THE WRITERS.

Andre Theuriet, one of the new members of the French academy, is a poet of birds, wild flowers, brooks and rills.

Mrs Humphry Ward entertains many house parties at her country place, and sleighing parties in winter time are a favorite diversion.

Mrs. Barry Pain, daughter of Rudolph Lehman, the veteran portrait painter, has written a novel called "St. Eva." It is to have a frontispiece by Burne-Jones.

Samuel Smiles, the author of "Self Help" and other well known books for boys and young men, is now over 80 years old. He is living quietly at his suburban home near London, writing a little now and then and looking after his literary interests.

Herbert Spencer has completed his life work with a volume on "The Principles of Sociology." He is now 76 years old and has been engaged in writing for 40 years, notwithstanding the fact that he has been an invalid for a great portion of the time.

A good example of the woman of the new south is Miss Virginia D. Young. She is a prominent South Carolina writer and is thoroughly imbued with the spirit of the new times. Among her works are "Beholding as In a Glass" and "A Tower In the Desert."

NATURE'S WONDERS

Northern explorers report the discovery of new spouting geysers in Swedish Lapland.

The greatest cape in the world is Cape Horn, a precipitous mountain over 3,000 feet high.

On the 6th of November, 1841, a large volcano appeared in the Pacific, 500 miles off the coast of Japan. It spouted fire for five days, and then suddenly disappeared.

In the Berleoy hills, Dauphiny, there is a fountain which emits an inflammable gas during the greater part of the month of July, but during no other time in the year.

One of the natural curiosities of New York state is the "rocking stone" of Sullivan county. It weighs 40 tons and is so evenly balanced that it can be moved with a finger.

The latest curtain pole is cut into two equal sections lengthwise, hinged to each other, and having a hole bored through it to hold a rod on which the curtain is hung, thus putting the hangers out of sight.

A new combination tool will drive or pull a nail and can be used as a pipe wrench. It has a movable beak, one side of which grips the heads of nails, the other side having teeth to hold the pipe solidly for turning.

To remind a person that his clock needs winding a Wyoming man has a device consisting of a lever placed so as to touch off an alarm when the coiled spring has unwound sufficiently to move the lever out of position.

Granby Rubbers

It is no wonder that rubbers, which are not the same shape as the boot, should be uncomfortable. It costs money to employ skilled pattern makers but the result is a satisfactory fit. Each year new patterns are added, to fit all the latest shoe-shapes, and **Granby Rubbers** are always "up-to-date." They are honestly made of pure rubber, thin, light, elastic, durable, extra thick at ball and heel.

COMPARISON OF FIGHTINGS STRENGTH.

The Armies and Navies of Greece and Turkey Compared.

The nominal strength of the army of Greece, according to the returns for 1895, is as follows: 1,889 officers, 22,997 men, total 24,877; 3,739 horses and mules and 120 guns. On the war footing no force could be mobilized to 100,000 men. The reserve forces alone give a total of 101,500 men, and behind these is what is called the territorial army, numbering 146,000. The navy consists of five armour clad vessels, 17 torpedo boats, 2 corvettes, 2 cruisers, 12 gunboats, 3 revenue vessels. The personnell of the navy includes 185 officers, 247 employes, 387 petty officers, 1,643 sailors, 503 stokers, total 3,165 men.

In Turkey all Mussulmans over 20 years of age are liable to military service, this continuing for 20 years. The whole empire is divided into seven army districts. The effective combatant service of the Turkish army is as follows: infantry 583,200 men, cavalry 55,300 men, artillery 1356 guns and 54,720 men, engineers 7400 men, total 700,620 men. The navy is in great part an obsolete fighting force. Three ships only can now be counted as seagoing armour clads of fighting value; the rest belong to the class of coast defence vessels, being small and old. The ships are as follows: 1 first class battle ship one third class, 7 port defence ships, 9 second class cruisers, 50 third class cruisers, 25 torpedo crafts. The nominal strength in men is six vice admirals, 11 rear admirals, 208 captains, 289 commanders, 228 lieutenants, 187 ensigns and 30,000 sailors, besides about 9000 marines.

If Barabbas were now living he would divide his time between St. Louis and Chicago.—Kansas City Journal.

The University of Chicago is going to bring itself quite up to the highest standard of modern education. It is going to have the finest gymnasium in the world.—Boston Globe.

New York city next year will spend $7,000,000 on its police force and $5,970,000 on public schools. The encouraging feature is that as the second item grows the first is likely to become less burdenscme.—St. Louis Globe-Democrat.

The rivalry between St. Louis and Chicago has taken on a new phase and now consists of which city can boast the greatest number of hold ups. St. Louis is ahead in the race, but Chicago is getting her second wind.—St. Joseph (Mo.) Herald.

The freeholders act like a lot of boys. They are wearing out the patience of the people. There is no doubt that the question of abolishing the board would, if submitted to the people, be carried by an overwhelming majority.—Jersey City Journal.

NEWS NOTES

A horse car line on the Pyramids has been authorized at Cairo.

