The victim, 47-year-old William Pierce, was attacked late Saturday as he walked a highway. A passerby found the dogs eating the body.

New Rail Line Completed In B.C.

PRINCE GEORGE, B. C., Nov. 5.—(CP)—"We are here at last." Five thousand persons saw this inscription Saturday on a giant banner as a train of the government-owned Pacific Great Eastern Railway completed its inaugural run over the line's 81.9-mile, \$13,000,000 extension from Quesnel to Prince George.

Aboard the 18-car special were Premier W. A. C. Bennett, members of his cabinet, and 400 passengers, many of them pioneers of the famed Cariboo country.

Some had waited 40 years for this day. The railway was started in 1912, heading into the then wilderness from Squamish, 30 miles from Vancouver at the head of Howe Sound. Quesnel became the northern terminus of the 347-mile line.

Earlier in the day, a spike-driving ceremony was held at Ahbau, close to where early-day miners worked the creeks in search of gold.

Before a crowd of 700 Premier Bennett said: "Today marks the opening of a new era for this part of British Columbia, which is an empire in itself."

He said the development in this North Central district and in the Peace River country to the north "holds out greater promise of expansion than any other part of the North American continent."

ROCHFORD SQUARE SCHOOL

LIVERPOOL, N. S., Nov. 4 — (CP) — Workers at the Steel and Engine Products Ltd. plant here ended a seven-week strike today. A vanguard of 50 employees prepared the plant for the return of the 300-man working force tomorrow. The unorganized workers decided Sunday to submit their wage dispute to an Industrial Board of Inquiry. They demanded a 20-cent above present rates ranging from 60 cents to \$1.10 hourly. The company offered five cents.
