THE LEGISLATURE

LEGISLATIVE COUNCIL DEBATES

Mr. NICHOLSON.—I would like to give my opinion respecting the legislation which is being passed in this House.

I cannot approve, I have changed my mind. I am sorry such legislation has been passed in this House. I do not think hon. members can find a precedent for introducing such provisions in a second Chamber of any legislature of the British Empire.

The Telephone Co's

P. E. ISLAND

PERSONS using the Telephone would find talking much more satisfactory if they would observe the following Rules:

1st. Speak with your mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the Telephone so as to cover the Ear, just as if you wished to shut out all other sounds. Do not press too hard on the Ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