An official despatch from Bombay says that 1835 deaths occurred there during the week ending Friday, February 12, of which 813 were due to the bubonic plague At Poona, 47 cases of the plague were reported, as compared with 43 cases during the week previous. At Karachi 209 deaths were reported as compared with 297, 181 and 208 deaths during the three weeks previous.

Mr. Peter Lval, a New York architect, was sent for by Mr. Tarte and has examined the western block of the Parliament buildings. He says the walls are sound up to the second storey, and will not need rebuilding. To make the block fireproof the wooden partitions will have to be replaced by metal, and to complete the work will require six months. Nothing is said about the cost. Everyone knows that there are millions in it.

The latest discovery of mineral made on the shores of the Pettewawa, on the Upper Ottawa, is of coal, and the bed is said to be in paying quantities and within easy access. The discovery of coal in this region contradicts all geological predictions, but so many unexpected discoveries have been made that many people believe that good coal has been found.

Senator Daniel of Virginia, has a very bad opinion of the British nation, and he is opposed to the arbitration treaty because he wants the United States to go to war with Great Britain, some time or another. The Senate of the United States contains a good many Christians of the Daniel stripe.

A Gloucester despatch of the 18th says: The bakery of N. M. Johnson has been closed because a skunk has established himself under the building and the characteristic odor has permeated the place so strongly that it was impossible for the employees to remain inside. Efforts made to dislodge the foe were futile, it not being possible to discover his exact whereabouts, and the garrison retired.

The departmental report on the burning of the Western Block would indicate that Ottawa's fire brigade needs reorganization. Ottawa papers, which are discussing the matter, appear to agree in this respect with the departmental officers, though it is not plain whether the fault lies with the head of the brigade or the City Council or councillors. A fire brigade is an institution that is peculiarly liable to become defective, unless it is constantly watched.

If the official reports are correct, the end of the Cuban rebellion is in sight. The Spaniards claim to have pacified Pinar del Rio and Havana provinces. And now it is said the rebel army, under General Maximo Gomez, is in full retreat before the continued advance of Captain-General Weyler through Puerto Principe, and in the direction of the capital of that province. General Calixto, Gomez's second in command, was reported as retreating towards the same point. The Spaniards are over-running these eastern provinces again.

A deputation representing the Methodist Church of Canada, waited on Hon. Clifford Sifton, Minister of the Interior, a few days ago and discussed the subject of education in certain of the Indian Industrial Schools of the Northwest Territories, which come under the care of the Methodist Church. It was represented to the Minister that the Mounted Police authorities should receive instructions to guard more against the sale of liquor in Northern British Columbia. An instance was cited of a little hamlet called Casiar, inhabited by a Chinese and ten whites, where six saloons are in full blast, with a most demoralizing effect upon the Indians of the district.

The idea that things are not happy in South Africa will be strengthened by what Mr. Rhodes said before the Parliamentary committee which is investigating the circumstances connected with the Jameson raid. It is impossible, he declared, for the present state of affairs to continue. That means a great deal, and it only voices what the English newspapers of the Transvaal are saying with as much openness as they dare. Englishmen who go into the Boer Republic know the conditions that exist there, and that they are practically deprived of the privileges, while assuming all the burdens of citizenship. If they go in, they should accept what they meet, but it is not in their nature to be suppressed; and no one with British blood wants their nature suppressed.

A scene was created in the house of commons a few days ago by Mr. John Burns, Socialist member of the Battersea. The occasion was the debate of a proposal to erect a new hall for the use of the London county council. In the course of the discussion, Mr. Burns, himself a member of the county council, made an attack upon the Pall Mall Gazette, which newspaper is owned by Mr. William Waldorf Astor, because of its opposition to the proposal. The opposition of the paper to the erection of a new building on the site of the present one, he said, was purely in the interest of Mr. Astor, whose house adjoined the council building. In concluding his remarks, Mr. Burns said he could stand a decent duke or a militant marquis, but he could not endure the miserable and ungentlemanly conduct of a new millionaire.

FLOWER NAMES.

The lagerstroemia is named in honor of Magnus Lagerstrom of Gothenburg.

The candytuft owes its name to the sweetness of the blossoms and their peculiar habit of growing hin clusters.

The four o'clock takes its popular name from its time of opening. On unclouded days this flower opens with tolerable regularity at about 4 in the afternoon.

Tropæolum, a variety of nasturtium, has its name from a Greek word signifying "a trophy"—the leaves resembling a buckler and the flowers an empty helmet.

The violet has retained its name almost unchanged from the Latin. Under the name viola it is found in Virgil and other writers on rural and sentimental subjects.

The alyssum derives its name from two Greek words signifying "to allay anger." The flower was popularly supposed in ancient times to possess the power of calming angry passions.

The lady's slipper has its popular name from a fanciful resemblance in form to a slipper. Its botanical name, cypripedium, comes from two Greek words meaning Venus' slipper.

The morning glory has its name from two Saxon words signifying the glory or brightness of the morning, an allusion to the fact that this flower blooms during the early morning hours.

