unfortunate

Cod-liver oil suggests consumption, which is almost unfortunate.

Its best use is before you fear consumption; when you begin to get thin, weak, run down; then is the prudent time to begin to take care, and the best way to take care is to supply the system with needed fat and strength.

Scott's Emulsion of cod-liver oil, with hypophosphites, will bring back plumpness to those who have lost it, and make strength where raw cod-liver oil would be a burden.

A substitute only imitates the original.

HOUSE ETIQUET.

HATS PLAY AN IMPORTANT PART IN PARLIAMENT.

A New Member Must Be Escorted to the Table of the House—Old Customs That Are Still Adhered To—Nearly 700 Members, With Seats For Only 350.

When a new member makes his first appearance in the house of commons, he has to be escorted to the table of members by one of the members of parliament. This is one of the immemorial usages of the house of commons. It originated in a far remote past when it was really necessary in order to prevent personation that two members of the house should identify the claimant of a seat after a by-election to the person named in the writ of the returning officer.

The precaution has now become unnecessary for many a year. But such is the reluctance of the house of commons to part with any of its quaint and antique ceremonies that it is still retained, and a representative may come to the bar of the house as the unanimous choice of a constituency of 10,000 electors and produce his credentials he will not be permitted to take his seat unless he can get two members to act as his sponsors.

Dr. Kenely, the famous counsel for "the claimant," presented himself at the bar unattended after his election for Spoken-up-Trent in February, 1875. The speaker informed him of the usage of the house, and as he could not get two members to accompany him to the table he was obliged to leave.

It was only by a special resolution of the house, moved by Mr. Dierrell, its leader at the time, that Dr. Kenely was allowed to take his seat without complying with the usual practice.

When men assemble together in social life, as in a theater or at a meeting, the ordinary custom is to uncover the head and to don their hats as they enter or leave the place.

In parliamentary life that rule is reversed. Members can wear their hats only when they are seated on the benches. As they walk to the seats or rise to leave the chamber they must be uncovered. The custom of the present day is to uncover the head when one enters or leaves the chamber.

An offending member, startled by the shout which greeted him as he was leaving the chamber with his hat on his head instead of in his hand, paused in the middle of the floor and looked around with a mingled expression of fright and perplexity. "Hat, hat!" shouted the house.

This only embarrassed him the more. He felt his trousers pockets and his coat tails for the offending article of attire. He even looked at his feet to see if he were wearing it at that emergency of his person. It is impossible to conjecture what might have happened further had not Dr. Tanner walked up to the offending member, and amid the loud laughter of the house politely took off his hat and then handed it to him with a courtly bow.

The hat always has important parts in parliamentary customs. It also contributes occasionally to the gaiety of life in the house of commons. No incident is greeted with more hearty laughter than the spectacle of a member, after a magnificent oration, plumping down on his silk hat on the bench behind him.

The bashful and awkward member generally figures in those accidents. But the misfortune has befallen even old and cool parliamentary hands like Mr. Chamberlain and Sir William Harcourt, and has happily spoiled the effect of a few of their most eloquent speeches.

A few years ago Mr. R. G. Webster, member for East St. Pancras sat down after his maiden speech on a silk hat, which he had provided in honor of the auspicious occasion, and as he was ruefully surveying his battered head-tire to the amusement of the laughing spectators, Mr. Edward Harrington, an Irish representative, rose and gravely said: "Mr. Speaker, permit me to congratulate the honorable member on the happy circumstance that when he sat on his hat his head was not in it." The strident call of "Order, order!" from the Speaker was drowned in roars of laughter.

In probably every other legislative chamber in the world each member has a special seat allotted to him. But though there are 670 members in

MINISTER FOR THE SECRETARY

HAS SUCCESSFULLY USED DR. AGNEW'S CATARRHAL POWDER PERSONALLY AND IN HIS FAMILY.

Mr. J. J. Jenkins, private secretary to Hon. Geo. E. Foster, Minister of Finance, has found in Dr. Agnew's Catarrhal Powder a successful remedy for the removal of catarrhal troubles. He has not covered its use to himself, but states that it has been used with the most pleasing and successful results by other members of his family.

One short puff of the breath through the blowly, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delightful to use it relieves in ten minutes, and permanently cures Catarrh of the Nose, Colds, Headaches, Sore Throat, Tonsillitis and Deafness. For sale at Dodd's Medical Hall.

The old-fashioned copper cent was authorized by act of Congress, April 22, 1892, and its coinage was begun the following year.

When the system is run down a person comes as a easy prey to Consumption or Scrofula. Many valuable lives are saved by using Scott's Emulsion as soon as a decline health is observed.

How to Breathe. Breathing is an art. We ought to take in fourteen pints of air per minute. At the usual rate of breathing we do so. But if we get into a rarefied atmosphere we take in, at the usual rate of breathing, less than the fourteen pints. Scarcity of air can get all our advantages to health of a long walk or other exercise by simply increasing the rate of breathing during one or two hours a day, thus adding to the amount of oxygen that enters the lungs.

Pain's Celery Compound a Priceless Blessing For suffering Humanity

November, with its variable weather, is a month of terror and torture for all rheumatic sufferers.

At this time, a remedy that has power to eradicate the cause of rheumatism from the system is indeed a priceless blessing. Such a remedy, for all forms of rheumatism, will be found in Pain's Celery Compound.

In thousands of cases Pain's Celery Compound has been given wonderful and magical results.

It is a purifier, deby not a moment; procure Pain's Celery Compound and test its powers. If you are vainly trying to effect a cure with medicines, throw them aside and use the medicine that is now curing your friends and neighbors.

Mrs. J. Vance, Barrie, Ont., after vain attempts to effect a cure with the ordinary medicine, gained from an interview with Pain's Celery Compound with truly blessed results. She writes: "I am happy to say that I have taken Pain's Celery Compound with great results. I had scatica so badly that I could not turn in bed or walk without help; and for a period of three weeks was helplessly laid up and suffered pain that at times was unbearable."

I have been a victim of rheumatism for seven years, being confined to my bed for months at a time, unable to turn myself. I have been treated by many physicians in this part of the country, none of whom benefited me. I had no faith in rheumatism cures advertised, but my wife induced me to get a bottle of South American Rheumatic Cure from Mr. Taylor, Druggist, of Owen Sound. At the time I was suffering agonizing pain, but inside of twelve hours after I took the first dose the pain let me. I continued until I took three bottles, and I consider am completely cured. Signed J. D. McLeod, Leith P. O., Ont. For sale at Dodd's Medical Hall.

THE PLAIN REASON WHY HEART DISEASE CLAIMS MANY VICTIMS.

If the many, who in some degree, are troubled with affection of the heart would but keep near them a remedy which would ease trouble before it assumes more serious conditions, life would many a time be saved. This is one of the most striking elements of Dr. Agnew's Cure for the Heart. When palpitation, dizziness, that terrible mothering feeling, shows itself, a single dose of this medicine taken promptly, will remove the immediate trouble, and a little persevering care the continuance of the remedy will banish the disease.
