

Milestone Is Reached On Atomic Energy Plans

ROLPHTON, Ont. (CP)—Canada has reached another important milestone in a seven-year research and development program to use atomic energy to produce electricity economically.

The reactor or atomic furnace in Canada's first nuclear power station went into operation here Wednesday. It is a "burning" uranium and general heat for the first time with 20 officials of three companies involved in the project on hand for the historic event.

However, the successful starting of the nuclear reactor does not mean that the \$33,000,000 experimental station is producing electricity. A variety of commissioning tests will be conducted during the next few months before the reactor is brought up to its full heat output and starts producing its first electricity.

JOINS PROFIT SHARING PLAN

Employees of Simpson-Stearns and Simpson Ltd. have a new profit sharing fund which was adopted last year. For 1961 the company contributed a \$100,000 to the fund out of profits. The fund is distributed on the basis of each employee's deposits and number of years of service.

Freetown Woman Given Day In Jail On 7 Forgery Counts

SUMMERSIDE — Mrs. Albert Mathews of Freetown pleaded guilty in police court Wednesday to seven counts of forging cheques and was sentenced to one day in jail on the first count plus one day in jail on each of the other six with the sentences to run concurrently. Judge W.E. Darby presided. The total amount of the seven forgeries was \$333.

City Request Is Considered

Members of city council's finance committee, and city controller John Butler, met Wednesday with Municipal Affairs Minister J. David Stewart to discuss the loss in revenue to the city by legislative action which removed the city's power to impose a work tax on non-residents.

Campaign Will Start On May 14

Plans for the 1962 fund raising campaign, with an objective of \$100,000, highlighted the April meeting of the Catholic Social Welfare Bureau, held at the bureau's headquarters on April 8. W. J. L. Murphy, president, handled the meeting.

NEW MATCH-A-COLOR WALLS

Bustamante Seeks Pact With U.S.

KINGSTON, Jamaica (Reuters)—Sir Alexander Bustamante—known throughout the West Indies simply as "Busta"—was signing of a program for the production of electricity at an economic cost.

This concept involves the use of heavy water for two purposes. It is used as a moderator to make the atomic fission process possible and to transfer heat from the reactor to raise steam to drive electric generators. The fuel used is natural uranium.

Secret Report Said Made UN On Dag

MILAN, Italy (Reuters)—The independent Milan newspaper Il Giorno has claimed that a secret report delivered to the United Nations established that Dag Hammarskjöld's aircraft was brought down by fire from a Katangan aircraft.

The late UN secretary-general died last September while on his way to meet President Moise Tshombe of the Congo's breakaway Katanga Province. His plane crashed as it was about to land in Northern Rhodesia.

...the report... was dated Salisbury, Jan. 1962, and comprised seven pages, plus a map and the text of witness statements.