One extra good winter blooming fuchsia is speciosa. Given a large pot, light fibrous soil of leaf mold and sand, good drainage and plenty of water at the roots and overhead, it will make rapid growth and flower abundantly from January to April without cessation.

DROPPED DEAD!

Suddenly Stricken Down by Heart Disease.

"A sad and sudden death occurred to a well-known citizen on one of the leading streets this morning."

Nearly every large city paper contains daily some such heading. The number of deaths from heart failure is very large, but it is only when they occur in some public and sensational manner that general attention is drawn to them.

Palpitation and fluttering of the heart are common complaints. With the heart itself there is nothing radically wrong. But the system is disorganized, the kidneys and liver are out of order, and the stomach is not in condition to do its work porperly. Between them all, they throw too much responsibility on the heart, and the latter is unable to stand the strain.

A box of Dr. Chase's Kidney-Liver Pills at a cost of 25 cents will regulate the system, purify the blood and make a new person of every sickly man, woman or child.

Dr. Chase's Liver-Kidney Pills may be had from any dealer or from the manufacturers, Edmanson, Bates & Co., Toronto. One pill a dose, one cent a dose.

Dr. Chase's Linseed and Turpentine is and colds. Largest bottle on the market; only 25 cents.

JINGLES AND JESTS.

A Madonna of the Hospitals.

Madonna of the proud, pale face
Beneath the cap of snow,
A minister of pitying grace,
You softly come and go!
Divine compassion's in the touch
Of your serene white hand,
They love you much who suffer much
Along life's borderland.

Madonna of the hospital,
Gowned all in spotless white,
However dark the day befall,
Your presence makes it bright!
There's healing in your calm, dark eyes,
So grave, so deep, so true,
Oh, well the invalids may prize
Their bondage sweet to you!

Typhoid, pneumonia, I do lack;
Of phthisis I am free;
I have no "misery in the back,"
Nor yet a "housemaid's knee."
But, priestess of the healing art,
I suffer, and I'm sure
There is a pain about my heart
Which you alone can cure!
—Town Topics.

Time For Action.

"I see that there has been an oatmeal trust formed," said the shoe clerk boarder.

"That settles it," said the cheerful idiot. As long as the trusts were content to lay their clammy fangs on the homes of the country it was none of our business, but when they attack the boarding houses it is time for action.—Indianapolis Journal.

Willing to Learn.

Old Quiverful—And so you want to take our daughter from us? You want to take her from us suddenly, without a word of warning?

Young Goslow—Not at all, sir. If there is anything about her you want to warn me against, I'm willing to listen.—Tit-Bits.

His Waterloo.

He saw the smoke of battle curl afar and never quailed;
He faced the fire of cannon with a heart that never failed,
But terror swept in a tide that courage could not stem
When he had to face the furnace smoke and fire at 6 a. m.

The Proper Qualification.

"As I understand it," said the innocent man, "the main thing in poker is to be lucky in the draw."

"It ain't so much in bein lucky as bein quick out our way," explained Rubberneck Bill.—Indianapolis Journal.

Like Father, Like Son.

The milkman's boy ran off to sea,
Although he "hadn't orter."
But, like his pa, he wished to make

Subtle Flattery.

She—Fred, why don't you ask father for my hand today?

Fred—I'm afraid to do it today. Wait until tomorrow, and I'll buy a bicycle exactly like his.—Atlanta Constitution.

Or New Year's Bills.

"Insomnia!" 'Tis but a name
Formed through the doctors' habit
Of striving mystic words to frame.
It merely means "Welsh rabbit."
—Washington Star.

An Advanced Child.

Gothamite—It seems to me that your Chicago children are very forward.

Chicagoan—Yep; my youngest son is saving up his pennies to start his alimony fund already.—New York Journal.

No Longer Notable.

The boy upon the burning deck
Occasions no alarm.
A sensation sated age remarks,
"Oh, you are not so warm!"
—Detriot Tribune.

Reserved.

George—I just saw you coming from the conservatory with Miss Goldie. Rather handsome girl, but too reserved for me.

Thomas—Yes. I just reserved her for life.—Cincinnati Enquirer.

Did He Wait?

"Please, may I have a kiss?" he said,
And straightway she
Spoke sharply, with averted head,
"Sir-r-r-r-r-r-r-r-tainly!"
—Baltimore News.

Second Burglar—Well, we wiped our feet, didn't we?—Detroit Journal.

At a Bargain.

"Man wants but little here below"—
This fact's won him renown—
While woman wants a lot of things
And wants them all marked down.
—Chicago Record.

Pleasant For the Creditor.

Sam—Yes, I can lend you a ten.

Bob—Thanks awfully. I'm indebted to you for more than I can ever repay.—New York Sun.

In Politics.

It happens oft in politics
That he is most bereft
Who takes a noble stand for right
And finds that he is left.

An Excuse.

He—Say we get married.

She—What for?

He—I've had a tandem given me.—New York Journal.

A Bad Break.

"Mamma is calling, George," she said.
Her words they roused him not,
For, still absorbed in reverie,
He answered, "Take the pot."
