Offsetting the possible revaluation was reports of unfavorable weather across the Prairies which brought about some commercial buying on the declines.

There were no reports of export business in Canadian wheat. Class two wheat and I.V.A. prices remained unchanged from yesterday.

Expect U. S. Steel Supply To Tighten

CLEVELAND, Oct. 1 - (AP) - Even if the Korean war ends quickly, civilian steel supply will tighten more and some mills will continue turning down new business, Steel magazine says today.

The weekly metal working trade magazine says in reviewing the industry that there are "virtually no openings in rolling schedules in any products" as steelmakers enter the fourth quarter.

Should the war in Korea end quickly, "armament and other emergency needs... will continue to swell as projected rearmaments and European military aid programs reach active stage," Steel predicts.

Weekly output now is holding at 101 per cent of capacity, or a record 1,945,000 tons. The year 1950 should set a record around 97,000,000 tons compared with the 1944 all-time high of 89,641,600 tons, Steel says.

Composite pig iron prices rose an average of from 72 cents to \$1.12 a ton, with basic \$47.72; No. 2 foundry \$48.84 and malleable \$49.13.

PRAWNS IN ASPIC Aspic is the name given to the transparent jelly in which fish, meat, eggs, etc. are sometimes served.

Wall Street In Jittery Mood Last Week

(By Eader Winget) NEW YORK, Oct. 1 - (AP) - Wall Street got jittery last week about peace in Korea and inflation at home.

Prices in the stock market moved sharply in both directions, and the week ended just a notch higher than when it started.

It took the market men some time to make up their collective mind, but once they did the decision was that everything is all right.

The week started off with dire warnings of inflation and inflation controls ringing in the ears of all.

The theme of the American Bankers Association convention in New York was largely inflation and its effect, and the bankers were outspoken in their fear of that economic evil.

To pay for all that Treasury Secretary John Snyder said taxes will have to go up substantially no matter what the outcome of the war in Korea.

That was disheartening to Wall Street, and then came the word of dramatic United Nations military successes in Korea.

At first blush, an end of the war in Korea meant an end of current high production and a jolting change-over to peacetime operation in industry.

The stock market dropped. An estimated \$1,250,000,000 was chipped off the listed value of securities.

But overnight Wall Street changed its mind and decided all that was for the good. The remainder of the week the stock market inched higher. The Associated Press average of 60 stocks advanced only 10 cents on balance in the five-day week. (Incidentally the stock market resumes Saturday half-day sessions next Saturday.)

At the end of last week it stood at \$82.70, a high for the year and the best since March 25, 1931.

Leaders most of the week were the so-called peace stocks, and those in the electronics group held eight of 20 places in the list of most active issues.

Heading it was Radio Corp. up 1-1/2 at 19 1/8 on the week. Number 20 in the list was Zenith up 7 3/8 at 60 3/4. Other outstanding stocks with net gain for the week and closing price were Admiral Corp. up 3 1/2 at 32 1/4. General Motors up 2 5/8 at 98. Electrical and Musical Industries up 3/8 at 2 1/2. and Philco Corp. up 7 1/8 at 40 1/4.

International Telephone was off 1-2 at 13 3/4. U. S. Steel lost 3/4 at 38 1/2 and New York Central was off 5/8 at 16 1/8.

The Curb Market had a lively week with most of the leaders advancing. Kaiser-Frazer was the most active issue up 5/8 at 8 7/8. and Pacific Petroleum was second most active up 5/16 at 7 1/16. This is the week that Kaiser-Frazer introduced its new low-priced automobile line.

An important difference between you and your neighbours

CHANCES ARE you have a lot in common with your neighbours. But there is an important difference between your plans for the future and theirs.

There is something special, for instance, about your plans for retiring. You have your own ideas about how much income you'll need to live on in your later years. And you also determine at what age you'll want to start "taking it easy".

Likewise, you face different problems in protecting the family income in case anything happens to you.

With life insurance you can find security in both of these ways—arranged to fit your own special needs. You have a choice of many different kinds of policies for different purposes. And the services of trained life underwriters are at your beck and call to help you make that choice wisely.

Nothing but Life Insurance gives YOU this control over your future.

So today—and tomorrow—rely on your own life insurance to meet your own personal security needs!
