S'side Bank Moves To New Location The Summerside branch of the Provincial Bank of Canada, after being located for 33 years at the corner of Summer and Water Streets, yesterday and last night moved to the new location, just across the street at 208 Water Street.

The branch opened in 1919 with Mr. J. J. Morris as manager and since that time has achieved a splendid record of banking service to the public. Its business having expanded under the successive managers, it was felt that larger quarters were necessary and acting on the advice of the local manager, Mr. G. M. Mulholland, head office officials decided to move to the large office across the street.

Workers labored late last night to move the heavy safe from the old site to the vault across the street and today the clients of the bank are being served by Mr. Mulholland and his staff in the new and completely renovated premises.

In the first double header spelling contest of the evening the Alberton school was defeated by the Summerside High School by a score of 17 to 20. The other two teams which appeared the same evening were North Bedouque and Cape Traverse. In the 1 to 3 classroom spelling contest, the North Bedouque school came through victorious after four rounds of play by a score of 16 to 14 over their rival team Cape Traverse.

The students who went through the entire evening without missing a spelling were: From Summerside—Hester MacPhee, Barbara Vaughn, Diane MacQuarrie and Herbert Crockett. From Alberton—Edward McAlduff, Maw Larter, Alva McAlduff, From North Bedouque—Maxine Campbell, Eileen Staver, Phyllis English. And from Cape Traverse—Louis Norring.

Although the lobster fishing season on the north shore officially opens May 1st, it is permissible this year to run lines and traps today, Wednesday, at twelve noon. However, owing to large formations of drift ice all along the coast right through to North Cape there is little chance of any lines being run in the West Prince area.

Most fishermen at Alberton South have sufficient bait to put their traps out but herring are reported as very scarce with none being caught outside and only a small catch being netted in Cas-cumpech Bay. At Tignish there is practically no bait available. Preparations are almost completed at Alberton South and there are thousands of traps piled on the wharves ready for the rush to the best fishing grounds and fishermen are now hoping for an off shore breeze for several days to get rid of the ice menace for good, before taking a chance of setting and losing their gear by a return of the ice.

According to a veteran fisherman at Alberton South, it is over thirty years since he saw so much ice off Alberton harbor on May first and at that time the ice remained for nearly three weeks.—FW.

Big Sabre Jet Display At S'side Today This morning the people of Charlottetown and Summerside areas for the first time will have an opportunity to witness the flight of a squadron of 12 Sabre jet aircraft, which will fly over both areas at speed in excess of 600 miles per hour.

Described as the world's fastest jet plane, these aircraft will make several passes over Charlottetown and over Summerside at about 9:55 a. m. Following the aerial display in the morning, the jets will land at Summerside R.C.A.F. station, where, for the first time anywhere in Canada the general public will be able to inspect them.

Alberton School Pupils Prominent On "Parade" Last Friday evening the M. F. Schurman Co. Ltd., presented its 8th consecutive weekly Schurmans School Parade programme of the current winter season.

It was an unusual program in that all but one of the contestants were from the Alberton school. They put on what has been described by the radio listeners as one of the outstanding programs of the current season. This was true in part because the programme was well balanced with humorous readings, delightful songs and well selected and playing piano numbers.

All of the students who appeared from the Alberton school were doing so for the first time and thus their performance was even more notable. In the first double header spelling contest of the evening the Alberton school was defeated by the Summerside High School by a score of 17 to 20.

The regular monthly meeting of the Ladies Auxiliary of the Canadian Legion, Summerside branch B.E.S.L., was held in the Legion Home on Water Street, last evening April 29th, with Mrs. Clifford MacGuigan in the chair.

Most Summerside housewives who went shopping yesterday were agreeably surprised to find that the retail price of butter had dropped sharply, in at least two large Summerside food markets the retail price of butter had dropped 9 cents per pound, from 75 cents to the new price of 66 cents.

One butter manufacturer, when asked the reason of the sudden price decline, said that in his opinion, it was due to the import of about 18 million pounds of butter last fall in a year when Canadian butter production was high. He said he believed that Prince Edward Island alone had an increase of about 25 per cent.—S.

Four new members were welcomed by the president, Mrs. MacGuigan. A "thank you" message was read by Mrs. R. L. Mollison from Mrs. Joseph Wood, for gift received during her recent illness. A card party of auction bids was planned for May 14th to be held in the Legion Home.

Mrs. John Watson was appointed convener for sending cigarettes to the boys overseas this week. The president expressed regret at not having received more names of boys in service to whom they might send cigarettes. The meeting was then adjourned and refreshments were served.
